**Learn How to Draw Animals with Colored Pencils For the Beginner** John Davidson,2013-05-15 Learn How to Draw Animals with Colored Pencils For the Beginner Table of Contents Introduction Blending Mixing the colors Drawing the shadows Proportionality Golden eagle - drawing tutorial Tiger - drawing tutorial Fish - drawing tutorial Parrot - drawing tutorial Ladybugs - drawing tutorial Horses - drawing tutorial Author Bio Introduction: Drawing with colored pencil is super easy if you use the right colors and have drawn a good sketch. Unlike the graphite pencils, colored pencils cannot be easily erased, so we have to draw carefully, particularly the darker areas. Always

draw parts with colored pencil pressing down lightly and if it looks good, color over the same area pressing down hard. Buy good brand of colored pencils and smooth paper. If you don't have a lot of say red pencils, you can get more nuances with only one pencil, by controlling how hard you press when you draw. In the image below I've drawn with one red pencil three nuances. In the first example I pressed hard, in the second I pressed normally and in the third example I pressed lightly. Even more nuances can be created this way:

**The Routledge Handbook of Religion and Animal Ethics** Andrew Linzey, Clair Linzey, 2018-09-29 The ethical treatment of non-human animals is an increasingly significant issue, directly affecting how people share the planet with other creatures and visualize themselves within the natural world. The Routledge Handbook of Religion and Animal Ethics is a key reference source in this area, looking specifically at the role religion plays in the formation of ethics around these concerns. Featuring thirty-five chapters by a team of international contributors, the handbook is divided into two parts. The first gives an overview of fifteen of the major world religions' attitudes towards animal ethics and protection. The second features five sections addressing the following topics: Human Interaction with Animals Killing and Exploitation Religious and Secular Law Evil and Theodicy Souls and Afterlife This handbook demonstrates that religious traditions, despite often being anthropocentric, do have much to offer to those seeking a framework for a more enlightened relationship between humans and non-human animals. As such, The Routledge Handbook of Religion and Animal Ethics is essential reading for students and researchers in religious

studies, theology, and animal ethics as well as those studying the philosophy of religion and ethics more generally.
