The Other End of the Leash Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Uggie--My Story Uggie,2015-11-14 A heartwarming memoir by the Jack Russell Terrier that starred in *The Artist* and *Water for Elephants*. Uggie’s

memoir offers readers the true rags-to-riches tale of one ordinary Jack Russell Terrier who made it big in Hollywood. For the first time, Uggie tells his story of rising from humble beginnings as an abandoned shelter dog to being adopted by esteemed trainer Omar Von Muller. Uggie details his time starring in commercials for everything from Kia cars to Bud Light. Uggie eventually broke into the film world with his appearance in Mr. Fixit in 2006. He went on to appear in Wassup Rockers and Life is Ruff. Uggie got his first serious film role in 2011's Water for Elephants where he starred alongside Reese Witherspoon and Robert Pattinson. It was not, however, until 2012's The Artist that Uggie really dazzled audiences with his talents. In his memoir, Uggie will talk about life on the set of the Oscar-winning film and the role that many said should have earned him an Oscar. Uggie's memoir doesn't just hit on his career highlights, it also takes a candid look at his private demons: overcoming a painful past as a cat-murderer and finding redemption; living with shaking syndrome; his regret at never siring any pups before being neutered. Uggie's memoir will include not just biographical information, but also advice from the dog himself. As is seen in his dazzling performance in The Artist, Uggie is an incredibly talented performer. He honed his craft while touring South America each year as part of The Incredible Dog Show, and in his memoir, he will spend several chapters sharing practical training and dieting tips that he has developed over the years.

Handbook of Veterinary Neurology – E-Book Michael D. Lorenz, Joan Coates, Marc Kent, 2010-12-14 Handbook of Veterinary Neurology provides quick access to vital information on neurologic conditions in a wide range of species, including canine, feline, bovine, caprine, equine, ovine, and porcine. A problem-oriented approach makes it easy to diagnose and treat neurologic problems in small and large animals. The coverage of disorders by problem, not by established disease diagnosis, emulates how animals present to the veterinary hospital and simplifies the formulation of a correct diagnosis. Within each chapter, discussions of neurologic disease include a review of the localization criteria and the diseases that can cause that problem, plus treatment and surgical techniques. Lead author Michael D. Lorenz brings decades of experience to neurologic assessment, using a diagnostic approach that requires minimal knowledge of neuroanatomy. A problem-based approach is organized by presenting sign rather than by condition, guiding you to logical conclusions regarding diagnosis and treatment. Algorithms diagram the logic necessary to localize lesions and to formulate diagnostic plans. Coverage of current diagnostic techniques includes the use of diagnostic tools, such as radiology, spinal fluid analysis, electrodiagnosis, and MR imaging. Case histories in each chapter present a problem and the results of the neurologic examination, then ask you to solve the problem by localizing the lesion, listing probable causes, and making a diagnostic plan. Answers are provided at the back of the book. A consistent format for each case history includes signalment, history, physical examination findings, and neurologic examination. A comprehensive appendix describes species and breeds that have a congenital predisposition for particular neurologic diseases. Extensive references make it easy to pursue in-depth research of more advanced topics. A companion website includes 20 narrated video clips with accompanying PowerPoint slides that correlate to the case histories in the book, covering neurologic assessment and clinical problems such as paresis of one limb, tetraparesis, stupor, seizures, ataxia of the head and limbs, and cranial nerve disorders. Two new co-authors, Jean Coates and Marc Kent, board-certified in neurology, enhance the credibility of this edition. A full-color design and numerous illustrations include enhanced images of neuroanatomy and pathology.

Nathan is confident, fearless, impetuous—and fascinated by kites and flying. Robert and Nathan’s budding friendship is forged in the crucible of two family tragedies, and as the boys struggle to come to terms with loss, they take summer jobs at the local rundown amusement park.
