By Any Other Name Lauren Kate,2022-03-01 From # 1 New York Times bestselling author Lauren Kate comes an enemies-to-lovers romance about an editor, her bestselling author, and one life-changing secret. Undoing Privilege Professor Bob Pease,2013-04-04 For every group that is oppressed, another group is privileged. In *Undoing Privilege*, Bob Pease argues that privilege, as the other side of oppression, has received insufficient attention in both critical theories and in the practices of social change. As a result, dominant groups have been allowed to reinforce their dominance. *Undoing Privilege* explores the main sites of privilege, from

Western dominance, class elitism, and white and patriarchal privilege to the less-examined sites of heterosexual and able-bodied privilege. Pease points out that while the vast majority of people may be oppressed on one level, many are also privileged on another. He also demonstrates how members of privileged groups can engage critically with their own dominant position, and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege. This is an essential book for all who are concerned about developing theories and practices for a socially just world.

The Hundred Years' War Jamie Wall, 2021-06-22 The Hundred Years' War is the story of the intense competition between the All Blacks and the Springboks over the past 100 years, the games they've played and the battles that have raged from parliaments to the streets. It's an examination of two cultures brought together by rugby, torn apart by racism, then brought back together to forge a new era of rivalry. There are heroes and villains on both sides, on and off the field. For every tale of battling the Boks on the highveld or in the mud of a New Zealand winter, there's one of political intrigue, injustice or cowardice. The events off the field have dramatically shaped those on it, as both the nations and the teams have undergone huge changes. The test matches played between the two sides defined both the Springboks and All Blacks. They have a saying in South Africa: 'You're not a real Springbok until you've played the All Blacks' - perhaps the greatest sign of respect an opposition side has ever paid the most successful team in the world. This is a history of the most brutal and relentless rugby ever played, and the century of bitter struggles that have come with it.

Completely Staged Simon Evans, Phin Glynn, 2021-10-26 Starring David Tennant and Michael Sheen, along with A-list guests, the award-winning and critically acclaimed British television comedy series *Staged* was an instant hit. Launched during the global coronavirus pandemic, the show follows the two

thespians playing fictionalised versions of themselves as they try to rehearse a play during lockdown... over Zoom. Completely Staged presents the complete text of the BBC screenplays from Staged's writer and director Simon Evans and co-creator Phin Glynn, illustrated throughout in full colour with stills from the show, original drawings, sheet music for the theme tune, Georgia Tennant's carrot cake recipe, tips on how to draw a pineapple and much more. This treasure trove is a must-have for every fan of Staged, a show which perfectly combines comedy and poignancy to encapsulate the collective feelings of a reluctantly virtual world.

Brill's Companion to George Grote and the Classical Tradition
Kyriakos N. Demetriou, 2014-09-25 In Brill's Companion to George Grote and the Classical Tradition, Kyriakos Demetriou leads a team of prominent scholars to contextualize, unravel and explore Grote's works as well as provide a critical assessment of his posthumous legacy.

The Frame in Classical Art Verity Platt, Michael Squire, 2017-04-20 The frames of classical art are often seen as marginal to the images that they surround. Traditional art history has tended to view framing devices as supplementary 'ornaments'. Likewise, classical archaeologists have often treated them as tools for taxonomic analysis. This book not only argues for the integral role of framing within Graeco-Roman art, but also explores the relationship between the frames of classical antiquity and those of more modern art and aesthetics. Contributors combine close formal analysis with more theoretical approaches: chapters examine framing devices across multiple media (including vase and fresco painting, relief and free-standing sculpture, mosaics, manuscripts and inscriptions), structuring analysis around the themes of 'framing pictorial space', 'framing bodies', 'framing the sacred' and 'framing texts'. The result is a new cultural history of framing - one that probes the sophisticated and playful ways in which frames could support,

delimit, shape and even interrogate the images contained within.

