Panzerfaust and Panzerschreck Gordon L.

Rottman,2014-08-20 Two of World War II's most distinctive weapons, the Panzerfaust and Panzerschreck offered German and other infantrymen the ability to destroy enemy tanks singlehandedly at close ranges. While the Panzerschreck owed its origins largely to the US bazooka, the Panzerfaust was a revolutionary design that was unlike any previous weapon, and went on to influence anti-tank technology and tactics for decades after World War II. Allied troops, notably Soviet forces, made widespread use of captured Panzerfäuste, and they were also supplied to German allies such as Finland, Hungary and Bulgaria. Written by an expert on anti-tank warfare, this book reveals the fascinating development history of these two feared weapons and assesses the tactics that were employed by the soldiers using them.

US Special Ops Fred Pushies,2016-07 Military author and spec ops expert, Fred Pushes, profiles weapons, missions, vehicles, and iconic commandos from the eighteenth-century to now.

Soldier Girls Helen Thorpe,2014-08-05 "A raw, intimate look at the impact of combat and the healing power of friendship" (People): the lives of three women deployed to Afghanistan and Iraq, and the effect of their military service on their personal lives and families—named a best book of the year by Publishers Weekly. "In the tradition of Adrian Nicole LeBlanc, Richard Rhodes, and other masters of literary journalism, *Soldier Girls* is utterly absorbing, gorgeously written, and unforgettable" (The Boston Globe). Helen Thorpe follows the lives of three women over twelve years on their paths to the military, overseas to combat, and back home...and then overseas again for two of them. These women, who are quite different in every way, become friends, and we watch their interaction and also what happens when they are separated. We see their families, their lovers, their spouses, their children. We see them work extremely hard, deal with the

attentions of men on base and in war zones, and struggle to stay connected to their families back home. We see some of them drink too much, have affairs, and react to the deaths of fellow soldiers. And we see what happens to one of them when the truck she is driving hits an explosive in the road, blowing it up. She survives, but her life may never be the same again. Deeply reported, beautifully written, and powerfully moving, *Soldier Girls* is “a breakthrough work...What Thorpe accomplishes in *Soldier Girls* is something far greater than describing the experience of women in the military. The book is a solid chunk of American history...Thorpe triumphs” (The New York Times Book Review).

Halo: Oblivion Troy Denning, 2020-04-07 A Master Chief story and original full-length novel set in the Halo universe—based on the New York Times bestselling video game series! 2526. It has been more than a year since humanity first encountered the hostile military alliance of alien races known as the Covenant, and several weeks after the United Nations Space Command’s devastating counterattack of Operation: SILENT STORM was deemed an overwhelming success. The UNSC has put its faith in the hands of the Spartans, led by the legendary Master Chief, John-117: enhanced super-soldiers raised and trained from childhood via a clandestine black ops project to be living weapons. But the Covenant—enraged and fearful of their enemy’s unexpected strategies and prowess—is not taking its recent defeat lightly, and is now fully determined to eradicate humanity from existence, brutally overrunning the ill-fated planets of the Outer Colonies faster than retreats can be ordered. If the UNSC has any chance of stemming the tide of the war, the Master Chief and Blue Team must drop onto an empty, hellish world in order to capture a disabled Covenant frigate filled with valuable technology. It has all the makings of a trap, but the bait is far too tempting to ignore—and this tantalizing prize is being offered by a disgraced and vengeful Covenant fleetmaster, whose sole opportunity for redemption lies in extinguishing humanity’s only hope of survival...

Halo: The Flood William C. Dietz, 2019-01-01 The bestselling adaptation of the iconic video game *Halo: Combat Evolved* featuring the Master Chief—part of the expanded universe based on the award-winning video game series! 2552. Having barely escaped the final battle for Reach against the vast alien alliance known as the Covenant, the crew of the *Pillar of Autumn*, including Spartan John-117—the Master Chief—and his AI companion Cortana, is forced to make a desperate escape into slipspace. But their destination brings them to an ancient mystery and an even greater struggle. In this far-flung corner of the universe floats a magnificently massive, artificial ringworld. The crew's only hope of

survival is to crash-land on its surface and take the battle opposing the Covenant to the ground. But they soon discover that this enigmatic ringworld is much more than it seems. Built one hundred thousand years ago by a long-lost civilization known as the Forerunners, this “Halo” is worshipped by the Covenant—a sacred artifact they hope will complete their religious quest for supposed transcendence, and they will stop at nothing to control it. Engaging in fierce combat, Master Chief and Cortana will go deep into the Halo construct and uncover its dark secret and true purpose—even as a monstrous and far more vicious enemy than the Covenant emerges to threaten all sentient life on Halo and the galaxy beyond...

