All the Light We Cannot See Anthony Doerr, 2014-05-06 *NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in "an age of ecocide" Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on "sustainability" rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls "dark ecology," which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed "Uncivilization" manifesto, asks hard questions about how we've lived and how we should live.

The Prince's Man Deborah Jay, 2013-07-29 Rustam Chalice, dance tutor, gigolo and spy, loves his life just the way it is, so when the kingdom he serves is threatened from within, he leaps into action. Only trouble is, the spy

master, Prince Hal, teams him up with an untouchable aristocratic assassin who despises him. And to make matters worse, she's the most beautiful woman in the Five Kingdoms. Plunged into a desperate journey over the mountains, the mismatched pair struggle to survive deadly wildlife, the machinations of a spiteful god - and each other. They must also keep alive a sickly elf they need as a political pawn. But when the elf reveals that Rustam has magic of his own, he is forced to question his identity, his sanity and worst, his loyalty to his prince. For in Tyr-en, all magic users are put to death. Award winning novel, *THE PRINCE'S MAN*, has been described as 'James Bond meets Lord of the Rings' - a sweeping tale of spies and deadly politics, inter-species mistrust and magic phobia, with an underlying thread of romance.

A Burglar's Guide to the City Geoff Manaugh, 2016-04-05 Encompassing nearly 2,000 years of heists and tunnel jobs, break-ins and escapes, *A Burglar's Guide to the City* offers an unexpected blueprint to the criminal possibilities in the world all around us. You'll never see the city the same way again. At the core of *A Burglar's Guide to the City* is an unexpected and thrilling insight: how any building transforms when seen through the eyes of someone hoping to break into it. Studying architecture the way a burglar would, Geoff Manaugh takes readers through walls, down elevator shafts, into panic rooms, up to the buried vaults of banks, and out across the rooftops of an unsuspecting city. With the help of FBI Special Agents, reformed bank robbers, private security consultants, the L.A.P.D. Air Support Division, and architects past and present, the book dissects the built environment from both sides of the law. Whether picking padlocks or climbing the walls of high-rise apartments, finding gaps in a museum's surveillance routine or discussing home invasions in ancient Rome, *A Burglar's Guide to the City* has the tools, the tales, and the x-ray vision you need to see architecture as nothing more than an obstacle that can be outwitted and undercut. Full of real-life heists—both spectacular and absurd—*A Burglar's Guide to the City* ensures readers will never enter a bank again without imagining how to loot the vault or walk down the street without planning the perfect getaway.

Doomsday Book Connie Willis, 1993-08-01 Connie Willis draws upon her understanding of the universalities of human

nature to explore the ageless issues of evil, suffering, and the indomitable will of the human spirit. "A tour de force."—The New York Times Book Review For Kivrin, preparing to travel back in time to study one of the deadliest eras in humanity's history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history's darkest hours.

In Search of Lake Wobegon Garrison Keillor, 2001 This book combines text and image to reveal the real-life origins of the place where the women are strong, the men are good-looking and the children above average. Keillor meditates on the enduring culture of the county and on the years he spent there as a young writer and an outsider. And a short story of Lake Wobegon, October, appears here for the first time in print.--BOOK JACKET.

The Sorcerer of the Wildeeps Kai Ashante Wilson, 2015-09-01 One of Wired's Twenty-Five All-Time Favorite Books Critically acclaimed author Kai Ashante Wilson makes his commercial debut with this striking, wondrous tale of gods and mortals, magic and steel, and life and death that will reshape how you look at sword and sorcery. With his ancestors' artifacts in hand, the Sorcerer follows the Captain, a beautiful man with song for a voice and hair that drinks the sunlight.

