Living on an Active Earth National Research Council, Division on Earth and Life Studies, Board on Earth Sciences and Resources, Committee on the Science of Earthquakes, 2003-08-22 The destructive force of earthquakes has stimulated human inquiry since ancient times, yet the scientific study of earthquakes is a surprisingly recent endeavor. Instrumental recordings of earthquakes were not made until the second half of the 19th century, and the primary mechanism for generating seismic waves was not identified until the beginning of the 20th century. From this recent start, a range of laboratory, field, and theoretical investigations have developed into a vigorous new discipline: the science of earthquakes. As a basic science, it provides a comprehensive understanding of earthquake behavior and related phenomena in the Earth and other terrestrial planets. As an applied science, it provides a knowledge base of great practical value for a global society whose infrastructure is built on the Earth's active crust. This book describes the growth and origins of earthquake science and identifies research and data collection efforts that will strengthen the scientific and social contributions of this exciting new discipline.

Zen in English Literature and Oriental Classics R. H. Blyth, 2016-06-12 It was R.H Blyth's belief that all that is good in European literature and culture is simply and solely that which is in accordance with the Spirit of Zen. He thereafter applied himself to the task of searching the writings of East and West in an attempt to

discover that Spirit. Zen in English Literature and Oriental Classics embraces the classical literature of China and Japan and the whole extent of English literature, with numerous quotations not only from English but also from French, German, Italian, and Spanish writing. Don Quixote has a chapter all to himself, and the author considers him possibly the purest example in all of world literature of a man who lives by Zen. In English, the Zen attitude toward life is found most consistently in Shakespeare, Wordsworth, Dickens, and Stevenson. This book is essential reading for anyone interested in Zen, haiku, or indeed English literature. R.H. Blyth was born in London in 1898 and studied English literature at London University. He traveled extensively in the East before moving first to Korea and then Japan and teaching English at several universities. Blyth eventually became the English tutor to the Crown Prince of Japan. He also studied Zen Buddhism under Kayama Taigi Roshi. Blyth was interned during the war years, and it was during this time that he wrote his first book, Zen in English Literature. He went on to write numerous other books on Zen, haiku, senryu, and humor. Blyth was a man whose sensibility took root in two disparate cultures and found a harmony that he beautifully and effectively communicated in his writing.

Double Exposure Susan Ford, Laura Hayden, 2003-06-16 Susan Ford, daughter of Former President Gerald R. Ford, brings her White House insider perspective to this sparkling debut novel, the first in a series of First Daughter mysteries.

In *Double Exposure*, Ford introduces photographer Eve Cooper, daughter of the newly elected President, as she is swept into killer politics in Washington, DC... *Double Exposure* Eve and her family have barely settled into their new surroundings after the Inauguration when chaos and scandal erupt. White House photographer Michael Cauffman is taking Eve's picture in the Rose Garden when they stumble upon a corpse in the snow. It's one of the White House ushers and in his pocket is a torn photograph of an unclad and unidentified couple in the Lincoln bedroom—clearly involved in very unofficial activities. The story (complete with photos) is on the front page of *The Washington Post*, and the press is in a feeding frenzy. With the help of Michael, Eve sets out to clear her father, the President, by discovering exactly who took those pictures, and when, and why. As Eve closes in on the truth, she opens a vast Pandora's box of new troubles, both public and private. As the body count rises, Eve must race against the clock to find a killer who will stop at nothing to compromise the President... Has charm...sure to attract [an] audience. -*Publishers Weekly* Ford's debut offers some pleasant glimpses behind the scenes at the White House. -*Kirkus Reviews*

Radar at Sea Derek Howse, 1993-02-09 This book tells in non-technical language how the British Navy contributed to the development of naval radar in World War 2. Addressed to the general reader, it tells not only the technical story in simple

terms, but also of the operational use of shipborne radar at sea - for warning, for fire control, for fighter direction, for navigation, in all theatres of war - and particularly about the people who designed and fitted the equipment, and those who used it at sea.

The Watery Maze Bernard Fergusson, 1961 During Britain's darkest hour, in 1940, extraordinary measures were necessary for survival. This bleak period of defense against the Axis led to the formation of Combined Operations, a semi-independent unit composed of admirals, generals, and air marshals. It became Britain's offensive team which, in the end, was instrumental in the successful invasions of North Africa, Sicily, and Normandy. Here is the complete story of the creation of that unit, beginning with a series of daring raids on the coasts of Norway, France, Africa, and Madagascar. These raids often resulted in great loss of life, but the lessons they taught the command led to dramatic successes. Combined Operations grew up with the war and played a part in the ultimate Allied victory in Europe and also in the Suez campaign of 1956--Taken from the book jacket flap.

100 Birds and How They Got Their Names Diana Wells, 2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only

creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into *100 Birds* and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

Last Stand on Zombie Island Christopher Eger, 2012-05-01 WELCOME TO THE END OF THE WORLD! Disease-K has decimated the world leaving its victims shambling homicidal maniacs. And nestled along the warm Gulf waters sits Gulf Shores...the last outpost of civilization. With looters and thieves preying on the shocked survivors, it's up to the retirees and bank tellers, phone repairmen and charterboat captains to put the town back together. THE SHADOWS ARE GATHERING OUTSIDE OF TOWN! There, in the sands and marshes of the Gulf of Mexico, the citizens of Gulf Shores along with scattered military units, a downed Air Force pilot, and a lone Coast Guard cutter form the last line of defense against the amassing horde of the infected marching its way toward the sea destroying what's left of humanity along the way. As summer gives way to the fall and the cold winds blow off the sea, Gulf Shores draws the line and prepares to make the... THE LAST STAND ON ZOMBIE ISLAND!
