Mind-Blowing Modular Origami Byriah Loper,2016-10-11 Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper polyhedra to bristling buckyballs that are reminiscent of sea urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex geometric paper constructions ever assembled. While many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear wire frame approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a featured artist at the Surface to Structure exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you create look fantastic on your desk or shelf!

After one hundred years of being a vampire, it’s time for Eleonora to have her Birthnight. Since Leo’s last rite of passage, her Grimwalk, ended with her losing her right leg and a good deal of her confidence, she’s hoping to redeem herself in the eyes of her mother, the fearsome Lady Sieglinde. All Leo has to do is hunt down and kill her first prey, and she already has the perfect plan. After all, who will miss an orphan from the bleak St. Frieda’s Home for Unfortunate Children? But an accidental fire causes more death and destruction than Leo bargained for. Instead of killing one carefully selected victim, she’s created several ghosts from the orphanage residents. And one sinister specter, the Orphanmaster, is poised to terrorize the living residents in a nearby town. To stop him and try to undo some of the mess she’s made, Leo must team up with the orphan ghost Minna. Will Leo have the chance to prove herself as a vampire before her Birthnight is over, or will she discover that there are no winners in the battle of undead versus undead?
