Goetia Pathworking Corwin Hargrove,2019-05-15 Magick is easier and safer than many people believe, and pathworking is a method that takes you to the essence of power. There are many ways of working with demons. The spirits of Goetia can bring knowledge, manipulate reality, produce changes within yourself, or attract conditions and events that you desire. This is widely known. Demons are famed for their speed, dignity, and willingness to cooperate with you. What is less well known is that incredibly simple pathworking rituals enable you to make easy contact with these demons safely and reliably. Advantages of The Pathworking Method - No difficult words of power to learn or speak. - Nothing to burn, collect, or make. - No sacrifice, reward, or offering is required. - No sigils need to be drawn, and you only need to look at the sigils in this book. - No angels or divine names are used, which makes the magick feel more reliable for some people. - The method automatically creates the correct state of mind and summons elemental energy. - Pathworking can be performed in complete privacy. - The method is extremely safe and easy to learn. You ask for something, and you get it, without any backlash or payment. You will never have to learn difficult visualisation methods or train in demanding mental techniques. Based on a system of Elemental Imagery, this is a unique way to perform magick. You ask for something, and you get it, without any repercussion or payment. People say you never get something for nothing. Here, you get something because you've performed magick and filled it with your desire. That is enough to get the results you seek, from love and lust, to cursing, influence, illusion, and wealth.

The Book of Five Rings Miyamoto Musashi,2020-11-25 Limited Time Promotional Offer The Book of Five Rings In The Book of Five Rings, Miyamoto Musashi takes the reader into a world filled to the brim with devotion, self-respect, discipline, honesty and purity of thought. Written originally for warriors and samurai in a completely different time and culture, Musashi's book provides a remarkable source of inspiration for self-development today. His teachings are concise and to the point. He uses phrases like you must understand this and you must practice diligently and explains only general, but unquestionable and fundamental, concepts of the Way of the Warrior. While some of his guidelines are not directly applicable in our time and age, those about striving to achieve improvement on the inside as well as the outside couldn't be more on target. Taken literally this book is about how to become an efficient, albeit enlightened, killer. It's value comes from reading between the lines... lines which speak volumes. About Miyamoto Musashi: Miyamoto Musashi (1584-1645), was a Japanese swordsman and ronin. Musashi, as he was often simply known, became renowned through stories of his excellent swordsmanship in numerous duels, even from a very young age. The founder of a style of swordsmanship, he also wrote The Book of Five Rings, a book on strategy, tactics, and philosophy that is still studied today. Miyamoto Musashi is widely considered a Kensei and one of the greatest warriors of all time.

Greek and Roman Necromancy Daniel Ogden,2019-12-31 In classical antiquity, there was much interest in necromancy--the consultation of the dead for divination. People could seek knowledge from the dead by sleeping on tombs, visiting oracles, and attempting to reanimate corpses and skulls. Ranging over many of the lands in which Greek and Roman civilizations flourished, including Egypt, from the Greek archaic period through the late Roman empire, this book is the first comprehensive survey of the subject ever published in any language. Daniel Ogden surveys the places, performers, and techniques of necromancy as well as the reasons for turning to it. He investigates the cave-based sites of oracles of the dead at Heracleia Pontica and Tainaron, as well as the oracles at the Acheron and Avernus, which probably consisted of lakeside precincts. He argues that the Acheron oracle has been long misidentified, and considers in detail the traditions attached to each site. Readers meet the personnel--real or imagined--of ancient necromancy: ghosts, zombies, the earliest vampires, evocators, sorcerers, shamans, Persian magi, Chaldaeans, Egyptians, Roman emperors, and witches from Circe to Medea. Ogden explains the technologies used to evocate or reanimate the dead and to compel them to disgorge their secrets. He concludes by examining ancient beliefs about ghosts and their wisdom--beliefs that underpinned and justified the practice of necromancy. The first of its kind and filled with information, this volume will be of central importance to those interested in the rapidly expanding, inherently fascinating, and intellectually exciting subjects of ghosts and magic in antiquity.
