**Ask a Manager** Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the

holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

**Encyclopedia of American Short Films, 1926-1959** Graham Webb,2020-07-13

Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound-on-film in the mid-to-late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War, and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s.

*Hot Mess* Matt Winning,2021-11-11 'A very funny, important and only moderately terrifying clarion call of a book' - Adam Kay 'HOT MESS provides loads of laughs about the climate situation and will position you at the right point between fear and determination' - Mark Watson 'Hilarious, informative and worrying in equal measure. And that's just the bits about

having a baby' - Josie Long For fans of Randall Munro's WHAT IF? Matt Parker's HUMBLE PI and anyone looking for practical tips on how to stop the end of the world! Dr Matt Winning is a stand-up comedian and environmental economist with a PHD in climate change policy, which means he's the sort of doctor who will rush to your side if you fall ill on a plane, but only to berate you for flying. We are currently facing a global climate emergency. You've probably noticed. But why does the end of the world need to be so depressing? HOT MESS aims to both lighten the mood and enlighten readers on climate change. This is a book for people who care about climate change but aren't doing much about it, helping readers understand what the main causes of climate change are, what changes are needed, and what they can (and cannot) do about it. But, most importantly, it is book that'll help people find the comedy in climate change, because if we can do that, well, we can do bloody anything. 'Climate change is no laughing matter - oh yes it is - with Matt Winning's superb, hilarious, side-splitting book that makes you take a whole new look at the climate crisis, surviving having children and life in general' - Mark Maslin, author of How to Save Our Planet 'The first book about climate change that made me laugh out loud. If you've been too freaked out to subject yourself to the climate crisis, Hot Mess is the kick in the pants you need to start making yourself useful.' - Prof. Kimberly Nicholas, author of Under the Sky We Make: How to Be Human in a Warming World
