The Secret of Our Success Joseph Henrich,2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Although converted for the most recent edition, this material is presented in a distinct early 1980s style, tone, and presentation. We Spread Iain Reid,2022-09-27 The author of the “evocative, spine-tingling, and razor-sharp” (Bustle) I’m Thinking of Ending Things that inspired the Netflix original movie and the “short, shocking” (The Guardian) *Foe* returns with a new work of suspense following an elderly woman trapped in a mysterious facility. Penny, an artist, has lived in the same apartment for decades, surrounded by the artifacts and keepsakes of her long life. She is resigned to the mundane rituals of old age, until things start to slip. Before her longtime partner passed away years earlier, provisions were made for a room in a unique long-term care residence, where Penny finds herself after one too many “incidents.” Initially, surrounded by peers, conversing, eating, sleeping, looking out at the beautiful woods that surround the house, all is well. She even begins to paint again. But as the days start to blur together, Penny—with a growing sense of unrest and distrust—starts to lose her grip on the passage of time and on her place in the world. Is she succumbing to the subtly destructive effects of aging or is she an unknowing participant in something more unsettling? At once compassionate and uncanny, told in spare, hypnotic prose, Iain Reid’s “exquisite novel of psychological suspense” (Publishers Weekly, starred review) explores questions of conformity, art, productivity, relationships, and what, ultimately, it means to grow old.

The Pint Man Steve Rushin,2010-02-23 A funny and endearing novel about the comforts of a never-ending adolescence and the glories of Guinness. For Rodney Poole, a friendly and unassuming lover of clever wordplay and television sports of all stripes, Boyle's Irish Pub is a haven of good cheer, pleasantly pointless conversation, elaborate jokes, heated trivia contests, well-poured pints, and familiar faces. The pressures and demands of the outside world hold no sway there- the crowd at Boyle's is his family, and with family all sins are forgiven. But reality cannot be kept at bay forever, and now Rodney's best friend and partner in inertia, Keith, is getting married and moving to Chicago. Since Rodney has for the most part enjoyed his bachelorhood vicariously through Keith, the prospect of being single, middle-aged, unemployed, and without his pal to while away the nights with is causing Rodney to rethink—or rather, create—his priorities. When Keith introduces him to the lovely Mairead (rhymes with parade), a cheerful career woman who seems to enjoy his bad puns, ambitionless nature, and love of literature, Rodney can spy an honorable path to grown-up-hood at last. But a series of comic mishaps jeopardize his budding relationship with Mairead, his friendship with Keith, and most serious of all, his place on a barstool in the idyllic world of Boyle's.
