Make This Egyptian Mummy Iain Ashman,2002-10 You only need a tube of glue and a pair of scissors to turn this book into a fascinating model of a three thousand year old Egyptian mummy. This one is based on the tomb of an important Theban priestess from the New Kingdom.

Experiments with Body Agent Architecture Alessandro Ayuso,2022-03-31 Experiments with Body Agent Architecture puts forward the notion of body agents: non-ideal, animate and highly specific figures integrated with design to enact particular notions of embodied subjectivity in architecture. Body agents present opportunities for architects to increase imaginative and empathic qualities in their designs, particularly amidst a posthuman condition. Beginning with narrative writing from the viewpoint of a body agent, an estranged ‘quattrocento spiritello’ who finds himself uncomfortably inhabiting a digital milieu (or, as the spiritello calls it, ‘Il Regno Digitale’), the book combines speculative historical fiction and original design experiments. It focuses on the process of creating the multi-media design experiments, moving from the design of the body itself as an original prosthetic to architectural proposals emanating from the body. A fragmented history of the figure in architecture is charted and woven into the designs, with chapters examining Michelangelo’s enigmatic figures in his drawings for the New Sacristy in the early sixteenth century, Gian Lorenzo Bernini’s physically ephemeral ‘putti’ adorning chapels and churches in the seventeenth century, and Austrian artist-architect Walter Pichler’s personal and prescient figures of the twentieth century.

Mummies and Tombs Houghton Mifflin Company,1992-04 Text and photographs examine the mummies and tombs of ancient Egypt.

The Curse of the Mummy: Uncovering Tutankhamun's Tomb (Scholastic Focus) Candace Fleming,2021-09-07 Award-winning and critically acclaimed author Candace Fleming presents the edge-of-your-seat true story of the search for Tutankhamun's tomb, the Western public's belief that the dig was cursed, and the battle for ownership of the treasures within. Scholastic Focus is the premier home of thoroughly researched, beautifully written, and thoughtfully designed works of narrative nonfiction aimed at middle-grade and young adult readers. These books help readers learn about the world in which they live and develop their critical thinking skills so that they may become dynamic citizens who are able to analyze and understand our past, participate in essential discussions about our present, and work to grow and build our future. During the reign of the New Kingdom of Egypt, the boy pharaoh Tutankhamun ruled and died tragically young. In order to send him on his way into the afterlife, his tomb was filled with every treasure he would need after death. And then, it was lost to time, buried in the sands of the Valley of the Kings. His tomb was also said to be cursed. Centuries later, as Egypt-mania gripped Europe, two Brits -- a rich earl with a habit for gambling and a disreputable, determined archeologist -- worked for years to rediscover and open Tutankhamun's tomb. But once it was uncovered, would ancient powers take their revenge for disturbing and even looting the pharaoh's resting place? What else could explain the mysterious illnesses, accidents, and deaths that began once it was found?

The Arts of Making in Ancient Egypt Gianluca Miniaci,Juan Carlos Moreno Garcia,Stephen Quirke,Andréas Stauder,2018 This book provides an innovative analysis of the conditions of ancient Egyptian craftsmanship in the light of the archaeology of production, linguistic analysis, visual representation and ethnographic research. During the past decades, the imaginative figure of ancient Egyptian material producers has moved from workers to artisans and, most recently, to artists. In a search for a fuller understanding of the pragmatics of material production in past societies, and moving away from a series of modern preconceptions, this volume aims to analyse the mechanisms of material production in Egypt during the Middle Bronze Age (2000-1550 BC), to approach the profile of ancient Egyptian craftsmen through their own words, images and artefacts, and to trace possible modes of circulation of ideas among craftsmen in material production. The studies in the volume address the mechanisms of ancient production in Middle Bronze Age Egypt, the circulation of ideas among craftsmen, and the profiles of the people involved, based on the material traces, including depictions and writings, the ancient craftsmen themselves left and produced.

Egyptian Gods & Goddesses Britannica Educational Publishing,2014-01-01 Gods and goddesses—in human, animal, and other forms—were central to the ancient Egyptian way of life. The figures documented in ancient hieroglyphics are given dimension in this absorbing volume, which examines the characteristics and significance of many of the Egyptian gods and goddesses and also looks at related topics such as ancient symbols and the influence of Egyptian mythology on other cultures and belief systems.

Tutankhamun's Funeral Herbert E. Winlock, Metropolitan Museum of Art (New York, N.Y.),2010 In 1907, more than a decade before the discovery of Tutankhamun's tomb, archaeologists unearthed remains from the mummification and funeral of the pharaoh, who ruled ancient Egypt in the 14th century B.C. Now in the collection of The Metropolitan Museum of Art, these materials provide physical evidence of burial rites of the now-legendary king, who is making headlines once again after new scientific investigations to determine the cause of his early death. Tutankhamun's Funeral includes a classic text written in 1941 by Herbert E. Winlock, one of the early 20th century's leading Egyptologists, featuring in-depth analysis of the objects and their significance. In addition, an introduction and appendix by Dorothea Arnold update the findings with recent scholarship. The book is illustrated throughout with new color photography as well as many historical images and drawings.

Ruling Culture Fiona Greenland,2021-03-15 A major, on-the-ground look at antiquities looting in Italy. More looting of ancient art takes place in Italy than in any other country. Ironically, Italy trades on the fact to demonstrate its cultural superiority over other countries. And, more than any other country, Italy takes pains to prevent looting by instituting laws, cultural policies, export taxes, and a famously effective art-crime squad that has been the inspiration of novels, movies, and tv shows. In fact, Italy is widely regarded as having invented the discipline of art policing. In 2006 the then-president of Italy declared his country to be the world's greatest cultural power. Why do Italians believe this? Why is the patria, or homeland, so frequently invoked in modern disputes about ancient art, particularly when it comes to matters of repatriation, export, and museum loans? Fiona Greenland's *Ruling Culture* addresses these questions by tracing the emergence of antiquities as a key source of power in Italy from 1815 to the present. Along the way, it investigates the activities and interactions of three main sets of actors: state officials (including Art Squad agents), archaeologists, and illicit excavators and collectors--
