Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Visual Diary Guide - Student Workbook Hilary Senhali,2015-06-30 In 2014, the Australian Government was investing into creativity and innovation as part of a growth strategy. Critical & creative thinking ranked 4th in the

Australian Curriculum after Literacy, Numeracy and ICT, across all subjects. In the Arts, it made explicit references to how to achieve this with the use of visual journals. In a way, this represented a sea change in the way creativity was being taught. But by what means? Where would teachers get practical help to make this happen? The Visual Diary Guides provide just this kind of help. Produced by an artist-teacher, in two integrated parts they address both students and teachers while aligning with the Australian Curriculum. They begin by identifying 'inspiration' as the fuel for the creative activity. But it is hard to store inspiration for later use. And even harder to make it fun! The books argue that the 'storage' is that ordinary art journal, the Visual Diary, which in the present classroom setting is often wasted as a portfolio. Its explosive creative potential is there to be unlocked. The books set out to do that in the classroom. Contrary to common belief, a structured approach with limits and boundaries is required for creativity to truly flourish. The Visual Diary becomes a students' personal treasure-trove much like an ordinary diary. The main premise of these books is that everyone has an artist in them and a trustworthy guide is needed to locate it. The Visual Diary Guide - Student Work book is written for students in accessible language. Through more than 40 specially designed activities, students find and capture inspiration and ideas that personally resonate for them. It opens the door for students to explore the visual culture they are immersed in, making it accessible in the

art room for refinement, analysis and development as a supplement to the art room program.

Notes from the Hyena's Belly Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.
