The Yellow Wall-Paper Charlotte Perkins Gilman,2024-03-21 She has just given birth to their child. He labels her postpartum depression as »hysteria.« He rents the attic in an old country house. Here, she is to rest alone – forbidden to leave her room. Instead of improving, she starts hallucinating, imagining herself crawling with other women behind the room's yellow wallpaper. And secretly, she records her experiences. The Yellow Wall-Paper [1892] is the short but intense, Gothic horror story, written as a diary, about a woman in an attic – imprisoned in her gender; by the story. Charlotte Perkins Gilman's feminist novella was long overlooked in American literary history. Nowadays, it is counted among the classics. CHARLOTTE PERKINS GILMAN (1860–1935), born in Hartford, Connecticut, was an American feminist theorist, sociologist, novelist, short story writer, poet, and playwright. Her writings are precursors to many later feminist theories. With her radical life attitude, Perkins Gilman has been an inspiration for many generations of feminists in the USA. Her most famous work is the short story The Yellow Wall-Paper [1892], written when she suffered from postpartum psychosis.

A Story) is a 6,000-word short story by the American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine. It is regarded as an important early work of American feminist literature, illustrating attitudes in the 19th century toward women's health, both physical and mental. Presented in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Foregoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment she is forbidden from working, and is encouraged to eat well and get plenty of exercise and air, so she can recuperate from what he calls a temporary nervous depression - a slight hysterical tendency, a diagnosis common to women in that period. She hides her journal from her husband and his sister the housekeeper, fearful of being reproached for overworking herself. Because it's a nursery the room's windows are barred, to prevent children from climbing through them, and there is a gate across the top of the stairs, though she and her husband have access to the rest of the house and its adjoining estate.

This accessible and highly practical guide is rich with examples that will change the way you think about education while providing hands-on “how-to” guidance for creating a culture of excellence and innovation in your school and classroom.

Teaching Modernist Women's Writing in English Janine Utell, 2021-04-25 As authors and publishers, individuals and collectives, women significantly shaped the modernist movement. While figures such as Virginia Woolf and Gertrude Stein have received acclaim, authors from marginalized communities and those who wrote for mass, middlebrow audiences also created experimental and groundbreaking work. The essays in this volume explore formal aspects and thematic concerns of modernism while also challenging rigid notions of what constitutes literary value as well as the idea of a canon with fixed boundaries. The essays contextualize modernist women's writing in the material and political concerns of the early twentieth century and in life on the home front during wartime. They consider the original print contexts of the works and propose fresh digital approaches for courses ranging from high school through graduate school. Suggested assignments provide opportunities for students to write creatively and critically, recover forgotten literary works, and engage with their communities.

All the Light We Cannot See Anthony Doerr, 2014-05-06 *NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

Sexless in the City Kat Harris, 2021-04-20 Discover a renewed biblical vision for sex, singleness, and relationships, and transform into an empowered woman of faith equipped to navigate today's dating culture with vision, clarity, and freedom. Let's face it: being single in today's culture as a woman of faith can be a STRUGGLE FEST. But it doesn't have to be. With real talk and straight wisdom, speaker, podcaster, and founder of The Refined Woman Kat Harris says it's time for a new conversation about singleness, sex, and desire. Growing up at the height of the purity movement, Kat knew this much: good Christians don't have sex until marriage. But approaching 30 and thrust into the New York City dating scene, she found a set of rules was not a compelling enough reason to keep her clothes on. Caught between purity culture's rules and popular culture's do what feels good, Kat began a multi-year journey searching for answers to the biggest questions about sexuality and faith: What does the Bible really say about sex? Why does almost everyone deal with some sort of sexual shame? But really--what's a single girl to do with her sexual desire? What if we never get married . . . then what? It turns out Kat was asking questions that countless women were dying to ask but didn't know they had the permission to do so. Hungry for clarity, she researched, wrestled, and discovered a God who wasn't afraid or ashamed of sex and desire as she thought He might be. In actuality, God created sex and desire within humanity

and called it very good. Now she believes God desires to restore a generation disillusioned with purity culture and Christian dating, discouraged about their singleness, ashamed of their sexual desire, and uncertain how to practically walk this season out well. Join Kat on her messy, sometimes painful, and always honest journey to discovering God's heart for sexuality, desire, singleness, and our purpose within it all.

