**Holy Cow!** Harry Caray, 2013-04-24 Writing with Chicago Tribune sports columnist Verdi, Harry Caray recaps his decades in the booth, paying special attention to the owners he has dealt with, particularly Gussie Busch, Charley Finley and Bill Veeck. He also explains his philosophy of success in the booth, which is to think of himself primarily as a fan explaining the game to his fellow fans and pointing out players' failures as well as strengths. In this memoir, he recalls players he has admired, beginning with his all-time favorite, Stan Musial, and including Reggie Jackson, Richie Allen, and Ryne Sandberg.

*The 44-Gun Frigate USS Constitution* Karl Heinz Marquardt, 2017-12-19 The Constitution was one of the US Navy's first six original frigates, ordered as a counter to the Barbary corsairs in the Mediterranean. Fast and heavily built, she was nominally rated as a 44 but mounted thirty 24-pdr and twenty-two 12-pdr cannon. Her most famous encounter, after which she became nicknamed 'Old Ironsides' due to British shot being seen bouncing off her hull, involved HMS Guerriere, which she smashed; the same treatment was meted out to HMS Java four months later. Now the oldest commissioned warship afloat in the world, she is berthed in Boston Harbor. The 'Anatomy of the Ship' series aims to provide the finest documentation of individual ships and ship types ever published. What makes the series unique is a complete set of superbly executed line drawings, both the conventional type of plan as well as explanatory views, with fully descriptive keys. These are supported by technical details and a record of the ship's service history.

*Constitution - All Sails Up and Flying* Olof A. Eriksen, 2009 It was 1989 when I started building a large 1/4= 1 foot scale model of Constitution and today, 16 years and 18,000 hours later, I honestly believe this is how she was rigged during her last chase, exactly one hour prior to her last battle against the British HMS Levant and HMS Cyane. I had already invested more than four thousand hours in the construction of this model, and had intended, upon completion of the hull, to proceed with the stepping of masts and rigging her just as I had done previously on other models. However, In February 1992, when Commander Martin presented me with an original typescript of Midshipman Edward Clifford Anderson's notes on the rigging of the ship in 1834-35 at Boston, the earliest such specific information known, I decided I would follow Midshipman Anderson's directions and record the progress, step by step, discovering for myself what was done and how. This meant creating additional scaled parts relating to sheer poles, etc. to simulate exactly how the masts and the bowsprit, etc. were stepped in this era, and for this reason. Due to the equipment available today, and rightfully so, I do not believe that Constitution, or any ship's from this era, will ever again be rigged, including the stepping of the masts, using sheer poles and tackle only, and so I chose, while this one and only opportunity lent itself, to show this pictorially.

*Dust If You Must* Rose Milligan, 2023-03-02 A classic poem with a timeless message, presented in a small and beautiful gift book. Rose Milligan never intended to publicly share her poem 'Dust If You Must', but a series of events led her to publish it in The Lady magazine in 1998. Her charming message about what we value in life resonated with audiences, and it has since been read on BBC radio, posted on Instagram, printed on tea towels, read at funerals and put to music. Now appearing as a book for the first time, beautifully illustrated throughout by illustrator Hayley Wells, Dust If You Must is a timeless reminder to focus on the things we can enjoy in the world, rather than the things we think we need to do.

In his short time among these other sheep, Christ teaches about the path of discipleship, inaugurating a centuries-long period of righteous peace and prosperity in Nephite society. -- publisher

**LEO the Maker Prince** Carla Diana, 2013-12-02 LEO the Maker Prince teaches children (both young and old) about 3D printing by following Carla and LEO's journey through Brooklyn. LEO is a walking, talking robot who has the magical ability to print (in plastic) any object that Carla draws. The other robots have their own special capabilities: H1-H0 prints in metal, Sinclair-10 can find and print objects from a huge catalog of designs, and the others (including AL1C3-D, IRIS-7, and NiXie) have unique talents, too. Readers can come along for the journey, too: all of the objects in the book are printable one way or another.

**Steve Jobs: The Man Who Thought Different** Karen Blumenthal, 2012-02-14 A riveting biography of the groundbreaking innovator who was a giant in the worlds of computing, music, filmmaking, design, smart phones, and more. A finalist for the YALSA Excellence in Nonfiction Award! Your time is limited. . . . have the courage to follow your heart and intuition. —Steve Jobs From the start, his path was never predictable. Steve Jobs was given up for adoption at birth, dropped out of college after one semester, and at the age of twenty, created Apple in his parents' garage with his friend Steve Wozniack. Then came the core and hallmark of his genius—his exacting moderation for perfection, his counterculture life approach, and his level of taste and style that pushed all boundaries. A devoted husband, father, and Buddhist, he battled cancer for over a decade, became the ultimate CEO, and made the world want every product he touched, from the Macintosh to the iPhone, from iTunes and the iPod to the Macbook. Critically acclaimed author Karen Blumenthal takes us to the core of this complicated and legendary man while simultaneously exploring the evolution of computers. Framed by Jobs' inspirational Stanford commencement speech and illustrated throughout with black and white photos, this is the story of the man who changed our world. *L'Unité D'habitation* David Jenkins, 1993-01 The Unite d'Habitation at Marseilles is a key building of the twentieth century, and a seminal work in Le Corbusier's oeuvre. A precursor of buildings in Nantes, Berlin, Briey-en-Foret and Firminy, it established, in built form, Le Corbusier's ideas of public housing that had existed only on paper for more than twenty-five years. David Jenkins argues that the Marseilles Unite stands out as a powerful and convincing testament of Le Corbusier's fundamental humanism and his faith in the principles of the Ville Radieuse and the Brutalist medium of rough cast concrete which in other, less able hands, have since been called