The two of them are the descendants of the gods who abandoned the Earth for Heaven, and they will need all the gifts those divine ancestors left to them to keep their caravan brothers alive. The one safe road between the northern oasis and southern kingdom is stalked by a necromantic terror. Demane may have to master his wild powers and trade humanity for godhood if he is to keep his brothers and his beloved captain alive. PRAISE FOR THE SORCERER OF THE WILDEEPS The unruly lovechild of Shakespeare, Baldwin, George RR Martin and Ghostface Killah -- this was a book I could not put down. - Daniel José Older, author of Half-Resurrection Blues Lyrical and polyphonous, gorgeous and brutal, THE SORCERER OF THE WILDEEPS is an unforgettable tale of love that empowers. - Ken Liu, multiple Hugo Award-winning author of The Grace of Kings Wilson is doing something both very new and very old here: he's tossing aside the traditional forms of sword and sorcery in favor of other, older forms, and gluing it all together with a love letter to black masculinity. The result is powerful and strange and painful in all the right ways. -N.K. Jemisin, author of The Fifth Season and The Hundred Thousand Kingdoms THE SORCERER OF THE WILDEEPS reads like Gene Wolfe and Samuel R Delany trying to one-up each other on a story prompt by Fritz Leiber. That means it's good. Read it. - Max Gladstone, author of the Craft Sequence Seamlessly knots magic and science in a wholly organic way... THE SORCERER OF THE WILDEEPS will catch you by the throat and hold you fast until the last searing word. - Alyssa Wong, Nebula-nominated author of The Fisher Queen At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Films of Fritz Lang Tom Gunning, 2019-07-25 In this volume Tom Gunning examines the films of Fritz Lang not only as a stylistically coherent body of work, but as an attempt to portray the modern world through cinema. The world of modernity in which systems replace individuals is conveyed by Lang's mastery of cinematic set design, composition and editing. Lang presents not only a decades-long vision of cinematic narrative which can be compared to that of Alfred Hitchcock or Jean Renoir, but a view of modernity that relates strongly to the ideas of Adorno, Brecht, Benjamin and Kracauer. From the sweeping allegorical films of the 20s to the chilly and abstract thrillers of the 50s, Lang's films, Gunning claims, are 'among the most precious records of the twentieth century'. The Films of Fritz Lang immeasurably enriches our understanding of a great artist and, in so doing, reimagines what a film artist is: an author who fades away even in being recognised and interpreted, an enigmatic figure at the junction of aesthetics, history, biography and theory.

Albion's Seed David Hackett Fischer, 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education,

government, gender, and violence, on which differences between American regions are greater than between European nations.

Worlds of Light & Darkness Scot Noel, Angela Yurko Smith, 2021-05-25 A haunted father who discovers a place where incomplete things--and people--are made whole. A mischievous satyr who hatches a plan to set loose chaos on a global scale. A workaholic witch in search of her kitty companion. Invasive technology to rewrite the human brain. Dragon slayers. Zombies. Time travelers. Ice skaters. These twenty short stories stretch across multiple universes and beyond death--and yet, they remain intimate, personal, emotional. They demonstrate the strength of the human spirit to find hope and seek a better tomorrow in even the darkest times. A selection of the best speculative fiction from DreamForge and Space & Time literary magazines, these are the stories we need today as we struggle through a pandemic, divisive politics, rampant misinformation, a belligerent defiance of facts and science, and new technologies that are already spiraling beyond our control. Read, my friends... and take hope.

Fahrenheit 451 Ray Bradbury, 2003-09-23 Set in the future when firemen burn books forbidden by the totalitarian brave new world regime.

The Conservative H. P. Lovecraft, 2013-06 The Conservative was a journal edited and self-published sporadically by H. P. Lovecraft between 1915 and 1923. Some of its pieces were written by Lovecraft himself, but many of them were written by others, and included not just political and social commentary on the issues of the day, but also poetry, short stories and literary criticism. In spite of its name, Lovecraft's style of conservatism bore little resemblance to what goes by that name in America today, and instead was first and foremost a call for a cultural revival - an appeal to a return to the deepest wellsprings that had inspired Western culture from its origins. The period covered by The Conservative coincided with some of the most tumultuous events of the twentieth century, including the First World War and the Russian Revolution. For Lovecraft and his fellow authors, however, the answer to navigating the chaos of their time was not crude nationalism or socioeconomic policies, but could only be understood in terms of race, culture and a strong sense of morality. An opponent of both democracy and liberalism, Lovecraft desired a return to the aristocratic values of earlier ages. Whether one reads these texts as a record of Lovecraft's own worldview, or as a window into the times in which they were written, The Conservative remains a fascinating document. This edition includes a special introduction placing it within the context of Lovecraft's life and career by Alex Kurtagic. H. P. Lovecraft (1890-1937) is widely considered to have been the greatest writer of horror fiction of the twentieth century. Best-known for the stories that comprised his Cthulhu Mythos, Lovecraft depicted a dark world dominated by unseen and malevolent forces, which mirrored his own hostility to everything associated with the modern world, which he saw as being in a continual state of decline and decay. He continues to be extremely influential upon writers, filmmakers and artists to this day.