The Internet of Women - Accelerating Culture Change Nada Anid, Monique J. Morrow, Laurie Cantileno, 2022-09-01 Female scientists, technologists, engineers, and mathematicians worldwide are making historic contributions to their fields. The modern workforce is closer to gender-equal than it has ever been, and many efforts are in place to support further progress. The Internet of Women provides an exciting look at personal narratives and case studies of female leaders and cultural shifts around the globe that illustrate this promising trend. From the United Nations' emphasis on girls and technology education in the SDGs (Sustainable Development Goals) to the increased female labor force in Zambia, a policy change that was inspired by the MDGs (UN Millennium Development Goals), The Internet of Women captures stunning examples of progress from around the world and men working hand in hand with women advocating for cultural change. Scholars and practitioners lament the lack of women leading and working in leading organizations in the technology industry. Gender equality and female participation in the tech field is critical to both developing and developed economies; nevertheless, this gap remains a global phenomenon. The lack of female leadership is particularly extreme at the highest echelons of leading technology organizations. Few publicly traded tech companies have female CEOs - in fact, most nations have zero female leadership in the tech industry. This gap does indicate a slow pace of progress for gender equality in tech employment. Women's pay still lags nearly a decade behind, according to the World Economic Forum, meaning that women's on average pay today is the equivalent to that of similarly qualified and similarly employed men in 2006. Without significant progress, the current rate of change will not lead to parity for 118 years, according to the World Economic Forum (WEF). However there's significant work being done to shift this tide. Take for instance Michelle Lee, the first female Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office (USPTO), reflects on her childhood Girl Scout badge in sewing and cooking and how that memory inspired to create an IP badge that exposes young women to the process of invention. Social entrepreneur, investor, and Malala Fund co-founder Shiza Shahid shares her efforts beginning from mentoring young women in Pakistan to her current work directing more investment to women innovators around the globe. And Elizabeth Isele, a senior fellow in Social Innovation at Babson College, shares her research on women and ageism saying we need to retire the word retirement. The book is divided into six parts, each with unique areas of focus: • Millennials Leading: Exploring Challenges and Opportunities Facing the Next Generation of Women in Technology • Men and Women Empowering One Another • Bold Leadership: Women Changing the Culture of Investment and Entrepreneurship • Educating for the 21st Century • Breaking the Glass Ceiling: A Generation of Women Forging into Technology Leadership • Emerging Fields of Technology The Internet of Women gathers examples about the increasingly inclusive and progressive gender culture in technology from over 30 countries. Stories range from an entrepreneur in Dubai partnering with private and public sector entities to accelerate blockchain technology to a young British woman moving to Silicon Valley to launch an artificial intelligence platform and incubator. The book is intended for corporations, academic institutions, the private sector, government agencies, gender experts, and the general public, and its key benefit is to let the reader understand a path towards implementing diversity overall globally. It also showcases the strategies, tools, and tactical execution on how create cultural change in all parts of the world.

Out There Kate Folk, 2022-03-29 A thrilling new voice in fiction injects the absurd into the everyday to present a startling vision of modern life, “[as] if Kafka and Camus and Bradbury were penning episodes of *Black Mirror*” (Chang-Rae Lee, author of *My Year Abroad*). “Stories so sharp and ingenious you may cut yourself on them while reading.”—Kelly Link, author of *Get In Trouble* With a focus on the weird and eerie forces that lurk beneath the surface of ordinary experience, Kate Folk's debut collection is perfectly pitched to the madness of our current moment. A medical ward for a mysterious bone-melting disorder is the setting of a perilous love triangle. A curtain of void obliterates the globe at a steady pace, forcing Earth's remaining inhabitants to decide with whom they want to spend eternity. A man fleeing personal scandal enters a codependent relationship with a house that requires a particularly demanding level of care. And in the title story, originally published in *The New Yorker*, a woman in San Francisco uses dating apps to find a partner despite the threat posed by “blots,”

preternaturally handsome artificial men dispatched by Russian hackers to steal data. Meanwhile, in a poignant companion piece, a woman and a blot forge a genuine, albeit doomed, connection. Prescient and wildly imaginative, *Out There* depicts an uncanny landscape that holds a mirror to our subconscious fears and desires. Each story beats with its own fierce heart, and together they herald an exciting new arrival in the tradition of speculative literary fiction.

Victorine Drema Drudge,2019-12 In 1863, civil war is raging in the United States. Victorine Meurent is posing nude, in Paris, for paintings that will be heralded as the beginning of modern art: Manet's *Olympia* and *Picnic on the Grass*. However, Victorine's persistent desire is not to be a model but to be a painter herself. In order to live authentically, she finds the strength to flout the expectations of her parents, bourgeois society, and the dominant male artists (whom she knows personally) while never losing her capacity for affection, kindness, and loyalty. Possessing both the incisive mind of a critic and the intuitive and unconventional impulses of an artist, Victorine and her survival instincts are tested in 1870, when the Prussian army lays siege to Paris and rat becomes a culinary delicacy. Dr. Drema Drudge's powerful first novel *Victorine* not only gives this determined and gifted artist back to us but also recreates an era of important transition into the modern world.

The result is an ideal social order: free of war, conflict, and domination. It was first published in monthly installments as a serial in 1915 in *The Forerunner*, a magazine edited and written by Gilman between 1909 and 1916, with its sequel, *With Her in Ourland* beginning immediately thereafter in the January 1916 issue. The book is often considered to be the middle volume in her utopian trilogy; preceded by *Moving the Mountain* (1911), and followed by, *With Her in Ourland* (1916). It was not published in book form until 1979.

The House on Mango Street Sandra Cisneros,2013-04-30 NATIONAL BESTSELLER • A coming-of-age classic about a young girl growing up in Chicago • Acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. “Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review *The House on Mango Street* is one of the most cherished novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. “In English my name means hope,” she says. “In Spanish it means too many letters. It means sadness, it means waiting. Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros’s masterpiece is a classic story of childhood and self-discovery and one of the greatest neighborhood novels of all time. Like Sinclair Lewis’s *Main Street* or Toni Morrison’s *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct. This gorgeous coming-of-age novel is a celebration of the power of telling one’s story and of being proud of where you're from.
