All the Light We Cannot See Anthony Doerr, 2014-05-06 *NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning

sense of physical detail and gorgeous metaphors” (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer “whose sentences never fail to thrill” (Los Angeles Times).

Balanced on the Blade's Edge Lindsay Buroker, 2014-04-01 Colonel Ridge Zirkander isn't the model of military professionalism—he has a tendency to

say exactly what's on his mind, and his record has enough demerits to wallpaper the hull of an airship—but as the best fighter pilot in the Iskandian army, he's used to a little leniency from his superiors. Until he punches the wrong diplomat in the nose and finds himself issued new orders: take command of a remote prison mine in the inhospitable Ice Blades Mountains. Ridge has never been in charge of anything larger than a flier squadron—what's he supposed to do with a frozen fortress full of murderers and rapists? Not to mention the strange woman who shows up right before he arrives... Sardelle Terushan wakes from three hundred years in a mage stasis shelter, only to realize that she is the last of the Referatu, the sorcerers who once helped protect Iskandia from conquerors. Their subterranean mountain community was blown up in a treacherous sneak attack by soldiers who feared their power. Everyone Sardelle ever knew is dead, and the sentient soulblade she has been bonded to since her youth is buried in the core of the mountain. Further, what remains of her home has been infested by bloodthirsty miners commanded by the descendants of the very soldiers who destroyed her people. Sardelle needs help to reach her soulblade—her only link to her past and her last friend in the world. Her only hope is to pretend she's one of the prisoners while trying to gain the commander's trust. But lying isn't her specialty, especially when the world has changed so much in the intervening centuries, and if Colonel Zirkander figures out who she truly is, he'll be duty-bound to sentence her to the only acceptable punishment for sorcerers:

death.

The Wonderling Mira Bartok, 2017-09-26 In this extraordinary debut novel with its deft nod to Dickensian heroes and rogues, Mira Bartók tells the story of Arthur, a shy, fox-like foundling with only one ear and a desperate desire to belong, as he seeks his destiny. Have you been unexpectedly burdened by a recently orphaned or unclaimed creature? Worry not! We have just the solution for you! Welcome to the Home for Wayward and Misbegotten Creatures, an institution run by evil Miss Carbunkle, a cunning villainess who believes her terrified young charges exist only to serve and suffer. Part animal and part human, the groundlings toil in classroom and factory, forbidden to enjoy anything regular children have, most particularly singing and music. For the Wonderling, an innocent-hearted, one-eared, fox-like eleven-year-old with only a number rather than a proper name – a 13 etched on a medallion around his neck – it is the only home he has ever known. But unexpected courage leads him to acquire the loyalty of a young bird groundling named Trinket, who gives the Home's loneliest inhabitant two incredible gifts: a real name – Arthur, like the good king in the old stories – and a best friend. Using Trinket's ingenious invention, the pair escape over the wall and embark on an adventure that will take them out into the wider world and ultimately down the path of sweet Arthur's true destiny. Richly imagined, with shimmering language, steampunk motifs, and gripping, magical plot twists, this high adventure fantasy is the debut novel of award-

winning memoirist Mira Bartók and has already been put into development for a major motion picture.

Story Engineering Larry Brooks, 2011-01-27 What makes a good story or a screenplay great? The vast majority of writers begin the storytelling process with only a partial understanding where to begin. Some labor their entire

lives without ever learning that successful stories are as dependent upon good engineering as they are artistry. But the truth is, unless you are master of the form, function and criteria of successful storytelling, sitting down and pounding out a first draft without planning is an ineffective way to begin. Story Engineering starts with the criteria and the architecture of storytelling, the engineering and design of a story--and uses it as the basis for narrative. The greatest potential of any story is found in the way six specific aspects of storytelling combine and empower each other on the page. When rendered artfully, they become a sum in excess of their parts. You'll learn to wrap your head around the big pictures of storytelling at a professional level through a new approach that shows how to combine these six core competencies which include: • Four elemental competencies of concept, character, theme, and story structure (plot) • Two executional competencies of scene construction and writing voice The true magic of storytelling happens when these six core competencies work together in perfect harmony. And the best part? Anyone can do it!

