The Ballad of the Lone Medievalist Kisha G. Tracy, John P. Sexton, 2018 Working medievalists are often the only scholar of the Middle Ages in a department, a university, or a hundred-mile radius. While working to build a body of focused scholarly work, the lone medievalist is expected to be a generalist in the classroom and a contributing member of a campus community that rarely offers disciplinary community in return. As a result, overtasked and single medievalists often find it challenging to advocate for their work and field. As other responsibilities and expectations crowd in, we come to feel disconnected from the projects and subjects that sustain our

intellectual passion. An insidious isolation even from one another creeps in, and soon, even attending a conference of fellow medievalists can become a lonely experience. Surrounded by scholars with greater institutional support, lower teaching loads, or more robust research agendas, we may feel alienated from our work - the work to which we've dedicated our careers. The Lone Medievalist (the collaborative community and the book) is intended as an antidote to the problem of professional isolation. It is offered in the spirit of common weal that marks the ideals (if not always the realities) of so many of the communities we study - agricultural, professional, national, notional, and of course, monastic. The Ballad of the Lone Medievalist isn't only about scholarship, or teaching, or institutional life, or the pursuit of new learning - it's about all of them. The essays in this volume address all aspects of the professional and intellectual life of medievalists. Though many of us acknowledge and address the challenges in being Lone Medievalists, these essays are not intended as voces clamantium; they are offered to provide strategies, camaraderie, and an occasional bit of inspiration. They are a call to action, a sharing of hard-won wisdom, and a helping hand - and, above all, a reminder that we are not alone.

My Reminiscences of the Anglo-Boer War Ben J. Viljoen, 2019-12-02 My Reminiscences of the Anglo-Boer War is Viljoen's firsthand experiences of The Second Boer War. Also known as the Boer War, the Anglo-Boer War, or the South African War, this war was a conflict fought between the British Empire and

the two Boer Republics (the South African Republic and the Orange Free State) over the Empire's influence in Southern Africa from 1899 to 1902. Excerpt: In offering my readers my reminiscences of the late War, I feel that it is necessary to ask their indulgence and to plead extenuating circumstances for many obvious shortcomings. It should be pointed out that the preparation of this work was attended with many difficulties and disabilities, of which the following were only a few:— (1) This is my first attempt at writing a book, and as a simple Afrikaner I lay no claim to any literary ability.

Was the Cat in the Hat Black? Philip Nel, 2017-07-06 Racism is resilient, duplicitous, and endlessly adaptable, so it is no surprise that America is again in a period of civil rights activism. A significant reason racism endures is because it is structural: it's embedded in culture and in institutions. One of the places that racism hides-and thus perhaps the best place to oppose it-is books for young people. *Was the Cat in the Hat Black?* presents five serious critiques of the history and current state of children's literature tempestuous relationship with both implicit and explicit forms of racism. The book fearlessly examines topics both vivid-such as *The Cat in the Hat's* roots in blackface minstrelsy-and more opaque, like how the children's book industry can perpetuate structural racism via whitewashed covers even while making efforts to increase diversity. Rooted in research yet written with a lively, crackling touch, Nel delves into years of literary criticism and recent sociological data in order to show a better way forward. Though much of what is proposed here could be endlessly argued, the knowledge that what we learn in childhood imparts both subtle and explicit lessons about whose lives matter is not debatable. The text concludes with a short and stark proposal of actions everyone-reader, author, publisher, scholar, citizen- can take to fight the biases and prejudices that infect children's literature. While *Was the Cat in the Hat Black?* does not assume it has all the answers to such a deeply systemic problem, its audacity should

stimulate discussion and activism.
