The Battleship Scharnhorst Stefan Draminski,2021-01-19 A highly detailed study of the World War II German battleship that sparred with the British Royal Navy from 1939–43. The Kriegsmarine's Scharnhorst was a German capital ship, described either as a battleship or battlecruiser, and the lead ship of her class, which included one other ship, Gneisenau. She was launched on 3 October 1936 and completed in January 1939, armed with nine 28cm C/34 guns in three triple turrets. She operated with Gneisenau for much of the early portion of World War II, including sorties into the Atlantic to raid British merchant shipping. They took part in Operation Weserübung (April–June 1940), the German invasion of Norway during which they sank the aircraft carrier HMS Glorious and her escort destroyers Acasta and Ardent. Scharnhorst also sank HMS Rawalpindi in November 1939. In early 1943, Scharnhorst joined the Tirpitz in Norway to intercept Allied convoys to the Soviet Union. On a sortie from Norway to attack a convoy, the German force was intercepted by British ships and during the Battle of the North Cape (26 December 1943), HMS Duke of York and her escorts sank Scharnhorst and most of her crew was lost. This is the most comprehensive examination of Scharnhorst ever published, drawing on new research and technology to tell the full story of the ship. It includes a complete set of detailed line drawings with fully descriptive keys and full-color artwork, supported by technical details, photographs, and text on the building of the ship, as well as a record of her service history.

The Battleship Bismarck Stefan Draminski,2018-09-20 The Bismarck is perhaps the most famous – and notorious – warship ever built. Completed in 1941, the 45,000-ton German battleship sank HMS Hood, the pride of the British Navy, during one of the most sensational encounters in naval history. Following the sinking, Bismarck was chased around the North Atlantic by many units of the Royal Navy. She was finally dispatched with gunfire and torpedoes on 27 May, less than five months after her completion. Her wreck still lies where she sank, 4,800m down and 960km off the west coast of France. Drawing on new research and technology, this edition is the most comprehensive examination of Bismarck ever published. It includes a complete set of detailed line drawings with fully descriptive keys and full-colour 3D artwork, supported by technical details, photographs and text on the building of the ship and a record of the ship's service history.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution

of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
