Church Planting Movements V. David Garrison,2007 David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's Church Planting Movements: How God Is Redeeming a Lost World signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of Seven Deadly Sins, i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. One New People Manuel Ortiz,1996-08-19 Manuel Ortiz urges us not just to put aside our differences but to celebrate and embrace them--to use them in a way that draws us closer to each other and closer to God. *Houses that Change the World* Wolfgang Simson,2001 Millions of Christians around the world are becoming aware of an imminent reformation of global proportions within the church. God is changing this revered institution and is making a new collective awareness of an age-old revelation, a corporate spiritual echo that reflects God's desire for the church. In this book, Simson brings to light what God is saying to Christians everywhere. Researched across the globe, he presents the case for the reformation of the church's existence. In a world where the church is being ignored, it is time to bring the church to the people and not the people to the church. Whether it is what we know as church from the last five years or the last five hundred years, no one has truly been able to break free from the structures of the past. Many may see this book as radical, many may see it as a reforming of old ideals but all who read it will be challenged and their priorities refocused in a life-changing way.

Models of the Church Avery Dulles,2002-05-14 There is today a dramatic reexamination of structure, authority, dogma -- indeed, every aspect of the life of the Church is held up to scrutiny. Welcoming this as a sign of vitality, Avery Dulles has carefully studied the writings of contemporary Protestant and Catholic ecclesiologists and sifted out six major approaches, or models, through which the Church's character can be understood: as Institution, Mystical Communion, Sacrament, Herald, Servant, and, in a recent addition to the book, as Community of Disciples. A balanced theology, he concludes, must incorporate the major affirmations of each. The method of models or types, observes Cardinal Dulles, can have great value in helping people to get beyond the limitations of their own particular outlook and to enter into fruitful conversation with others... Such conversation is obviously essential if ecumenism is to get beyond its present impasses. This new edition includes a new Appendix and Preface by the author.

Gay and Catholic Eve Tushnet,2014-10-20 Winner of a 2015 Catholic Press Award: Gender Issues Category (First Place). In this first book from an openly lesbian and celibate Catholic, widely published writer and blogger Eve Tushnet recounts her spiritual and intellectual journey from liberal atheism to faithful Catholicism and shows how gay Catholics can love and be loved while adhering to Church teaching. Eve Tushnet was among the unlikeliest of converts. The only child of two atheist academics, Tushnet was a typical Yale undergraduate until the day she went out to poke fun at a gathering of philosophical debaters, who happened also to be Catholic. Instead of enjoying mocking what she termed the “zoo animals,” she found herself engaged in intellectual conversation with them and, in a move that surprised even her, she soon converted to Catholicism. Already self-identifying as a lesbian, Tushnet searched for a third way in the seeming two-option system available to gay Catholics: reject Church teaching on homosexuality or reject the truth of your sexuality. *Gay and Catholic: Accepting My Sexuality, Finding Community, Living My Faith* is the fruit of Tushnet’s searching: what she learned in studying Christian history and theology and her articulation of how gay Catholics can pour their love and need for connection into friendships, community, service, and artistic creation.
