Drawing Ideas Mark Baskinger,William Bardel,2013-11-19 A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively.In a unique board binding that mimics a sketchbook, Drawing Ideas provides a complete foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.

Adventures in Bookbinding Jeannine Stein,2011-06-01 Each project in this book combines bookbinding with a specific craft such as quilting, jewelry making, or polymer clay, and offer levels of expertise: basic, novice, and expert. Illustrated step-by-step instructions and photographs demonstrate how to construct the cover pages, and a unique binding technique, easy enough for a beginner to master. Each project also features two other versions with the same binding geared to those with more or less experience. The novice version is for those who have no knowledge of the craft and want shortcuts, but love the look. For the quilter's book, for example, vintage quilt pieces become the covers so all that's needing in the binding. Or if you're interested in wool felting use an old sweater. This offers great opportunities for upcycling. The expert version is for those who have a great deal of knowledge and proficiency of a certain craft - the master art quilter, for example. For this version, an expert guest artist has created the cover and the author has created the binding. This offers yet another creative opportunity - the collaborative project. Since crafters often get involved with round-robins and other shared endeavors, this will show them yet another way to combine their skills. No other craft book offers the possibilities and challenges that Adventures in Bookbinding does. Readers will return to it again and again to find inspiration and ideas.

Give a 'Bot a Bone Nancy Krulik,Amanda Burwasser,2018-03-06 Logan and his robot cousin Java are playing ball in the garage, a.k.a. Mom's lab, when they accidentally break her haircutting machine. They need to get a new one fast! The good news: they find one online. The bad news: it's going to cost a lot of money. So the pair tries out a series of jobs to make some quick cash—dusting the furniture (Mom didn't mean dumping the dust from the vacuum on the couch), holding a flea market (10 cents a flea!), and even starting a dog grooming/walking business (which is pretty ruff). Finally, they decide to try a bake sale, only they're out of chocolate chips, so they use bacon instead. Customers think their cookies are disgusting, but a dog accidentally gets one and scarfs it right down. Logan and Java make a lousy cookie, but a perfect dog treat! After earning the money they need, they buy the new haircutting machine and slip it into Mom's workshop so she'll never know. Or will she? International bestselling author Nancy Krulik and her incredibly talented daughter, Amanda Burwasser, spin hilarious high jinks in the fifth book in the Project Droid series, which combines the literalness of Amelia Bedelia with a wacky modern edge, making for hours of laughter. And the fun continues with an activity in the back!

The beautiful illustrations and captivating storytelling will introduce you and your children to new heavenly friends while also helping you fall more in love with Jesus. Each story in this book is written not only to capture the imagination but also to speak about God's tremendous love and our call to be saints. There are stories in Saints Around the World for when you feel like life isn't fair, when people are being unkind to you, when you've made a terrible mistake, when you're struggling at school, when prayer is hard. And there are stories of shouting down Nazis, of fleeing a murderous villain, of making scientific discoveries, of smoking a cigar while enemy soldiers amputate your leg. There are scared Saints, brilliant Saints, weak Saints, adventurous Saints, abused Saints, overjoyed Saints, disabled Saints—and the point of every one of them is the love of God. Whether you're checking the map to find Saints who look like you or perusing the extensive indices to find Saints with your skills or struggles, you'll find countless stories in this book that remind you how very possible holiness is.
