📖 [Achtung-Panzer!](#) Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

📖 [Signs Taken for Wonders](#) Franco Moretti,2020-05-05 Shakespearean tragedy and Dracula, Sherlock Holmes and Ulysses, Frankenstein and The Waste Land-all are celebrated wonders of modern literature, whether in its Mandarin or popular form. However, it is the fact that these texts are so central to our contemporary notion of literature that sometimes hinders our ability to understand them. Franco Moretti applies himself to this problem by drawing skillfully on structuralist, sociological and psycho-analytic modes of enquiry in order to read these texts as literary systems which are tokens of wider cultural and political realities. In the process, Moretti offers us compelling accounts of various literary genres, explores the relationships between high and mass culture in this century, and considers the relevance of tragic, Romantic and Darwinian views of the world.

📖 [The Nature of Technology](#) W. Brian Arthur,2010 The Nature of Technology will change the way you think about this fundamental subject forever. W. Brian Arthur's many years of thinking and writing about technology have culminated in a unique understanding of his subject. Here he examines the nature of technology itself: what is it and how does it evolve? Giving rare insights into the evolution of specific technologies and a new framework for thinking about others, every sentence points to some further truth and fascination. At a time when we are ever more reliant on technological solutions for the world's problems, it is extraordinary how little we actually understand the processes that lead to innovation and invention. 📖 [The Antics of Mrs Paws](#) Christine Gregory,2018-10-30 Mrs Paws is the creation of Christine Gregory, and through a short series of stories, her antics and adventures with her and her friends come to light. On the door of a small room within the cottage of Mr and Mrs Gregory is a quaint little sign that reads 'Enchanted Teddy and Dolly Sanctuary', so called because there's something quite magical behind this door. It came as such a shock to Mrs Gregory when she realised that her cuddlesome bear, along with some of her friends, actually came to life. So read on and find out just what they get up to in this cosy little cottage, the mystical wood and, of course, the fairy garden, but be sure not to tell anyone, this is your very own secret.
