Make It So Nathan Shedroff, Christopher Noessel, 2012-09-17 Many designers enjoy the interfaces seen in science fiction films and television shows. Freed from the rigorous constraints of designing for real users, sci-fi production designers develop blue-sky interfaces that are inspiring, humorous, and even instructive. By carefully studying these “outsider” user interfaces, designers can derive lessons that make their real-world designs more cutting edge and successful.

The Star Fraction Ken MacLeod, 2002-07-05 Moh Kohn is a security mercenary, his smart gun and killer reflexes for hire. Janis Taine is a scientist working on memory-enhancing drugs, fleeing the US/UN's technology cops. Jordan Brown is a teenager in the Christian enclave of Beulah City, dealing in theologically-correct software for the world's fundamentalists-and wants out. In a balkanized twenty-first century, where the peace process is deadlier than war, the US/UN's spy satellites have everyone in their sights. But the Watchmaker has other plans, and the lives of Moh, Janis, and Jordan are part of the program. A specter is haunting the fight for space and freedom, the specter of the betrayed revolution that happened before. . . . With *The Star Fraction*, Ken MacLeod burst onto the SF scene and began the Fall Revolution sequence that continued with *The Stone Canal*, *The Cassini Division*, and *The Sky Road*.

Gabe is everything Nicole wants and needs, but if she can't figure out how to forgive him, she'll have to walk away from this second chance at first love. *Crash Into Him* is a steamy romance with scenes that you will want to read with the lights turned way down and maybe a couple of candles burning.

Hanging Out in the Virtual Pub Lori Kendall, 2002-06-27 In this ethnography, Lori Kendall examines how men and women negotiate their gender roles on an online forum she calls BlueSky. The result is an analysis of the emerging social phenomenon of Internet-mediated communication and a study of the social and cultural effects of a medium that allows participants to assume identities of their own choosing.

Containing the Threat from Illegal Bombings National Research Council, Division on Engineering and Physical Sciences, Commission on Physical Sciences, Mathematics, and Applications, Committee on Marking, Rendering Inert, and Licensing of Explosive Materials, 1998-05-27 In response to the rising concern of the American public over illegal bombings, the Bureau of Alcohol, Tobacco, and Firearms asked the National Research Council to examine possible mechanisms for reducing this threat. The committee examined four approaches to reducing the bombing threat: addition of detection markers to explosives for pre-blast detection, addition of identification taggants to explosives for post-blast identification of bombers, possible means to render common explosive materials inert, and placing controls on explosives and their precursors. The book makes several recommendations to reduce the number of criminal bombings in this country.

Writing Spaces: Readings on Writings, Vol. 2 Charles Lowe, Pavel Zemliansky, Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about the craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level.

Australia and Cyber-warfare Gary Waters, Desmond Ball, Ian Dudgeon, 2008-07-01 This book explores Australia's prospective cyber-warfare requirements and challenges. It describes the current state of planning and thinking within the Australian Defence Force with respect to Network Centric Warfare, and discusses the vulnerabilities that accompany the use by Defence of the National Information Infrastructure (NII), as well as Defence's responsibility for the protection of the NII. It notes the multitude of agencies concerned in various ways with information security, and argues that mechanisms are required to enhance coordination between them. It also argues that Australia has been laggard with respect to the development of offensive cyber-warfare plans and capabilities. Finally, it proposes the establishment of an Australian Cyber-warfare Centre responsible for the planning and conduct of both the defensive and offensive dimensions of cyber-warfare, for developing doctrine and operational concepts, and for identifying new capability requirements. It argues that the matter is urgent in order to ensure that Australia will have the necessary capabilities for conducting technically and strategically sophisticated cyber-warfare activities by the 2020s. The Foreword has been contributed by Professor Kim C. Beazley, former Minister for Defence (1984--90), who describes it as 'a timely book which transcends old debates on priorities for the defence of Australia or forward commitments, (and) debates about globalism and regionalism', and as 'an invaluable compendium' to the current process of refining the strategic guidance for Australia's future defence policies and capabilities.

