The Last Flight of the Scarlet Macaw Bruce Barcott,2009-01-13 “The first time we came here I didn’t know what to expect,” she told me as we paddled upstream. “What we found just blew me away. Jaguars, pumas, river otters, howler monkeys. The place was like a Noah’s Ark for all the endangered species driven out of the rest of Central America. There was so much life! That expedition was when I first saw the macaws.” As a young woman, Sharon Matola lived many lives. She was a mushroom expert, an Air Force survival specialist, and an Iowa housewife. She hopped freight trains for fun and starred as a tiger tamer in a traveling Mexican circus. Finally she found her one true calling: caring for orphaned animals at her own zoo in the Central American country of Belize. Beloved as “the Zoo Lady” in her adopted land, Matola became one of Central America’s greatest wildlife defenders. And when powerful outside forces conspired with the local government to build a dam that would flood the nesting ground of the last scarlet macaws in Belize, Sharon Matola was drawn into the fight of her life. In *The Last Flight of the Scarlet Macaw*, award-winning author Bruce Barcott chronicles Sharon Matola’s inspiring crusade to stop a multinational corporation in its tracks. Ferocious in her passion, she and her confederates—a ragtag army of courageous locals and eccentric expatriates—endure slander and reprisals and take the fight to the courtroom and the boardroom, from local village streets to protests around the world. As the dramatic story unfolds, Barcott addresses the realities of economic survival in Third World countries, explores the tension between environmental conservation and human development, and puts a human face on the battle over globalization. In this marvelous and spirited book, Barcott shows us how one unwavering woman risked her life to save the most beautiful bird in the world. Barcott’s compelling narrative is suspenseful right up to the last moment. —Publisher's Weekly An engrossing but sad account of a brave and quirky champion of nature.—Kirkus “...A riveting account of one woman’s fight to save one of the last bastions of an endangered Species. . . Barcott writes of international politics, ecology and endangered species, and human relations with equal facility. This real page-turner of narrative nonfiction is hard to put down.” —Booklist

In 1990, only one was found to be living in the wild and an emergency international rescue operation was launched, calling on private collectors to come forward with their birds to mate with the last wild *Spix's*. In a breathtaking display of stoicism and endurance, the loneliest bird in the world had lived without a mate for fourteen years, outwitting predators and poachers. Would he take to a new companion? The Paper Zoo Charlotte Sleigh,2017-03-08 For many, their first experience of the natural world is in the pages of books and in library collections--a Paper Zoo. This stunning book gathers together a wide range of beautiful nature illustrations from the British Library's collections, including manuscripts, prints and drawings, and rare printed books, and featuring items from all around the world. With striking images of butterflies, beetles, spiders, animals, shells, fish and birds, the pages bring readers into contact with some of the world's most renowned natural history illustrators, such as Audubon and Catesby, and on expeditions to discover the lesser known rare finds as well. The text traces the story of the art of natural history from the Renaissance through the great age of exploration to the 19th century, to demonstrate how the collaboration between the fields of art and science has rendered such exquisite forms. The plates, all taken from books, are organized into several themed sections, though not on strict taxonomic grounds, but rather on broader themes of exotic, native, domestic, and paradoxical (with reference to what the species were at that time--for what is native now may well once have been exotic).
