Granny D Doris Haddock, Dennis Burke, 2001-06-12 There's a cancer, and it's killing our democracy. A poor man has to sell his soul to get elected. I cry for this country. On February 29, 2000, ninety-year-old Doris “Granny D” Haddock completed her 3,200-mile, fourteen-month walk from Los Angeles to Washington D.C. She walked through 105-degree deserts and blinding blizzards, despite arthritis and emphysema. Along her way, her remarkable speeches – rich with wisdom, love, and political insight – transformed individuals and communities and jump-started a full-blown movement. She became a national heroine. On her journey, Haddock kept a diary – tracking the progress of her walk and recalling events in her life and the insights that have given her. *Granny D* celebrates an exuberant life of love, activism, and adventure – from writing one-woman feminist plays in the 1930s to stopping nuclear testing near an Eskimo fishing village in 1960 to Haddock’s current crusade. Threaded throughout is the spirit of her beloved hometown of Dublin/Peterborough, New Hampshire – Thornton Wilder’s inspirations for Grovers Croner in *Out Town* – a quintessentially

American center of New England pluck, Yankee ingenuity and can-do attitude. Told in Doris Haddock's distinct and unforgettable voice, Granny D will move, amuse, and inspire readers of all ages with its clarion message that one person can indeed make a difference.

The Amazing Bone William Steig, 2013-07-30 It's a bright and beautiful spring day, and Pearl, a pig, is dawdling on her way home from school. Most unexpectedly, she strikes up an acquaintance with a small bone. You talk? says Pearl. In any language, says the bone. And I can imitate any sound there is. (Its former owner was a witch.) Pearl and the bone immediately take a liking to each other, and before you know it she is on her way home with the bone in her purse, left open so they can continue their conversation. Won't her parents be surprised when she introduces her talking bone! But before that happy moment comes, the resourceful bone must deal with a band of highway robbers in Halloween masks and, worse, a fox who decides that Pearl will be his main course at dinner that night. And deal it does, with gambits droll and thrilling. William Steig, incomparable master of the contemporary picture book, has never been better than in The Amazing Bone. The Amazing Bone is a

The Ballad of Big Feeling Ari Braverman, 2020-07-07 Braverman spins images that pull that perfect trick of making the familiar feel fresh... It's a thrill to see that language can still be made to help us feel the rush of life anew. ---Lynn Steger Strong, New York Times Book Review The woman lives on a cul-de-sac with her lover and her dog. She is smart and sensible. She buys groceries and goes to work. And she finds herself reliving her childhood memories while she waits--for what, she is not sure. In the tradition of Rachel Cusk and Sheila Heti, The Ballad of Big Feeling reveals the mind of a woman

perched before middle age and confronting the hidden contradictions and intricacies of everyday life. In the hands of an exciting new writer, Ari Braverman, it's a tale both spare and spacious, textured and poetic, frustrating and funny -- a delicately crafted volume that will linger in the mind of the reader long after they've put it down. It is, in short, a startling and assured debut.

Modeling Creativity Tom De Smedt, 2013-02-01 Modeling Creativity (doctoral thesis, 2013)

explores how creativity can be represented using computational approaches. Our aim is to construct computer models that exhibit creativity in an artistic context, that is, that are capable of generating or evaluating an artwork (visual or linguistic), an interesting new idea, a subjective opinion. The research was conducted in 2008–2012 at the Computational Linguistics Research Group (CLiPS, University of Antwerp) under the supervision of Prof. Walter Daelemans. Prior research was also conducted at the

Experimental Media Research Group (EMRG, St. Lucas University College of Art & Design Antwerp) under the supervision of Lucas Nijs. Modeling Creativity examines creativity in a number of different perspectives: from its origins in nature, which is essentially blind, to humans and machines, and from generating creative ideas to evaluating and learning their novelty and usefulness. We will use a hands-on approach with case studies and examples in the Python programming language.

The Other Wes Moore Wes Moore, 2011-01-11 NEW YORK TIMES BESTSELLER • From the governor-elect of Maryland, the “compassionate” (People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is

serving a life sentence in prison. Selected by Stephen Curry as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn’t shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered that the other Wes had had a life not unlike his own: Both had had difficult

childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes Moore* tells the story of a generation of boys trying to find their way in a hostile world.

