In Praise of Shadows Jun'ichirō Tanizaki,Junichiro Tanizaki,2024-03-21 "In Praise of Shadows" (影の礼賛, "In'ei Raisan" in Japanese) is an essay written by the renowned Japanese author Jun'ichirō Tanizaki. It was first published in 1933. The essay explores Tanizaki's aesthetic philosophy, particularly his appreciation for traditional Japanese culture and the beauty of shadows, darkness, and subtlety. Tanizaki reflects on the contrast between Western and Japanese aesthetics, emphasizing the preference for darkness and shadows in traditional Japanese architecture, interior design, and cultural practices. He celebrates the aesthetic qualities of dimly lit spaces, muted colors, and natural materials, arguing that they evoke a sense of mystery, depth, and tranquility that is lacking in the bright, artificial illumination favored in the West. Throughout the essay, Tanizaki discusses various aspects of Japanese culture, such as the tea ceremony, lacquerware, architecture, and literature, to illustrate his points about the beauty of shadows and the importance of preserving traditional craftsmanship and sensibilities in the face of modernization. "In Praise of Shadows" is not only a meditation on aesthetics but also a reflection on the cultural identity and values of Japan. It has been widely praised for its eloquent prose, thought-provoking ideas, and insightful observations about the interplay between light and shadow in shaping human perception and experience. The essay continues to be studied and admired for its enduring relevance and its exploration of the timeless qualities of beauty and elegance.

Community Building and Early Public Relations Donnalyn Pompper,2021 From the start, women were central to a century of westward migration in the U.S. Community Building and Early Public Relations: Pioneer Women's Role on and after the Oregon Trail offers a path forward in broadening PR's Caucasian/White male-gendered history in the U.S. Undergirded by humanist, communitarian, critical race theory, social constructionist perspectives, and a feminist communicology lens, this book analyzes U.S. pioneer women's lived experiences, drawing parallels with PR's most basic functions--relationship building, networking, community building, boundary spanning, and advocacy. Using narrative analysis of diaries and reminiscences of women who travelled 2,000+ miles on the Oregon Trail in the mid-to-late 1800s, Pompper uncovers how these women filled roles of Caretaker/Advocate, Community Builder of Meeting Houses and Schools, served a Civilizing Function, offered Agency and Leadership, and provided Emotional Connection for Social Cohesion. Revealed also is an inevitable paradox as Caucasian/White pioneer women's interactional qualities made them complicit as colonizers forever altering indigenous peoples' way of life. This book will be of interest to undergraduate and graduate PR students, PR practitioners, and researchers of PR history and social identity intersectionalities. It encourages us to expand the definition of PR to include community building and to revise linear timeline and evolutionary models to accommodate voices of women and people of color prior to the 20th century--
