Arsham-isms Daniel Arsham,2021-04-13 The work of renowned contemporary artist Daniel Arsham blurs the lines between art, architecture, archeology, and design. In his distinctive style, he takes ancient art works and objects from twentieth-century pop culture and casts sculptures of them in geological materials such as quartz or volcanic ash, colliding past, present, and future in haunted yet playful visions that prompt viewers to question their everyday surroundings. Gathered from interviews and other sources, Arsham-isms is a collection of lively, thought-provoking, and memorable quotations from this exciting young creative talent on a wide range of subjects-including art, architecture, film, design, pop culture, the art world, and what it means to be a globally recognized artist today.

A Literary History of the Low Countries Theo Hermans,2009 An authoritative volume that is the first literary history of the Netherlands and Flanders in English since the 1970s

Sovereignty as Inviolability Frans-Willem Korsten,2009 Sovereignty was a key issue in the baroque, and especially in the Dutch Republic with its incredibly complicated political organisation. Consequently, sovereignty was explored in and through Joost van den Vondel's theatre plays. Vondel sensed a fundamental problem in the construction of Europe's politico-cultural 'House'. The questions he asked with respect to that construction concerned the relationship between theology and politics, including in terms of gender and culture. Because these questions could barely be considered explicitly, let alone actually discussed, they had to be presented through literature theatre. A close reading of a number of plays reveals not only a pivotal discussion that concerns Vondel's own times, but also an on-going struggle in the European exploration of sovereignty. In that context, power and potency a distinction made by Spinoza determine the status of sovereignty that any body can acquire.

Loving Yusuf Mieke Bal,2008-09-15 When Mieke Bal reread the story of Joseph and Potiphar's wife as an adult, she was struck by differences between her childhood memories of a moral tale and what she read today. In *Loving Yusuf*, Bal seeks to resolve this clash between memory and text, using the same story, in which Joseph spurns the advance of his master's wife who then falsely accuses him of rape, as her point of departure. She juxtaposes the Genesis tale to the rather different version told in the Qur'an and the depictions

of it by Rembrandt and explores how Thomas Mann’s great retelling in Joseph and His Brothers reworks these versions. Through this inquiry she develops concepts for the analysis of texts that are both strange and overly familiar—culturally remote yet constantly retold. As she puts personal memories in dialogue with scholarly exegesis, Bal asks how all of these different versions complicate her own and others’ experience of the story, and how the different truths of these texts in their respective traditions illuminate the process of canonization.

Women's Writing from the Low Countries 1200-1875 Lia van Gemert,2010 This book provides a welcome English translation of a marvelous anthology of women's religious and secular writing, stretching from the visions of the late medieval mystics through the prison testaments of sixteenth-century Anabaptist martyrs to the pamphleteers and novelists of the growing urban bourgeoisie. The translations and introductions demonstrate the ways that women in the Low Countries shaped the intellectual and cultural developments of their eras.

Reading Shakespeare Historically Lisa Jardine,2005-07-26 Reading Shakespeare Historically is a passionate, provocative book by one of the most renowned and popular Renaissance scholars writing today. Charting ten years of critical development, these challenging, witty essays shed new light on Renaissance studies. It also raises intriguing questions about how the culture and history of the past illuminates the key social and political issues of today. Lisa Jardine re-reads Renaissance drama in its historical and cultural context, from laws of defamation in Othello to the competing loyalties of companionate marriage and male friendship in The Changeling. In doing so she reveals a wealth of new insights, sometimes surprising but always original and engrossing. At the same time, these essays also provide a fascinating account of the rise of feminist scholarship since the 1980s and the diversifying of `new historicist' approaches over the same period.

The Subject of Tragedy (Routledge Revivals) Catherine Belsey,2014-06-17 First published in 1985, The Subject of Tragedy takes the drama of the sixteenth and seventeenth centuries as the starting point for an analysis of the differential identities of man and woman. Catherine Belsey charts, in a range of fictional and non-fictional texts, the production in the Renaissance of a meaning for subjectivity that is identifiably modern. The subject of liberal humanism – self-determining, free origin of language, choice and action – is highlighted as the product of a specific period in which man was the subject to which woman was related.

Onikage Toshio Saeki,2010 Throughout this stunning hardcover package, paper vellum overlays reproduce Saeki's unique method for adding colour to his b/w artwork. He does not apply colour directly, but instead uses overlays to indicate the exact colours he wants. He calls this method chinto printing - the picture is complete only after it has been printed - a modern version of ukiyo-e, a genre of Japanese woodcut prints.

Radiant Textuality J. McGann,2016-04-30 This book describes and explains the fundamental changes that are now taking place in the most traditional areas of humanities theory and method, scholarship and education. The changes flow from the re-examination of the very foundations of the humanities - its theories of textuality and communication - that are being forced by developments in information technology. A threshold was crossed during the last decade of the twentieth century with the emergence of the World Wide Web, which has (1) globalized access to computerized resources and information, and (2) made interface and computer graphics paramount concerns for work in digital culture. While these changes are well known, their consequences are not well understood, despite so much discussion by digital enthusiasts and digital doomsters alike. In reconsidering these matters, Radiant Textuality introduces some remarkable new proposals for integrating computerized tools into the central interpretative and critical activities of traditional humanities disciplines, and of literary studies in particular.