Big Trouble J. Anthony Lukas, 2012-07-17 Hailed as toweringly important (*Baltimore Sun*), a work of scrupulous and significant reportage (*E. L. Doctorow*), and an unforgettable historical drama (*Chicago Sun-Times*), *Big Trouble* brings to life the astonishing case that ultimately engaged President Theodore Roosevelt, Supreme Court justice Oliver Wendell Holmes, and the politics and passions of an entire nation at century's turn. After Idaho's former governor is blown up by a bomb at his garden gate at Christmastime 1905, America's most celebrated detective, Pinkerton James McParland, takes over the investigation. His daringly executed plan to kidnap the radical union leader Big Bill Haywood

from Colorado to stand trial in Idaho sets the stage for a memorable courtroom confrontation between the flamboyant prosecutor, progressive senator William Borah, and the young defender of the dispossessed, Clarence Darrow. *Big Trouble* captures the tumultuous first decade of the twentieth century, when capital and labor, particularly in the raw, acquisitive West, were pitted against each other in something close to class war. Lukas paints a vivid portrait of a time and place in which actress Ethel Barrymore, baseball phenom Walter Johnson, and editor William Allen White jostled with railroad magnate E. H. Harriman, socialist Eugene V. Debs, gunslinger Charlie Siringo, and Operative 21, the intrepid Pinkerton agent who infiltrated Darrow's defense team. This is a grand narrative of the United States as it charged, full of hope and trepidation, into the twentieth century.

Aramis, or The Love of Technology Bruno Latour, 1996-04-01 Bruno Latour has written a unique and wonderful tale of a technological dream gone wrong. The story of the birth and death of Aramis—the guided-transportation system intended for Paris—is told in this thought-provoking and fictional account by several different parties: an engineer and his professor; company executives and

elected officials; a sociologist; and finally Aramis itself, who delivers a passionate plea on behalf of technological innovations that risk being abandoned by their makers. As the young engineer and professor follow Aramis's trail—conducting interviews, analyzing documents, assessing the evidence—perspectives keep shifting: the truth is revealed as multilayered, unascertainable, comprising an array of possibilities worthy of Rashomon. This charming and profound book, part novel and part sociological study, is Latour at his thought-provoking best.

My Antonia Willa Cather, 2024-01-02 A haunting tribute to the heroic pioneers who shaped the American Midwest This powerful novel by Willa Cather is considered to be one of her finest works and placed Cather in the forefront of women novelists. It tells the stories of several immigrant families who start new lives in America in rural Nebraska. This powerful tribute to the quiet heroism of those whose struggles and triumphs shaped the American Midwest highlights the role of women pioneers, in particular. Written in the style of a memoir penned by Antonia's tutor and friend, the book depicts one of the most memorable heroines in American literature, the spirited eldest daughter of a Czech

immigrant family, whose calm, quite strength and robust spirit helped her survive the hardships and loneliness of life on the Nebraska prairie. The two form an enduring bond and through his chronicle, we watch Antonia shape the land while dealing with poverty, treachery, and tragedy. “No romantic novel ever written in America...is one half so beautiful as *My Ántonia*.” -H. L. Mencken Willa Cather (1873–1947) was an American writer best known for her novels of the Plains and for *One of Ours*, a novel set in World War I, for which she was awarded the Pulitzer Prize in 1923. She was elected a fellow of the American Academy of Arts and Sciences in 1943 and received the gold medal for fiction from the National Institute of Arts and Letters in 1944, an award given once a decade for an author's total accomplishments. By the time of her death she had written twelve novels, five books of short stories, and a collection of poetry.

The Tower of the Antilles Achy Obejas, 2017-07-04 PEN/Faulkner Award Finalist: A “superb story collection” about America and Cuba, escape and return, and history and hope (Los Angeles Times). Longlisted for The Story Prize One of Electric Literature’s Best Short Story Collections of the Year In

“Superman,” several possible story lines emerge about a 1950s Havana sex-show superstar who disappeared as soon as the revolution triumphed. “North/South” portrays a migrant family trying to cope with separation and the eventual disintegration of blood ties. “The Cola of Oblivion” follows a young woman who returns to Cuba and inadvertently uncorks a history of accommodation and betrayal among the family members who stayed behind during the revolution. And in the title story, an interrogation reveals a series of fantasies about escape and a history of futility. The Cubans in Achy Obejas’ story collection are haunted by islands: the island they fled, the island they’ve created, the island they were taken to or forced from, the island they long for, the island they return to, and the island that can never be home again. “[A] memorable short fiction collection.” —Publishers Weekly “By turns searing and subtly magical . . . Obejas’ plots are ambushing, her characters startling, her metaphors fresh, her humor caustic, and her compassion potent in these intricate and haunting stories of displacement, loss, stoicism, and realization.” —Booklist “Obejas writes with gentleness, without flashy wording or gimmicks, about people trying to figure out where they belong.” —Los Angeles
