Papertoy Monsters Brian Castleforte, 2010-12-29 A

breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he

has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Origami Pop-ups Jeremy Shafer, 2013-12-15 In Origami Pop-Ups Jeremy Shafer dives into the world of one piece pop-up cards where card and subject are folded from the same sheet of paper, no cutting or gluing. Filled with clear step-by-step instructions for how to fold each model, as well as comedy routines for performing them in front of audiences, these models will entertain not only origamists, but their family and friends too!

Duncan Birmingham lectures at the University of West of England and this book is a distillation of his practical experience. It explains the factors which have to be considered when designing, as well as solutions to potential pitfalls. There are masses of ideas for interesting projects, all illustrated with lively and informative drawings.

Blue Rider Geraldo Valério, 2018-03-01 “[A] dazzling vision of the way art transcends the everyday.” – Publishers Weekly, STARRED REVIEW On a gray and crowded city sidewalk, a child discovers a book. That evening, the child begins to read and is immediately carried beyond the repetitive sameness of an urban skyline into an untamed natural landscape. The child experiences a moment of true joy, and as if in response to that single blissful moment, people seem to come alive in all the other rooms of the apartment block. Thanks to the power of one book, an entire society is transformed. In creating this book, Geraldo Valério was inspired by the German Expressionist group known as Der Blaue Reiter (The Blue Rider), which formed in Munich in 1911 and included painters Franz Marc and Wassily Kandinsky. These

artists sought to find the spiritual significance in art, with an emphasis on form and color. In turn, Valério has created a wordless book that speaks volumes about how art can transform us beyond the sometimes-dreary world of the everyday. Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.1.1 Ask and answer questions about key details in a text.

The 46 die-cut paper robots are created by Brian Castleforte, author of Papertoy Monsters, along with the hottest papertoy designers from around the world. Meet the robots and read about their entertaining backstories in the front, then turn to the card stock section in the back to build them. The templates are die-cut and ready to pop out, fold, and glue. Bold, colorful graphics ensure the robots look as amazing in the daytime as they do with the lights off.

The Nutcracker Shobhna Patel, 2017-11-14 An exquisite retelling of Tchaikovsky's ballet using an entirely new pop-up technique featuring dazzling laser-cut illustrations The magic of Tchaikovsky's ballet The Nutcracker comes to life in this theatrical pop-up book created by papercut artist Shobhna Patel, whose delicate laser-cut pop-ups will enchant readers young and old. Patel has invented a new paper-engineering technique called the "paperscope," which is used for the first time in this charming book. The classic story begins on Christmas Eve when a little girl named Clara and her brother Fritz are gathered around the Christmas tree to celebrate with family and friends. Their mysterious uncle, Drosselmeyer the toy maker, gives Clara a beautiful wooden nutcracker who magically comes to life when the clock strikes midnight. So begins an enchanting adventure featuring all of Tchaikovsky's original characters: the soldier mice, the Sugar Plum Fairy, and of course a handsome prince. The Nutcracker is made all the more extraordinary by Patel's intricate laser-cut illustrations. The book features four pop-up paperscopes that spring to life when the reader presses each paperscope down with their hand to reveal the scene hidden within. The effect is one of a magical series of stage sets, recalling the story's origins as a ballet.
