The Sun King at Sea Meredith Martin,Gillian Weiss,2022-01-04 This richly illustrated volume, the first devoted to maritime art and galley slavery in early modern France, shows how royal propagandists used the image and labor of enslaved Muslims to glorify Louis XIV. Mediterranean maritime art and the forced labor on which it depended were fundamental to the politics and propaganda of France's King Louis XIV (r. 1643–1715). Yet most studies of French art in this period focus on Paris and Versailles, overlooking the presence or portrayal of galley slaves on the kingdom's coasts. By examining a wide range of artistic productions—ship design, artillery sculpture, medals, paintings, and prints—Meredith Martin and Gillian Weiss uncover a vital aspect of royal representation and unsettle a standard picture of art and power in early modern France. With an abundant selection of startling images, many never before published, *The Sun King at Sea* emphasizes the role of esclaves turcs (enslaved Turks)—rowers who were captured or purchased from Islamic lands—in building and decorating ships and other art objects that circulated on land and by sea to glorify the Crown. Challenging the notion that human bondage vanished from continental France, this cross-disciplinary volume invites a reassessment of servitude as a visible condition, mode of representation, and symbol of sovereignty during Louis XIV's reign.

Seeing Like a State James C. Scott,2020-03-17 “One of the most profound and illuminating studies of this century to have been published in recent decades.”—John Gray, New York Times Book Review Hailed as “a

magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University

Rocket Men Robert Kurson, 2018-04-03 NEW YORK TIMES BESTSELLER • The riveting inside story of three heroic astronauts who took on the challenge of mankind’s historic first mission to the Moon, from the bestselling author of *Shadow Divers*. “Robert Kurson tells the tale of Apollo 8 with novelistic detail and immediacy.”—Andy Weir, #1 New York Times bestselling author of *The Martian* and *Artemis* By August 1968, the American space program was in danger of failing in its two most important objectives: to land a man on the Moon by President Kennedy’s end-of-decade deadline, and to triumph over the Soviets in space. With its back against the wall, NASA made an almost unimaginable leap: It would scrap its usual methodical approach and risk everything on a sudden launch, sending the first men in history to the Moon—in just four months. And it would all happen at Christmas. In a year of historic violence and discord—the Tet Offensive, the assassinations of Martin Luther King, Jr., and Robert Kennedy, the riots at the Democratic National Convention in Chicago—the Apollo 8 mission would be the boldest, riskiest test of America’s greatness under pressure. In this gripping insider account, Robert Kurson puts the focus on the three astronauts and their families: the commander, Frank Borman, a conflicted man on his final mission; idealistic Jim Lovell, who’d dreamed since boyhood of riding a rocket to the Moon; and Bill Anders, a young nuclear engineer and hotshot fighter pilot making his first space flight. Drawn from hundreds of hours of one-on-one interviews with the astronauts, their loved ones, NASA personnel, and myriad experts, and filled with vivid and unforgettable detail, *Rocket Men* is the definitive account of one of America’s finest hours. In this real-life thriller, Kurson reveals the epic dangers involved, and the singular bravery it took, for mankind to leave Earth for the first time—and arrive at a new world. “*Rocket Men* is a riveting introduction to the [Apollo 8] flight. . . . Kurson details the mission in crisp, suspenseful scenes. . . . [A] gripping book.”—The New York Times Book Review
