Bhakti or Devotion Swami Vivekananda, 1963 In this lecture, Swami Vivekananda discusses some of the crucial and most pertinent issues surrounding the practice of devotion in a succinct way. He brilliantly brings out the rationale of this practice, ignorance of which has been the main cause of the timeless conflict in the religious scenario of the world. This booklet by Advaita Ashrama, a Publication House of Ramakrishna Math, Belur Math, forcefully justifies the need of Bhakti or Devotion for every man while still in the nursery of religious life.

Narada Bhakti Sutras Swami Tyagisananda, 2020-03-07 Down through the ages highly evolved souls of both the East and West have taught that we can attain perfect pure and eternal love only when we learn to love God. Bhakti-yoga the science of devotion teaches us this art. And there is no greater teacher than the Vedic sage Narada. Narada's 84 jewel-like aphorisms on devotion known as the Narada-Bhakti-Sutra reveal the secrets of the love of God — what it is and isn't; what its effects are; what helps or hinders our progress along the path; and much more. For the sincere seeker of life's ultimate goal the Narada-bhakti-sutra is essential.

Practical Vedanta Swami Vivekananda, 2015-10-19 If one asks, how Vedanta can be made practical in our day-to-day life, here is a book published by Advaita Ashrama, a publication centre of

Ramakrishna Math, Belur Math, India, which provides the answer. It contains some of the most important lectures delivered by Swami Vivekananda in London regarding the application of Vedanta in our daily lives. Highly practical, this book helps the readers to bring about a deep transformation in their lives by spiritualizing their every moment and movement.

Para Bhakti or Supreme Devotion SWAMI VIVEKANANDA, 2011-01-01 Vivekananda was a man with a great spiritual presence and tremendous intellect who was a tireless teacher and writer. He wrote poems and hymns in Bengali, English and Sanskrit, some of which are sung daily in Vedanta centre's worldwide. He was ahead of his time in encouraging women and Westerners to not only practice Vedanta, but to be leaders. Two examples are Sara Ellen Waldo who recorded and collected Swami's talks at Thousand Island Park and Margaret Noble, later known as Sister Nivadia, who devoted her life not only to Vedanta but also to the education of Indian girls. Supreme Devotion, in which forms and symbols fall off. One who has reached that cannot belong to any sect, for all sects are in him. To what shall he belong? For all churches and temples are in him. Where is the church big enough for him? Such a man cannot bind himself down to certain limited forms. Where is the limit for unlimited love, with which he has become one? In all religions which take up this ideal of love, we find the struggle to express it. Although we understand what this love means and see that everything in this world of affections and attractions is a manifestation of that Infinite Love, the expression of which has been attempted by sages and saints of different nations, yet we find them using all the powers of language, transfiguring even the most carnal expression into the divine.

Discovering Design Richard Buchanan, Victor Margolin, 1995-04-15 Discovering Design reflects the growing recognition that the design of the everyday world deserves attention not only as a professional practice but as a subject of social, cultural, and philosophic investigation. Victor Margolin, cofounder and an editor of the journal Design Issues, and Richard Buchanan, also an editor of the journal, bring together eleven essays by scholars in fields ranging from psychology, sociology, and political theory to technology studies, rhetoric, and philosophy. The essayists share the editors' concern, first made clear in Margolin's Design Discourse: History, Theory, Criticism,

with the the development of design studies as a field of interdisciplinary research. The contributors (Gianfranco Zaccai, Albert Borgmann, Richard Buchanan, Augusto Morello, Tufan Orel, Nigel Cross, Victor Margolin, Langdon Winner, Carl Mitcham, Tony Fry, and Ezio Manzini) focus on three broad themes that form a sequence of fundamental issues: how to shape design as a subject matter, how to distinguish the activity of designing in the complex world of action, and how to address the basic questions of value and responsibility that persistently arise in the discussion and practice of design. The editors' introduction provides a useful overview of these questions and offers a multidisciplinary framework for design studies. The essays discuss such topics as the relation of aesthetics to technology, the place of design in social action, the role of the consumer in design decisions, and the need for ethical practice in contemporary design. Manzini's concluding essay shows how the issue of ethics should connect responsible behavior to decisions made every day in the manufacture of objects.
