Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Tortured Cardboard Philip E. Orbanes,2019-07-23 The term “tortured cardboard” sums up what happens to cardboard when making a board game (bound, cut, folded, punched). And, as you’ll learn, great board games often reflect whatever “tortures” culture. Each gained immortality after a chaotic beginning and a chance survival. Why? Because—be it chess, backgammon, Clue®, Monopoly®, Scrabble®, Settlers of Catan®, or one of ten others featured in this book—each is replete with “lessons” applicable to achievement in your life. As the twenty-first century gathers momentum, our love affair with board games continues to strengthen. They involve us, they refine social skills, and they teach great lessons applicable in real life. “Tortuous” is the journey of every great board game, from birth in chaotic times, through survival by mere chance, to raging popularity and eventual immortality. Tortured Cardboard reveals how the great ones came to endure and—all fun aside—how each teaches us something about our own behavior while providing “rules” that can work in your life.

The Lehman Brothers Bankruptcy Gary E. Walker,Lindel D. Clarke,2012 The bankruptcy filing of Lehman Brothers Holdings Inc (LBHI) on 15 September 2008, was one of the signal events of the financial crisis. The disorderly and costly nature of the LBHI bankruptcy - the largest, and still ongoing, financial bankruptcy in U.S. history - contributed to the massive financial disruption of late 2008. This book examines how the government could have structured a resolution of Lehman under the orderly liquidation authority of Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) and how the outcome could have differed from the outcome under bankruptcy. Key figures surrounding this important financial event also provide their analysis.
