Why Did Hitler Hate the Jews? Peter den Hertog, 2020-09-30 This investigation into the Nazi leader's mindset is "an inherently fascinating study . . . a work of meticulously presented and seminal scholarship" (Midwest Book Review). Adolf Hitler's virulent anti-Semitism is often attributed to external cultural and environmental factors. But as historian Peter den Hertog notes in this book, most of Hitler's contemporaries experienced the same culture and environment and didn't turn into rabid Jew-haters, let alone perpetrators of genocide. In this study, the author investigates what we do know about the roots of the German leader's anti-Semitism. He also takes the significant step of mapping out what we do not know in detail, opening pathways to further research. Focusing not only on history but on psychology, forensic psychiatry, and related fields, he reveals how Hitler was a man with highly paranoid traits, and clarifies the causes behind this paranoia while explaining its connection to his anti-Semitism. The author also explores, and answers, whether the Führer gave one specific instruction ordering the elimination of Europe's Jews, and, if so, when this took place. Peter den Hertog is able to provide an all-encompassing explanation for Hitler's anti-Semitism by combining insights from many different disciplines—and makes clearer how Hitler's own particular brand of anti-Semitism could lead the way to the Holocaust.

New Horizons for Asian Museums and Museology Naoko Sonoda, 2016-07-20 This book presents up-to-date information about museums and museology in present-day Asia, focusing on Japan, Mongolia, Myanmar, and Thailand. Asian countries today have developed or are developing their own museology and museums, which are not simple copies of European or North American models. This book provides readers with carefully chosen examples of museum activities—for example, exhibition and sharing information, database construction, access to and conservation of museum collections, relationships between museums and local communities, and international cooperation in the field of cultural heritage. Readers are expected to include museum professionals and museology students. Throughout the course of this book, the reader will understand that a museum is not only a place for collecting, representing, and preserving cultural heritage but also plays a fundamental role in community development. This book is highly recommended to readers who seek a worldwide vision of museum studies. The peer-reviewed chapters in this volume are written versions of the lectures delivered by selected speakers at the international symposium New Horizons for Asian Museums and Museology held in February 2015 at the National Museum of Ethnology, Japan.

Buddhist Art of Myanmar Sylvia Fraser-Lu, Donald Martin Stadtner, 2015-01-01 A stunning showcase of exceptional and rare works of Buddhist art, presented to the international community for the first time. The practice of Buddhism in Myanmar (Burma) has resulted in the production of dazzling objects since the 5th century. This landmark publication presents the first overview of these magnificent works of art from major museums in Myanmar and collections in the United States, including sculptures, paintings, textiles, and religious implements created for temples and monasteries, or for personal devotion. Many of these pieces have never before been seen outside of Myanmar. Accompanied by brilliant color photography, essays by Sylvia Fraser-Lu, Donald M. Stadtner, and scholars from around the world synthesize the history of Myanmar from the ancient through colonial periods and discuss the critical links between religion, geography, governance, historiography, and artistic production. The authors examine the multiplicity of styles and techniques throughout the country, the ways Buddhist narratives have been conveyed through works of art, and the context in which the diverse objects were used. Certain to be the essential resource on the subject, Buddhist Art of Myanmar illuminates two millennia of rarely seen masterpieces.

Freedom from Fear Aung San Suu Kyi,2010-07-14 Freedom from Fear - collected writings from the Nobel Peace prize winner Aung San Suu Kyi Aung San Suu Kyi's collected writings - edited by her late husband, whom the ruling military junta prevented from visiting Burma as he was dying of cancer - reflects her greatest hopes and fears for her fellow Burmese people, and her concern about the need for international co-operation in the continuing fight for Burma's freedom. Bringing together her most powerful speeches, letters and interviews, this remarkable collection gives a voice to Burma's 'woman of destiny', whose fate remains in the hands of her enemies. Recipient of the Nobel Peace Prize and the Sakharov Prize for Freedom of Thought, and leader of Burma's National League for Democracy, Aung San Suu Kyi is one of the world's greatest living defenders of freedom and democracy, and an inspiration to millions worldwide. This book sits alongside Nelson Mandela's memoir Long Walk to Freedom. 'This book is bound to become a classic for a new generation of Asians who value democracy even more highly than Westerners do, simply because they are deprived of the basic freedoms that Westerners take for granted'The New York Times 'Aung San Suu Kyi's extraordinary achievement has been to confront the regime peacefully, reasonably and persuasively... [in] one of the most laudable continuing acts of political courage' Financial Times 'Such is the depth of passion and learning that she brings to her writings about national identity and its links with culture and language that she has attracted the admiration of intellectuals around the world' Sunday Times Aung San Suu Kyi is the leader of Burma's National League for Democracy. She was placed under house arrest in Rangoon in 1989, where she remained for almost 15 of the 21 years until her release in 2010, becoming one of the world's most prominent political prisoners. She is also the author of Letters from Burma.

Breaking India Rajiv Malhotra,Aravintan_ Nilakantan_,2011 This book focuses on the role of U.S. and European churches, academics, think-tanks, foundations, government and human rights groups in fostering separation of the identities of Dravidian and Dalit communities from the rest of India. It is the result of five years of research, and uses information obtained in the West about foreign funding of these Indian-based activities. The research tracked the money trails that start out claiming to be for education, human rights, empowerment training and leadership training, but end up in programs designed to produce angry youths who feel disenfranchised from Indian identity. The book reveals how outdated racial theories continue to provide academic frameworks and fuel the rhetoric that can trigger civil wars and genocides in developing countries. The Dravidian movement's 200-year history has such origins. Its latest manifestation is the Dravidian Christianity - movement that fabricates a political and cultural history to exploit old faultlines. The book explicitly names individuals and institutions, including prominent Western ones and their Indian affiliates. Its goal is to spark an honest debate on the extent to which human rights and other empowerment projects are cover-ups for these nefarious activities.

Dutch Ships in Tropical Waters Robert Parthesius,2010 The end of the 16th century saw Dutch expansion in Asia, as The Dutch East India Company (the VOC) was fast becoming an Asian power, both political and economic. By 1669, the VOC was the richest private company the world had ever seen. This landmark study looks at perhaps the most important tool in the Company' trading - its ships. In order to reconstruct the complete shipping activities of the VOC, the author created a unique database of the ships' movements, including frigates and other, hitherto ingored, smaller vessels. Parthesius's research into the routes and the types of ships in the service of the VOC proves that it was precisely the wide range of types and sizes of vessels that gave the Company the ability to sail - and continue its profitable trade - the year round. Furthermore, it appears that the VOC commanded at least twice the number of ships than earlier historians have ascertained. Combining the best of maritime and social history, this book will change our understanding of the commercial dynamics of the most successful economic organization of the period.
