Showcasing these 30 incredible people, the extraordinary stories in this book show that the things they’ve achieved, created and inspired they did not despite being different but because they are different. From politicians, activists and journalists to YouTubers, DJs and poets, this book highlights a wide range of exciting career paths for neurodivergent readers.

The Set-Up Men Sarah L. Trembanis, 2014-07-15 This book is an examination of cultural resistance to segregation in the world of black baseball through an analysis of editorial art, folktales, nicknames, “manhood” and the art of clowning. African Americans worked to dismantle Jim Crow through the creation of a cultural counter-narrative that centered on baseball and the Negro Leagues that celebrated black achievement and that highlighted the contradictions and fallacies of white supremacy in the first half of the twentieth century.

Included are: Flash Evans and the Darkroom Mystery Flash Evans -- Camera News Hawk If you enjoy this ebook, don’t forget to search your favorite ebook store for Wildside Press Megapack to see more of the 300+ volumes in this series, covering adventure, historical fiction, mysteries, westerns, ghost stories, science fiction -- and much, much more!

Awahte Robert P. Wells, 2016-01-19 Racism takes many forms. When it rises from simply being the opinion of a handful of people to becoming widely accepted by a nation, it can result in official programs that may to the public be touted as beneficial, but that can actually discriminate against entire ethnic groups. In his book about Canada’s Indian Residential Schools, the author has compiled detailed information along with first-hand accounts of individuals affected by the country’s former laws toward its original residents...

Principles of Fraud Examination Joseph T. Wells, 2014-04-21 Accountants have historically had an important role in the detection and deterrence of fraud. As Joe Wells’ Principles of Fraud Examination 4th edition illustrates, fraud is much more than numbers; books and records don’t commit fraud – people do. Widely embraced by fraud examination instructors across the country, Principles of Fraud Examination, 4th Edition, by Joseph Wells, is written to provide a broad understanding of fraud to today’s accounting students – what it is and how it is committed, prevented, detected, and resolved. This 4th edition of the text includes a chapter on frauds perpetrated against organizations by individuals outside their staff—a growing threat for many entities as commerce increasingly crosses technological and geographical borders.
