Typographic Systems of Design Kimberly Elam,2007-05-03 Typographic organization has always been a complex system in that there are so many elements at play, such as hierarchy, order of reading, legibility, and contrast. In *Typographic Systems*, Kim Elam, author of our bestselling books, *Geometry of Design* and *Grid Systems*, explores eight major structural frameworks beyond the grid including random, radial,

modular, and bilateral systems. By taking the reader through exercises, student work, and professional examples, Elam offers a broad range of design solutions. Once essential visual organization systems are understood the designer can fluidly organize words or images within a structure, combination of structures, or a variation of a structure. With clarity and substance, each system from the structured axis to the nonhierarchical radial array is explained and explored so that the reader comes away with a better understanding of these intricate complex arrangements. *Typographic Systems* is the seventh title in our bestselling *Design Briefs* series, which has sold more than 100,000 copies worldwide.

Kiss of the Butterfly James Lyon, 2013-04-01 "I sense it even now. People thirst for it; the entire country is mad with desire for it..." A dying man's cryptic letter catapults California college student Steven Roberts on a mystery-shrouded quest into the labyrinth of the war-torn Balkans. Singled out for the task by an enigmatic professor, Steven overcomes his doubts and plunges into the maelstrom to uncover long-lost clues to an ancient Emperor's deeply buried secret, a long-forgotten evil that slumbered for centuries only to reawaken ... and a love that defies death itself. Meticulously researched and set against the background of collapsing Yugoslavia, "*Kiss of the Butterfly*" weaves together intricate threads from age-old Balkan folklore and modern events, to create a tapestry of passion and betrayal, obsession and desire, the thirst for life and the hunger for death. "*Kiss of the Butterfly*" is a literary thriller rooted in actual events. In the year of his death, 1476, the Prince of Wallachia Vlad Dracula committed a bloody massacre under the cloak of medieval Bosnia's forested mountains in the town of Srebrenica. History repeated itself 500 years later in July 1995 in Europe's worst massacre since World War Two. For most people, the two events seemed unconnected... Until now. "A fast-paced adventure into a modern heart of Balkan darkness... A truly original take on the blood-sucking undead." –*Publishers Weekly* "No capes, no glitter: a vampire novel for readers who value sturdy mythology and a sophisticated understanding of history, along with warm-blooded, human connections... skillful... authentic... fascinating... inspired... Lyon executes it perfectly... vivid... engaging..." –*Kirkus Reviews*
