Schubert's Winter Journey Ian Bostridge,2015-01-27 An exploration of the world's most famous and challenging song cycle, Schubert's Winter Journey (Winterreise), by a leading interpreter of the work, who teases out the themes—literary, historical, psychological—that weave through the twenty-four songs that make up this legendary masterpiece. Completed in the last months of the young Schubert's life, Winterreise has come to be considered the single greatest piece of music in the history of Lieder. Deceptively laconic—these twenty-four short poems set to music for voice and piano are performed

uninterrupted in little more than an hour—it nonetheless has an emotional depth and power that no music of its kind has ever equaled. A young man, rejected by his beloved, leaves the house where he has been living and walks out into snow and darkness. As he wanders away from the village and into the empty countryside, he experiences a cascade of emotions—loss, grief, anger, and acute loneliness, shot through with only fleeting moments of hope—until the landscape he inhabits becomes one of alienation and despair. Originally intended to be sung to an intimate gathering, performances of *Winterreise* now pack the greatest concert halls around the world. Drawing equally on his vast experience performing this work (he has sung it more than one hundred times), on his musical knowledge, and on his training as a scholar, Bostridge teases out the enigmas and subtle meanings of each of the twenty-four lyrics to explore for us the world Schubert inhabited, his biography and psychological makeup, the historical and political pressures within which he became one of the world's greatest composers, and the continuing resonances and affinities that our ears still detect today, making Schubert's wanderer our mirror.

Kidding Around Hilary Bradt,James Lowen,2019-10-24 Becoming a parent need to not put an end to wanderlust. That's the message in this new anthology from Bradt, the latest in a series of collections of real-life tales focusing on different aspects of travel. With contributions from a range of both well-known, professional travel writers and newer writers from the UK and North America, this engaging and entertaining compilation of 37 stories lifts the lid on the perils and joys of travelling with babies, toddlers and teenagers in locations spanning five continents. Contributors include renowned travel writer Dervla Murphy, National Geographic Traveller Editorial Director Maria Pieri, multi-award winning authors Adrian Phillips and Mike Unwin, and nature writers Amy-Jane Beer and Nicola Chester to

name just a few. Potentially life-threatening situations, confessions of inept parenting and celebrations of derring-do are all part of the mix. There's plenty of adventurous travel, from trekking with toddlers in the Himalayas to sailing en famille across the Atlantic Ocean and the first circumnavigation of Mauritius by bicycle. Read how one mother threatens to dump her baby on jobsworth airport officials, how a father inadvertently takes his daughters to a brothel, and how one family turned up six hours early for a flight. and still managed to miss it. Join families paddling with crocodiles and getting their jeep stuck on a beach as the tide is coming in, or eleven-month-old Rory as he eats alongside marine iguanas and three-year-old Quin who befriends a family of cockroaches. At times comical, hair-raising or just plain fun, there are also magical moments with wild creatures or in wild places. For anyone who has ever travelled with children, or wondered what it must be like to head out into the unknown with little ones in tow, this is a captivating read.

Sticks and Stones Melissa Lennig, 2019-05-07 *Sticks and Stones* presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using the materials made readily available to them, from cabins and tipis to bridges and dams. Many smaller scale projects are included, too—such as how to make ochre paint with shale, make a fishing pole, and carve a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog *Fireflies and Mud Pies*) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. *Sticks and Stones* details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for

camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. *Sticks and Stones* is an essential resource for every junior outdoor adventurer.

The Elf on the Shelf Chandra A. Bell, Carol V. Aebersold, 2013-05-15 In Santa's Christmas village at the North Pole, the elves celebrate special days all year round. Apart from Christmas, though, nothing is more exciting to a scout elf than a birthday--and elves celebrate birthdays with a tradition that goes back thousands of years. Now, at the request of children from around the world, Santa has given his scout elves special permission to share that birthday tradition with the families they love. An elf cannot come to a celebration, though, unless it is invited.