In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

A Very Punchable Face Colin Jost, 2020-07-14 NEW YORK TIMES BESTSELLER • In these hilarious essays, the Saturday Night Live head writer and Weekend Update co-anchor learns how to take a beating. “I always wanted to punch his face before I read this book. Now I just want to kick him in the balls.”—Larry David NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Cosmopolitan • Vulture • Parade If there’s one trait that makes someone well suited to comedy, it’s being able to take a punch—metaphorically and, occasionally, physically. From growing up in a family of firefighters on Staten Island to commuting three hours a day to high school and “seeing the sights” (like watching a Russian woman throw a stroller off the back of a ferry), to attending Harvard while Facebook was created, Jost shares how he has navigated the world like a slightly smarter Forrest Gump. You’ll also discover things about Jost that will surprise and confuse you, like how Jimmy Buffett saved his life, how Czech teenagers attacked him with potato salad, how an insect laid eggs inside his legs, and how he competed in a twenty-five-man match at WrestleMania (and almost won). You'll go behind the scenes at SNL and Weekend Update (where he's written some of the most memorable sketches and jokes of the past fifteen

years). And you'll experience the life of a touring stand-up comedian—from performing in rural college cafeterias at noon to opening for Dave Chappelle at Radio City Music Hall. For every accomplishment (hosting the Emmys), there is a setback (hosting the Emmys). And for every absurd moment (watching paramedics give CPR to a raccoon), there is an honest, emotional one (recounting his mother's experience on the scene of the Twin Towers' collapse on 9/11). Told with a healthy dose of self-deprecation, A Very Punchable Face reveals the brilliant mind behind some of the dumbest sketches on television, and lays bare the heart and humor of a hardworking guy—with a face you can't help but want to punch.

Breakcore Andrew Whelan,2009-05-27 Peer-to-peer music exchange, sampling, and digital distribution have garnered much attention in recent years, notably in debates about authorship, intellectual property, media control, and 'Web 2'. However, empirical scholarship on how these technologies are used creatively by musicians and fans is still sparse. In this interdisciplinary ethnography of 'bedroom producer' culture, Andrew Whelan examines interaction and exchange within a specific online milieu: peer-to-peer chatrooms dedicated to electronic music, focusing on a genre known as 'breakcore'. The author draws on semantic anthropology, ethnomethodology, sociolinguistics, and critical musicology to explore the activity afforded by this controversial and criminalised environment. Through in-depth analysis of often ritually vituperative text-based interaction, discussions of music, and the samples used in that music, Whelan describes the cultural politics and aesthetics of bedroom producer identity, highlighting the roles gender and ethnicity play in the constitution of subcultural authenticity. Empirically driven throughout, this book also engages with a spectrum of social theory; in doing so, it highlights the intersections between gender, interaction, technology and music. This book will prove valuable for students and scholars with interests in gender and language use, computer-mediated communication, online subcultures and virtual community, and the evolution, production and distribution of electronic music.

I Was Geeky When Geeky Wasn't Cool Marc Allie,2014-12-03 Being geeky isn't really geeky these days. But back in the 80s, being a geek was a death sentence for a kid's social life. Nobody knew that better than me. I was the stereotypical nerd: I was smart, wore glasses, was terrible at sports, and had my nose stuck in a book most of the time. I was different, and that meant I was made fun of. To cope with all the teasing, I would lose myself in other worlds, those with spaceships and lasers, or longswords and dragons. I devoured TV, movies, and comic books with a fervent passion. None of these obsessions made me any more popular. Inside this book are my most vivid memories of being a weird, nerdy kid. Some of these stories detail the different crazes I threw myself into, ranging from comic book heroes and form-shifting robots to Dungeons & Dragons and pop music. Some of these tales are about trying hard to fit in and be normal. A healthy dollop of nostalgia flavors all these anecdotes of what it was like growing up geeky in the 80s.

The Machine as Art/ The Machine as Artist Juliette Bessette,Frederic Fol Leymarie,G. w W. Smith,2020-10-21 The articles collected in this volume from the two companion Arts Special Issues, The Machine as Art (in the 20th Century) and The Machine as Artist (in the 21st Century), represent a unique scholarly resource: analyses by artists, scientists, and engineers, as well as art historians, covering not only the current (and astounding) rapprochement between art and technology but also the vital post-World War II period that has led up to it; this collection is also distinguished by several of the contributors being prominent individuals within their own fields, or as artists who have actually participated in the still unfolding events with which it is concerned