Harris's List of Covent Garden Ladies Hallie Rubenhold, 2012
If you ever wondered what Jane Austen's Mr Darcy and his 'fellows' got up to on their numerous trips to London, here is the book they would certainly have carried around ... HARRIS'S LIST OF COVENT GARDEN LADIES was a bestseller of the Eighteenth Century, shifting 250,000 copies in an age before mass consumerism. An annual 'guide book', and published at Christmas time, it detailed the names, attributes and 'specialities' of the capital's prostitutes. During its heyday (1759 -95) HARRIS'S LIST was the essential accessory for any serious gentleman of pleasure. Hallie Rubenhold has collected the funniest, rudest and most bizarre entries penned by Jack Harris, 'Pimp-General-of-all-England' into this mischievous little book.

Trove Sandra A. Miller, 2019-09-19 • Gold-medal winner of the Nautilus Book Award for memoir (2020) • Gold-medal winner of the National Indie Excellence Award for memoir (2020) • Featured on Moms Don't Have Time to Read Books podcast. (2020) A stirring memoir that beautifully and humorously captures the pain of unresolved loss." — Kirkus Reviews The true story of a woman whose life is up-ended when she begins an armchair treasure hunt—a search for \$10,000 worth of gold coins buried in New York City, of all places—with a man who, as she points out, is not her husband. In this eloquent, hilarious, sharply realized memoir, Sandra A. Miller grapples with the death of her difficult mother and the regret and confusion that so often accompanies middle age. In a very real way, Miller has spent her life hunting for buried treasure. As a child, she trained herself to find things: dropped hair clips, shiny bits of broken glass, discarded lighters. Looking to escape from her volatile parents and often-unhappy childhood, Miller found deeper meaning, and a good deal of hope, in each of these objects. Now an adult and facing the loss of her last living parent—her mother who is at once cold, difficult, and wildly funny—Miller finds herself, as she

so often did as a little girl, pressed against a wall of her own longing. Her search for gold, which soon becomes an obsession, forces her to dredge up painful pieces of her past, confront the true source of her sorrow, and finally discover what it is she has been looking for all these years. Trove is the treasure. It's the kind of story that gives you a new best friend in a narrator. You get to travel with her on an emotional journey with laughs and tears. I am happy to be shut in with this wonderful story that has taken me to so many places. — Meredith Goldstein, advice columnist and entertainment reporter for The Boston Globe.

Dreamers and Schemers Frank Bongiorno, 2022-11-01 In this compelling and comprehensive work, renowned historian Frank Bongiorno presents a social and cultural history of Australia's political life, from pre-settlement Indigenous systems to the present day. Depicting a wonderful parade of dreamers and schemers, Bongiorno surveys moments of political renewal and sheds fresh light on our democratic life. From local pubs and meeting halls to the parliament and cabinet; from pamphleteers and stump orators to party agents and operatives - this enthralling account looks at the political insiders in the halls of power, as well as the agitators and outsiders who sought to shape the nation from the margins. A work of political history like no other, *Dreamers and Schemers* will transform the way you look at Australian politics.

Culture in city reconstruction and recovery UNESCO, World Bank, 2018-11-16 As urban growth and development continue at a breathtaking pace across the world, cities are increasingly bearing the brunt of conflicts, crises and disasters, which themselves are growing in number, magnitude and complexity. The convergence of these two trends - increasing urbanization and growing crises - demands an enhanced approach to city reconstruction and recovery, one that puts culture at its heart. Elaborated by the World Bank and UNESCO, this Position Paper outlines one such approach, the Framework for Culture in City

Reconstruction and Recovery, also known as the CURE Framework. The CURE Framework is a culture-based approach to the process of city reconstruction and recovery in post conflict, post disaster and urban distress situations that accounts for the needs, values and priorities of people.

Dissident Philosophers T. Allan Hillman, Tully Borland, 2021-11-19 This collection gives voice to philosophers who are at odds with the predominant leftist political trends of academic philosophy. Essays detail personal experiences and reflections on the intellectual viability of a non-left-leaning political philosophy, arguing that conservative thought has an important place in contemporary academia.

Does War Belong in Museums? Wolfgang Muchitsch, 2014-04-30 Presentations of war and violence in museums generally oscillate between the fascination of terror and its instruments and the didactic urge to explain violence and, by analysing it, make it easier to handle and prevent. The museums concerned also have to face up to these basic issues about the social and institutional handling of war and violence. Does war really belong in museums? And if it does, what objectives and means are involved? Can museums avoid trivializing and aestheticising war, transforming violence, injury, death and trauma into tourist sights? What images of shock or identification does one generate - and what images would be desirable?

