Global 1968 A. James McAdams, Anthony P. Monta, 2021-06-01 *Global 1968* is a unique study of the similarities and differences in the 1968 cultural revolutions in Europe and Latin America. The late 1960s was a time of revolutionary ferment throughout the world. Yet so much was in flux during these years that it is often difficult to make sense of the period. In this volume, distinguished historians, filmmakers, musicologists, literary scholars, and novelists address this challenge by exploring a specific issue—the extent to which the period that we associate with the year 1968 constituted a cultural revolution. They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America. The contributors show in vivid detail how new social mores, innovative forms of artistic expression, and cultural, religious, and political resistance were debated and tested on both sides of the Atlantic. In some cases, the desire to confront traditional beliefs and conventions had been percolating under the surface for years. Yet they also find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next. These factors included new thinking about education and work, dramatic changes in the self-presentation of the Roman Catholic Church, government repression in both the Soviet Bloc and Latin America, and universal disillusionment with the United States. The contributors demonstrate that the short- and long-term effects of the cultural revolution of 1968 varied from country to country, but the period’s defining legacy was a lasting shift in values, beliefs, lifestyles, and artistic sensibilities. Contributors: A. James McAdams, Volker Schlöndorff, Massimo De Giuseppe, Eric Drott, Eric Zolov, William Collins Donahue, Valeria Manzano, Timothy W. Ryback, Vania Markarian, Belinda Davis, J. Patrice McSherry, Michael Seidman, Willem Melching, Jaime M. Pensado, Patrick Barr-Melej, Carmen-Helena Téllez, Alonso Cueto, and Ignacio Walker.

Not by Love Alone Margaret Mehl, 2014-09-19 Suzuki Shin'ichi, the Tokyo String Quartet, Midori - How did Japanese violinists manage to revolutionize violin teaching, win international competitions, conquer Western concert stages, study at world-famous conservatoires and take up positions in leading orchestras and prestigious music faculties? What enabled the Japanese to master Western classical music within a few decades? What are the true origins of the Suzuki Method? How did Mozart and Beethoven come to be more widely heard in Japan today than Japan's own traditional music? *Not by Love Alone* presents Japan's biggest success story: the complete assimilation of an alien musical tradition within a few decades and Japan's rise to a musical superpower in the latter half of the twentieth century. The violin played a key role in this story and is still one of the most popular instruments. Mass-produced by Suzuki Masakichi already in 1900, it became the vehicle for Suzuki Shin'ichi's pioneering teaching method fifty years later. *Not by Love Alone* traces the history of the violin in Japan from its beginnings to the present day. It presents the most important pioneers of Western music and the violin, both Japanese and foreign, the first students, violin makers and composers for the violin, early child prodigies, pioneering teachers, and today's leading violinists, including those who have crossed stylistic boundaries. In addition *Not by Love Alone* discusses the relationship between the violin and the traditional music of Japan as well as the violin's part in expressing Japan's modern identity.

Kumba Africa Sampson Ejike Odum, 2020-11-03 ‘KUMBA AFRICA’, is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven’t tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

Islam and the West Mustapha Chérif, 2009-05-15 In the spring of 2003, Jacques Derrida sat down for a public debate in Paris with Algerian intellectual Mustapha Chérif. The eminent philosopher arrived at the event directly from the hospital where he had just been diagnosed with pancreatic cancer, the illness that would take his life just over a year later. That he still participated in the exchange testifies to the magnitude of the subject at hand: the increasingly distressed relationship between Islam and the West, and the questions of freedom, justice, and democracy that surround it. As Chérif relates in this account of their dialogue, the topic of Islam held special resonance for Derrida—perhaps it is to be expected that near the end of his life his thoughts would return to Algeria, the country where he was born in 1930. Indeed, these roots served as the impetus for their conversation, which first centers on the ways in which Derrida’s Algerian-Jewish identity has shaped his thinking. From there, the two men move to broader questions of secularism and democracy; to politics and religion and how the former manipulates the latter; and to the parallels between xenophobia in the West and fanaticism among Islamists. Ultimately, the discussion is an attempt to tear down the notion that

Islam and the West are two civilizations locked in a bitter struggle for supremacy and to reconsider them as the two shores of the Mediterranean—two halves of the same geographical, religious, and cultural sphere. Islam and the West is a crucial opportunity to further our understanding of Derrida’s views on the key political and religious divisions of our time and an often moving testament to the power of friendship and solidarity to surmount them.

Struck by Lightning Jeffrey S. Rosenthal,2006-04-28 From terrorist attacks to big money jackpots, *Struck by Lightning* deconstructs the odds and oddities of chance, examining both the relevant and irreverent role of randomness in our everyday lives. Human beings have long been both fascinated and appalled by randomness. On the one hand, we love the thrill of a surprise party, the unpredictability of a budding romance, or the freedom of not knowing what tomorrow will bring. We are inexplicably delighted by strange coincidences and striking similarities. But we also hate uncertainty's dark side. From cancer to SARS, diseases strike with no apparent pattern. Terrorists attack, airplanes crash, bridges collapse, and we never know if we'll be that one in a million statistic. We are all constantly faced with situations and choices that involve randomness and uncertainty. A basic understanding of the rules of probability theory, applied to real-life circumstances, can help us to make sense of these situations, to avoid unnecessary fear, to seize the opportunities that randomness presents to us, and to actually enjoy the uncertainties we face. The reality is that when it comes to randomness, you can run, but you can't hide. So many aspects of our lives are governed by events that are simply not in our control. In this entertaining yet sophisticated look at the world of probabilities, author Jeffrey Rosenthal-an improbably talented math professor-explains the mechanics of randomness and teaches us how to develop an informed perspective on probability.