Alpha Status Nathan Ikon Crumpton, 2021-12-26 If capitalism were a person, who would it be? Where would it live? Who, how, and what would it love? Dive into the salacious world of hedge funds, high finance, and penthouse sex dungeons. This raucous tale of a wildly successful New York fund manager and his globetrotting adventures reflects the stark new reality of contemporary uber-wealth, and the capitalist system which created it. Become enraptured with - or repulsed by - the heinously opulent world of the anonymous protagonist and his class of modern billionaires. But challenging the protagonist's high-flying escapades in finance and sexual conquest is his twin brother, a maudlin comparative literature professor and single father. With a life defined by tragedy, the brother becomes the countervailing voice of reason and social tranquility. Filled with equal parts fictitious plotline and broadly researched non-fiction sources, this book offers pointed analysis of the 21st century socio-economic landscape, and begs critical questions about how

capitalism can try to reconcile its avaricious nature with a world demanding a more equitable division of resources. Enlightening yet critical. Serious yet absurd. Fictitious yet factual. This non-fiction novel provides graphic and unapologetic scrutiny from both extremes of the contemporary socio-economic spectrum.

Shadow Warriors Paul O'Brien, Wayne Fitzgerald, 2020-04-03
In the spring of 1980, the Irish Department of Defence sanctioned the establishment of a new unit within the Irish Defence Forces and the Irish Army Ranger Wing (ARW) came into being. In the decades that followed, its soldiers have been deployed on active service at home and abroad, generally without the knowledge of the wider public. The ARW is made up of seasoned men from across the island, who are selected through tough competition. Only the best of the best make it through and are trained in an extraordinary range of specialist skills. Being one of these elite operators takes more than simply being a skilled soldier – it means believing you are the best. *Shadow Warriors* tells the story behind the creation of the ARW, from its origins in specialist counter-terrorism training in the late 1960s and the preparation of small unconventional units in the 1970s to the formation of the ARW itself in 1980 and its subsequent history. The first and only authoritative account in the public domain of this specialist unit, authors Paul O'Brien and Sergeant Wayne Fitzgerald have been granted access to the closed and clandestine world of Ireland's Special Forces, who train hard, fight harder and face unconventional types of warfare, yet prefer to stay out of the limelight.

Orc Warfare Chris Pramas, 2017-12-15
Despite their constant infighting and backstabbing, orc horde armies remain a dire threat to all races. To them, war is life. Beginning with an examination of the fighting methods of the individual orc warrior, the book expands to look at how they do battle in their small warbands and in vast armies. Using vivid illustrations, it reveals the tactics, strategies, and technology of all the orc troop types, from lightly

armed archers and heavily armored shock troops to their wolf cavalry and siege engines. Finally, it explores specific key battles to develop the fullest possible understanding of these loathsome, terrifying creatures and the ways in which they wage war.

No Hero Mark Owen, Kevin Maurer, 2015-11-03 Recounts definitive moments from the author's career as a Navy SEAL, discussing the missions that had the greatest personal meaning for him and explaining the lessons and values he hopes to pass on to the next generation.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

It also includes a modular vehicle-design system for tailoring equipment in alternate-history campaigns or simply perfecting the unstoppable tank! This is the core book for a complete line of GURPS WWII volumes. These

further illustrate specific nations and theaters, the naval and air wars, additional equipment, and much more.

Monster Hunter International, Second Edition Larry Correia, 2015-05-13 Contains an all-new afterword by New York Times best-selling author Larry Correia! Welcome to Monster Hunter International. Five days after Owen Zastava Pitt pushed his insufferable boss out of a fourteenth story window, he woke up in the hospital with a scarred face, an unbelievable memory, and a job offer. It turns out that monsters are real. All the things from myth, legend, and B-movies are out there, waiting in the shadows. Officially secret, some of them are evil, and some are just hungry. On the other side are the people who kill monsters for a living. Monster Hunter International is the premier eradication company in the business. And now Owen is their newest recruit. It's actually a pretty sweet gig, except for one little problem. An ancient entity known as the Cursed One has returned to settle a centuries old vendetta. Should the Cursed One succeed, it means the end of the world, and MHI is the only thing standing in his way. With the clock ticking towards Armageddon, Owen finds himself trapped between legions of undead minions, belligerent federal agents, a cryptic ghost who has taken up residence inside his head, and the cursed family of the woman he loves. Business is good . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). Lexile Score: 710