Science Fiction and Fantasy Book Review Neil Barron, R. Reginald, 2009-11-01 Science Fiction & Fantasy Book Review was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. This was the golden era of SF publishing, with a thousand titles (old and new) hitting the stands and the bookshelves each and every year. From the older classics to the newest speculative fiction, this was the period when the best and the brightest shined forth their talents. SF&FBR included reviews by writers in the field, by amateur critics, and by litterateurs and University

professors. Over a thousand books were covered during the single year of publication, many of them having been reviewed nowhere else, before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism. Neil Barron is a retired bibliographer and literary critic, editor of the acclaimed *Anatomy of Wonder* series. Robert Reginald was the publisher for twenty-five years of Borgo Press, and has authored over 110 books of his own.

Digital Media, Youth, and Credibility Miriam J.

Metzger, Andrew J. Flanagan, 2008 The difficulties in determining the quality of information on the Internet--in particular, the implications of wide access and questionable credibility for youth and learning. Today we have access to an almost inconceivably vast amount of information, from sources that are increasingly portable, accessible, and interactive. The Internet and the explosion of digital media content have made more information available from more sources to more people than at any other time in human history. This brings an infinite number of opportunities for learning, social connection, and entertainment. But at the same time, the origin of information, its quality, and its veracity are often difficult to assess. This volume addresses the issue of credibility--the objective and subjective components that make information believable--in the contemporary media environment. The contributors look particularly at youth audiences and experiences, considering the implications of wide access and the questionable credibility of information for youth and learning. They discuss such topics as the credibility of health information online, how to teach credibility assessment, and public policy solutions. Much research has been done on credibility and new media, but little of it focuses on users younger than college students. *Digital Media, Youth, and Credibility* fills this gap in the literature. New Science of Learning Myint Swe Khine, Issa M.

Saleh, 2010-06-16 The earliest educational software simply transferred print material from the page to the monitor. Since then, the Internet and other digital media have brought students an ever-expanding, low-cost knowledge base and the opportunity to interact with minds around the globe—while running the risk of shortening their attention spans, isolating them from interpersonal contact, and subjecting them to information overload. *The New Science of Learning: Cognition, Computers and Collaboration in Education* deftly explores the multiple relationships found among these critical elements in students' increasingly complex and multi-paced educational experience. Starting with instructors' insights into the cognitive effects of digital media—a diverse range of viewpoints with little consensus—this cutting-edge resource acknowledges the double-edged potential inherent in computer-based education and its role in shaping students' thinking capabilities. Accordingly, the emphasis is on strategies that maximize the strengths and compensate for the negative aspects of digital learning, including: Group cognition as a foundation for learning Metacognitive control of learning and remembering Higher education course development using open education resources Designing a technology-oriented teacher professional development model Supporting student collaboration with digital video tools Teaching and learning through social annotation practices *The New Science of Learning: Cognition, Computers and Collaboration in Education* brings emerging challenges and innovative ideas into sharp focus for researchers in educational psychology, instructional design, education technologies, and the learning sciences.

Total Engagement Byron Reeves,J. Leighton Read,2009-11-03

Can the workplace be more productive by including avatars, three-dimensional environments, and participant-driven outcomes? This grounded and thought-provoking book by Byron Reeves and Leighton Read proves that it is not only possible, it is inevitable. Implementing components of multiplayer computer games in the workplace will address a host of age-old problems. Games can not only stem boredom and decrease turnover, but also enhance collaboration and encourage creative leadership. Games require extraordinary teamwork, elaborate data analysis and strategy, recruitment and retention of top players, and quick decision making. Recreating some elements of games - such as positioning tasks within stories, creating internal economies, and implementing participant-driven communication systems - can not only boost employee engagement but overall productivity. Of course, the strong psychological power of games can have both positive and negative consequences for the workplace. That's why it's important to put them into practice correctly from the beginning - and Reeves and Read explain how by showing which good design principles are a powerful antidote to the addictive and stress-inducing potential of games. Supported by specific case studies and years of research, *Total Engagement* will completely change the way you view both work and play.
