**Night of the Witches** Linda Raedisch,2011-01-08 Spring has come to the northern forest. The evening wind blows cold as the breath of the frost giants. Just overhead, there is a sound like the rushing of crows' wings. Can it be a coven of witches has flown over these woods? On any other night, you would probably swear that there was no such thing as a witch—at least, not the kind that

streaks through the sky on a broomstick with guttering taper and billowing cloak. But this is no ordinary night; it is the thirtieth of April, the eve of May. Tonight is Walpurgis Night. The roots of Walpurgis Night reach deep into the Pagan past, and modern Europeans celebrate it with as much abandon as their ancestors. Learn about the sacred rites of spring and the lost holiday has changed from a lusty fertility festival to a children's night of fun and treats. Learn about brooms and how to make one, and meet a collection of old-time witches, from Ash Wives to Wolf Crones. This charming, impeccably researched book features a wealth of folklore and herb lore, plus original and traditional recipes, crafts, and activities.

Bible Nation Candida R. Moss, Joel S. Baden, 2019-07-16 How the billionaire owners of Hobby Lobby are spending hundreds of millions of dollars to make America a “Bible nation” The Greens of Oklahoma City—the billionaire owners of the Hobby Lobby chain of craft stores—are spending hundreds of millions of dollars in an ambitious effort to increase the Bible’s influence on American society. In Bible Nation, Candida Moss and Joel Baden provide the first in-depth investigative account of the

Greens' sweeping Bible projects. Moss and Baden tell the story of the Greens' efforts to place a Bible curriculum in public schools; their rapid acquisition of an unparalleled collection of biblical antiquities; their creation of a closely controlled group of scholars to study and promote the collection; and their construction of a \$500 million Museum of the Bible in Washington, D.C. Revealing how all these initiatives promote a very particular set of beliefs about the Bible, the book raises serious questions about the trade in biblical antiquities, the integrity of academic research, and the place of private belief in public life.

for the Kirkus Prize and nominated for the Goodreads Choice Award! Sefia knows what it means to survive. After her father is brutally murdered, she flees into the wilderness with her aunt Nin, who teaches her to hunt, track, and steal. But when Nin is kidnapped, leaving Sefia completely alone, none of her survival skills can help her discover where Nin's been taken, or if she's even alive. The only clue to both her aunt's disappearance and her father's murder is the odd rectangular object her father left behind, an object she comes to realize is a book—a marvelous item unheard of in her otherwise illiterate society. With the help of this book, and the aid of a mysterious stranger with dark secrets of his own, Sefia sets out to rescue her aunt and find out what really happened the day her father was killed—and punish the people responsible. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how

eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I

was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t
