Papertoy Monsters Brian Castleforte, 2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft

package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Vocal Recall Neil Ross, 2018-06-17 How does a kid who survives the rain of V-2 rockets on London in the waning years of World War II, end up in Hollywood announcing the Diamond Jubilee of Oscar? Veteran Hollywood voice actor Neil Ross tells the amazing story of his life, and fifty-plus year career, in two exciting, highly competitive professions in his autobiography: *Vocal Recall; A Life in Radio and Voiceovers* Driving cross-country to New York at 17, Neil learns how to survive in the Big Apple on \$38.06 a week, and then lives the life of a radio gypsy: Arizona,

Salt Lake City, Honolulu and Saigon, where, as a Navy Journalist, Neil reports on one of the major disasters of the Viet Nam War. Then on to San Diego, San Francisco and finally, Hollywood. Neil tells of his struggle breaking into voiceovers, one of the most competitive fields in the industry. Then describes in fascinating detail what it was like to work on iconic 80's and 90's TV cartoon shows including: Transformers, G.I. Joe, Voltron and Spider-Man. As well as a slew of popular video games including: Metal Gear Solid, Call of Duty, Command and Conquer, Doom 3 and Mass Effect. Neil spins the tale of his 30-plus years in voiceovers including major motion pictures and television shows, and encounters with Robert Redford, Warren Beatty, Steven Spielberg and Jerry Seinfeld. In addition to announcing the Diamond Jubilee of Oscar, Neil also works on the Primetime Emmy Awards and seven AFI Life Achievement Award telecasts. He describes in vivid detail the adrenaline pumping experience of working on live, celebrity-studded events. As Neil's story unfolds, we meet an amazing cast of characters: from Gene Autry to Jim Morrison, Little Richard to Jonathan Winters. Neil also shares his experiences with the many colorful, talented voice actors and directors he's worked with over the years, and shares stories of hilarious in-studio hijinks.

Readers curious about the life of a top 40 radio DJ in the heyday of that format, fans of the many cartoon shows and games Neil has worked on, and the many beloved characters he's voiced, and folks dying to know the inside scoop on the golden age of the voiceover business will want to read this fascinating story.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
