*Dark Star Rising* Gary Lachman, 2018-05-29 Within the concentric circles of Trump's regime lies an unseen culture of occultists, power-seekers, and mind-magicians whose influence is on the rise. In this unparalleled account, historian Gary Lachman examines the influence of occult and esoteric philosophy on the unexpected rise of the alt-right. Did positive thinking and mental science help put Donald Trump in the White House? And are there any other hidden powers of the mind and thought at work in today's world politics? In *Dark Star Rising: Magick and Power in the Age of Trump*, historian and cultural critic Gary Lachman takes a close look at the various magical and esoteric ideas that are impacting political events across the globe. From New Thought and Chaos Magick to the far-right esotericism of Julius Evola and the Traditionalists, Lachman follows a trail of mystic clues that involve, among others, Norman Vincent Peale, domineering gurus and demagogues, Ayn Rand, Pepe the Frog, Rene Schwaller de Lubicz, synarchy, the Alt-Right, meme magic, and Vladimir Putin and his postmodern Rasputin. Come take a drop down the rabbit hole of occult politics in the twenty-first century and find out the post-truths and alternative facts surrounding the 45th President of the United States with one of the leading writers on esotericism and its influence on modern culture.

The Art of Brian Bolland Brian Bolland, 2006 Often referred to as the artist's artist, Brian Bolland has spent the last quarter century producing some of the most memorable and inspiring illustrations the comic industry has ever seen. This handsome volume is a retrospective of this astonishing artist's career and a look at the man himself.

**Vinyl Junkies** Brett Milano, 2003-11-10 Not too far away from the flea markets, dusty attics, cluttered used record stores and Ebay is the world of the vinyl junkies. Brett Milano dives deep into the piles of old vinyl to uncover the subculture of record collecting. A vinyl junkie is not the person who has a few old 45s shoved in the cuboard from their days in high school. Vinyl Junkies are the people who will travel over 3,000 miles to hear a rare b-side by

a German band that has only recorded two songs since 1962, vinyl junkies are the people who own every copy of every record produced by the favorite artist from every pressing and printing in existence, vinyl junkies are the people who may just love that black plastic more than anything else in their lives. Brett Milano traveled the U.S. seeking out the most die-hard and fanatical collectors to capture all that it means to be a vinyl junkie. Includes interviews with Thurston Moore of Sonic Youth, Peter Buck from R.E.M and Robert Crumb, creator of Fritz the cat and many more underground comics.

Into the Spotlight Carrie Hope Fletcher,2020-09-17 Inspired by the much-loved classic Ballet Shoes by Noel Streatfeild, Into the Spotlight is a magical new story from bestselling author and acclaimed performer Carrie Hope Fletcher. Brilliant Aunt Maude visits seashores the world over and has become quite the pebble collector. Pebbles of all shapes, sizes and colours and even one that looked a bit like Elvis Presley if you squinted a bit. Her favourite pebbles, however, are Marigold, Mabel and Morris. One by one, and by strange and unusual ways, each child arrives at the stage door of Brilliant Aunt Maude's theatre in the heart of London, home to an extraordinary cast of performers. There's Dante the miraculous magician, Petunia the storyteller and seventy-year-old contortionists - the Fortune Sisters! But ticket sales are dwindling and the curtains might have to close - for the final time. Until one day, as the Pebbles are exploring the many nooks and crannies of the theatre, they stumble upon something they were never meant to find . . . something that just might save the theatre after all . . .

Christmas on Jane Street Billy Rump,Wanda Urbanska,2013-05-21 This “sweet tale” of a Vermont family’s annual trek to New York City to sell trees is “a cross between It’s a Wonderful Life and A Christmas Carol” (USA Today). Every holiday season for nearly twenty years, Billy Rump, his wife, and their three children have spent nearly a month living in a tiny camper and selling Christmas trees on Jane Street in New York City. They arrive from

Vermont the day after Thanksgiving and leave just in time to make it home for Christmas morning—and for a few weeks they transform a corner of the Big Apple into a Frank Capra-esque small town alive with heartwarming holiday spirit. A lovely, lovingly illustrated little gem of a book, this delightful tenth anniversary edition of a beloved Christmas classic tells the poignant, inspiring story of an unforgettable family that brings the Christmas spirit to life on a street corner in Manhattan and the warm, wide circle of friends who have welcomed them to the neighborhood. Christmas on Jane Street is about the transformative power of love—love of parent and child, of merchant and customer, of stranger and neighbor. The ideal Christmas story, it is about the lasting and profound difference that one person can make to a family and one family can make to a community. “A heartwarming story”—Newsday “A touching tale fragrant with the season . . . a special treat for those who love Christmas trees.” —Tampa Tribune

John Dee and the Empire of Angels Jason Louv, 2018-04-17 A comprehensive look at the life and continuing influence of 16th-century scientific genius and occultist Dr. John Dee • Presents an overview of Dee’s scientific achievements, intelligence and spy work, imperial strategizing, and his work developing methods to communicate with angels • Pieces together Dee’s fragmentary Spirit Diaries and examines Enochian in precise detail and the angels’ plan to establish a New World Order • Explores Dee’s influence on Sir Francis Bacon, modern science, Rosicrucianism, and 20th-century occultists such as Jack Parsons, Aleister Crowley, and Anton LaVey Dr. John Dee (1527-1608), Queen Elizabeth I’s court advisor and astrologer, was the foremost scientific genius of the 16th century. Laying the foundation for modern science, he actively promoted mathematics and astronomy as well as made advances in navigation and optics that helped elevate England to the foremost imperial power in the world. Centuries ahead of his time, his theoretical work included the concept of light speed and prototypes for telescopes and solar panels. Dee, the original “007” (his crown-given moniker), even invented the idea of a “British Empire,” envisioning fledgling America as the new Atlantis, himself as Merlin, and Elizabeth as Arthur. But, as Jason Louv explains, Dee was suppressed from mainstream history because he spent the second half of his career developing a method for contacting angels. After a brilliant ascent from star student at Cambridge to scientific advisor to the Queen, Dee, with the help of a disreputable, criminal psychic named Edward Kelley, devoted ten years to communing with the angels and archangels of God. These spirit communications gave him the keys to Enochian, the language that mankind spoke before the fall from Eden. Piecing together Dee’s fragmentary Spirit Diaries and scrying sessions, the author examines

Enochian in precise detail and explains how the angels used Dee and Kelley as agents to establish a New World Order that they hoped would unify all monotheistic religions and eventually dominate the entire globe. Presenting a comprehensive overview of Dee's life and work, Louv examines his scientific achievements, intelligence and spy work, imperial strategizing, and Enochian magick, establishing a psychohistory of John Dee as a singular force and fundamental driver of Western history. Exploring Dee's influence on Sir Francis Bacon, the development of modern science, 17th-century Rosicrucianism, the 19th-century occult revival, and 20th-century occultists such as Jack Parsons, Aleister Crowley, and Anton LaVey, Louv shows how John Dee continues to impact science and the occult to this day.
