Ocean Animals. Make Your Own Pop-up Book Andreea Hompoth Voicu,2023-03-23 Ocean animals Make your own Pop-up book coloring pop-up book creation kit for kids that can be cut and assembled at home. The different pages and pop-up elements will be cut out to make an entirely new book. Children can find out interesting facts about forest animals, color and make their own pop-up book. The book contains 6 different pages and each page has information about: sting ray, starfish, whale, hermit crab, turtle and octopus. Each page contains a different pop-up mechanism. I see it more like a family project, where you can build your own pop-up book, learn new things and develop the children's motor skills. At the beginning of the book, you will find instructions on how the different elements are used to build the pop-up book. I used photos to show how the book can be assembled. You will require scissors, glue and cardboard/ticker paper to assemble the project. I hope you enjoy it!

If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of Star Wars: Return of the Jedi: Beware the Power of the Dark Side, and hailed by School Library Journal as "honest, funny, and immensely entertaining."
