The Witches' Ointment Thomas Hatsis,2015-08-17 An exploration of the historical origins of the "witches' ointment" and medieval hallucinogenic drug practices based on the earliest sources • Details how early modern theologians demonized psychedelic folk magic into "witches' ointments" • Shares dozens of psychoactive

formulas and recipes gleaned from rare manuscripts from university collections all over the world as well as the practices and magical incantations necessary for their preparation • Examines the practices of medieval witches like Matteuccia di Francisco, who used hallucinogenic drugs in her love potions and herbal preparations In the medieval period preparations with hallucinogenic herbs were part of the practice of *veneficium*, or poison magic. This collection of magical arts used poisons, herbs, and rituals to bewitch, heal, prophesy, infect, and murder. In the form of psycho-magical ointments, poison magic could trigger powerful hallucinations and surrealistic dreams that enabled direct experience of the Divine. Smearred on the skin, these entheogenic ointments were said to enable witches to commune with various local goddesses, bastardized by the Church as trips to the Sabbat--clandestine meetings with Satan to learn magic and participate in demonic orgies. Examining trial records and the pharmacopoeia of witches, alchemists, folk healers, and heretics of the 15th century, Thomas Hatsis details how a range of ideas from folk drugs to ecclesiastical fears over medicine women merged to form the classical "witch" stereotype and what history has called the "witches' ointment." He shares dozens of psychoactive formulas and recipes gleaned from rare manuscripts from university collections from all over the world as well as the practices and magical incantations necessary for their preparation. He explores the connections between witches' ointments and spells for shape shifting, spirit travel, and bewitching magic. He examines the practices of some Renaissance magicians, who inhaled powerful drugs to communicate with spirits, and of Italian folk-witches, such as Matteuccia di Francisco, who used hallucinogenic drugs in her love potions and herbal preparations, and Finicella, who used drug ointments

to imagine herself transformed into a cat. Exploring the untold history of the witches' ointment and medieval hallucinogen use, Hatsis reveals how the Church transformed folk drug practices, specifically entheogenic ones, into satanic experiences.

Border Bang Jorge Guttiérrez, 2018-11-13 WHEN MEXICAN FOLKORE MEETS U.S. POP CULTURE!!!! Border Bang is a passionate love letter to the Tijuana and US border, documenting the bootleg artifacts sold to locals and tourists alike. Reappropriating the bombardment of pop culture images is the border's reaction to global issues and events, telling viewers and consumers not to glorify these situations but rather to acknowledge them through their subversive presentation. Border artisans and shysters digest the influx of international popular culture, reappropriating and reconfiguring images to express themselves and empower objects with subversive ideas masked underneath bold colors and text. Raised in Tijuana, Gutierrez crossed the border to the US to attend elementary and middle school. Each day, he was dazzled and entranced by the objects being sold, creating alternative narratives to the cartoon characters and celebrity portraits that he saw. Border Bang is a reflection of his childhood narrative, using images from Mickey Mouse to Tupac Shakur to convey the reflections and meditations of global events as witnessed by

the border, exploring his love affair with Mexican pop and folk culture.
