Believing Is Seeing Errol Morris,2014-05-27 Academy Award-winning director Errol Morris turns his eye to the nature of truth in photography In his inimitable style, Errol Morris untangles the mysteries behind an eclectic range of documentary photographs. With his keen sense of irony, skepticism, and humor, Morris shows how photographs can obscure as much as they reveal, and how what we see is often determined by our beliefs. Each essay in this book is part detective story, part philosophical meditation, presenting readers with a conundrum, and investigates the relationship between photographs and the real world they supposedly record. Believing Is Seeing is a highly original exploration of photography and perception, from one of America's most provocative observers.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the

government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Rectangle Time Pamela Paul,2021-02-16 Perfect for story time, New York Times Book Review editor Pamela Paul's funny and charming story about books, pets, and reading together will enchant readers of all ages. This spunky, self-assured cat has always loved Rectangle Time--when the boy and the man he lives with curl up with their rectangle and read aloud from it. The cat knows how helpful he is during Rectangle Time, of course--his presence is vital to the very ritual! But when the rectangle starts to get smaller, the stories start to get quieter, and worst of all, the boy no longer needs the cat's help, the cat must find a way to reclaim his part in Rectangle Time, even if slightly different from before. In this fun, funny, and ultimately sweet story about growing up, embracing change, and the ways we all can misread social cues, we see the power of stories to bring everyone together--there's always room for everyone at story time. Praise for Rectangle Time: The story subtly celebrates the pleasures of being read to and of growing toward reading independence. . . . A good option to hand educators needing to teach inference and for lovers of silly cats. --SLJ A sweet story about falling in love with reading. --Kirkus Comforting . . . clever. --Publishers Weekly This readaloud is sure to become a read-along as the listener's own literacy and vocabulary skills increase. --BCCB Truly delightful . . . kids will giggle over the familiar feline antics. --Booklist
