The Dragon's Gift Terese Tse Bartholomew,John Johnston,Honolulu Academy of Arts,2008 The Dragon's Gift offers a rare opportunity to introduce, to the wider international audience, some of the most sacred Buddhist images of Bhutan. From the wealth of material surveyed, the organizers of the exhibition have selected over one hundred objects of superior aesthetic achievement and deep religious significance, the vast majority of which have never before been seen in the West. Nearly all of the works of art presented in this catalogue are from active temples and monasteries and remain in ritual use. Most of the items are painted or textile thangkas or gilt bronze sculptures which date primarily from the 17th to the 19th centuries - a golden age in the Buddhist arts of Bhutan. Ranging from depictions of Tantric deities to individualized portraits of Buddhist masters, the exhibition and catalogue present outstanding works of art with a wide iconographic scope. For the Buddhist people of Bhutan, these sacred items are conceived as supports along the journey to enlightenment,

and are of vital spiritual significance. Complementing the presentation of sacred works of art is the documentation of the ancient Cham dances of Bhutan, to which the dance preservation team was given privileged entree. Having documented over three hundred hours of sacred and secular dances, they have made a first assay of one of the few surviving treasures of the trans-Himalayan movement tradition. These differing approaches to the visual and moving arts provide further insight into the unique experience of Buddhism in Bhutan. A brief sampling of the variety of extant dance lineages - some many centuries old - is included on the DVD contained within the catalogue.-- Publisher's website.

Earth Keeper N. Scott Momaday, 2020-11-03 Dazzling. . . . In glittering prose, Momaday recalls stories passed down through generations, illuminating the earth as a sacrosanct place of wonder and abundance. At once a celebration and a warning, *Earth Keeper* is an impassioned defense of all that our endangered planet stands to lose. — Esquire A magnificent testament to the earth, from Pulitzer Prize-winning novelist and poet N. Scott Momaday. One of the most distinguished voices in American letters, N. Scott Momaday has devoted much of his life to celebrating and preserving Native American culture, especially its oral tradition. A member of the Kiowa tribe, Momaday was born in Lawton, Oklahoma and grew up on Navajo, Apache, and Pueblo reservations throughout the Southwest. It is a part of the earth he knows well and loves deeply. In *Earth Keeper*, he reflects on his native ground and its influence on his people. "When I think about my life and the lives of my ancestors, he writes, I am inevitably led to the conviction that I, and they, belong to the American land. This is a declaration of belonging. And it is an offering to the earth." In this wise and wonderous work, Momaday shares stories

and memories throughout his life, stories that have been passed down through generations, stories that reveal a profound spiritual connection to the American landscape and reverence for the natural world. He offers an homage and a warning. He shows us that the earth is a sacred place of wonder and beauty, a source of strength and healing that must be honored and protected before it's too late. As he so eloquently and simply reminds us, we must all be keepers of the earth.

Typographic Systems of Design Kimberly

Elam, 2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial, modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.