Dare to Know James Kennedy, 2022-06-07 "A razor-smart sci-fi corporate noir nightmare. Dare to Know is what happens when Willy Loman sees through the Matrix. A heartbreaking, time-bending, galactic mindbender delivered in the mordantly funny clip of a doomed antihero."—Daniel Kraus, co-author of *The Shape of Water Now* in paperback, this mind-bending and emotional speculative thriller is set in a world where the exact moment of your death can be predicted—for a price, featuring an excerpt from the upcoming *Bride of the Tornado*. Our narrator is the most talented salesperson at Dare to Know, an enigmatic company that has developed the technology to predict anyone's death down to the second. Divorced, estranged from his sons, and broke, he's driven to violate the cardinal rule of the business by forecasting his own death day. The problem: his prediction says he died twenty-three minutes ago. The only person who can confirm its accuracy is Julia, the woman he loved and

lost during his rise up the ranks of Dare to Know. As he travels across the country to see her, he's forced to confront his past, the choices he's made, and the terrifying truth about the company he works for. Wildly ambitious and highly immersive, this thought-provoking thriller explores the destructive power of knowledge and collapses the boundaries between reality, myth, and conspiracy as it races toward its shocking conclusion.

Annihilation Jeff VanderMeer, 2014-02-04 A MAJOR MOTION PICTURE FROM ALEX GARLAND, STARRING NATALIE PORTMAN AND OSCAR ISAAC The Southern Reach Trilogy begins with Annihilation, the Nebula Award-winning novel that reads as if Verne or Wellsian adventurers exploring a mysterious island had warped through into a Kafkaesque nightmare world (Kim Stanley Robinson). Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as shadows of their former selves, and within weeks, all had died of cancer. In Annihilation, the first volume of Jeff VanderMeer's Southern Reach trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one

another that change everything.

The Scar China Miéville, 2002-06-25 A mythmaker of the highest order, China Miéville has emblazoned the fantasy novel with fresh language, startling images, and stunning originality. Set in the same sprawling world of Miéville's Arthur C. Clarke Award-winning novel, *Perdido Street Station*, this latest epic introduces a whole new cast of intriguing characters and dazzling creations. Aboard a vast seafaring vessel, a band of prisoners and slaves, their bodies remade into grotesque biological oddities, is being transported to the fledgling colony of New Crobuzon. But the journey is not theirs alone. They are joined by a handful of travelers, each with a reason for fleeing the city. Among them is Bellis Coldwine, a renowned linguist whose services as an interpreter grant her passage—and escape from horrific punishment. For she is linked to Isaac Dan der Grimnebulin, the brilliant renegade scientist who has unwittingly unleashed a nightmare upon New Crobuzon. For Bellis, the plan is clear: live among the new frontiersmen of the colony until it is safe to return home. But when the ship is besieged by pirates on the Swollen Ocean, the senior officers are summarily executed. The surviving passengers are brought to Armada, a city constructed from the hulls of pirated ships, a floating, landless mass ruled by the bizarre duality called the Lovers. On Armada, everyone is given work, and even Remades live as equals to humans,

Cactae, and Cray. Yet no one may ever leave. Lonely and embittered in her captivity, Bellis knows that to show dissent is a death sentence. Instead, she must furtively seek information about Armada's agenda. The answer lies in the dark, amorphous shapes that float undetected miles below the waters—terrifying entities with a singular, chilling mission. . . . China Miéville is a writer for a new era—and *The Scar* is a luminous, brilliantly imagined novel that is nothing short of spectacular. BONUS: This edition contains an excerpt from China Miéville's *Embassytown*.

Horizon Barry Lopez, 2019-03-19 ONE OF THE BEST BOOKS OF THE YEAR: THE NEW YORK TIMES • NPR • THE GUARDIAN From pole to pole and across decades of lived experience, National Book Award-winning author Barry Lopez delivers his most far-ranging, yet personal, work to date. *Horizon* moves indelibly, immersively, through the author's travels to six regions of the world: from Western Oregon to the High Arctic; from the Galápagos to the Kenyan desert; from Botany Bay in Australia to finally, unforgettably, the ice shelves of Antarctica. Along the way, Lopez probes the long history of humanity's thirst for exploration, including the prehistoric peoples who trekked across Skraeling Island in northern Canada, the colonialists who plundered Central Africa, an enlightenment-era Englishman who sailed the Pacific, a Native American emissary who found his way into isolationist Japan, and today's ecotourists in the tropics. And always, throughout his journeys to some of the hottest, coldest, and most desolate places on the globe, Lopez searches

for meaning and purpose in a broken world.
