Music Scenes Andy Bennett, Richard A. Peterson, 2004 While more than 80 percent of the world's commercial music is controlled by four multinational firms, most music is made and enjoyed in diverse situations divorced from such corporate behemoths. These fourteen original essays examine the fascinating world of music scenes, those largely inconspicuous sites where clusters of musicians, producers, and fans explore their common musical tastes and distinctive lifestyle choices. Although most music scenes come and go with hardly a trace, they nevertheless give immense satisfaction to their participants, and a few - New York bop jazz, Merseybeat, Memphis rockabilly, London punk, Bronx hip-hop - achieve fame and spur musical innovations. To date, serious study of the scenes phenomenon has focused mainly on specific music scenes while paying less attention to recurrent dynamics of scene life, such as how individuals construct and negotiate scenes to the various activities. This volume remedies that neglect. The editors distinguish between three types of scenes - local, translocal, and virtual - which provide the organizing framework for the essays. Aspects of local scenes, which are confined to specific areas, are explored through essays on Chicago blues, rave, karaoke, teen pop, and salsa. The section on translocal scenes, which involve the coming together of scattered local scenes around a particular type of music and lifestyle, includes articles on Riot Grrrls, goths, art music, and anarcho-punk. Aspects of virtual scenes, in which fans communicate via the internet, are illustrated using alternative country, the Canterbury sound, postrock, and Kate Bush fans. Also included is an essay that shows how the social conditions in places where jazz was made influenced that music's development.

Savage Gods Paul Kingsnorth, 2019-09-17 * Chicago Tribune Fall literary preview: books you need to read now * Vulture The Best and Biggest Books to Read This Fall * The Guardian A best book of 2019 After moving with his wife and two children to a smallholding in Ireland, Paul Kingsnorth expects to find contentment. It is the goal he has sought — to nest, to find home — after years of rootlessness as an environmental activist and author. Instead he finds that his tools as a writer are failing him, calling into question his foundational beliefs about language and setting him at odds with culture itself. Informed by his experiences with indigenous peoples, the writings of D.H. Lawrence and Annie Dillard, and the day-to-day travails of farming his own land, *Savage Gods* asks: what does it mean to belong? What sacrifices must be made in order to truly inhabit a life? And can words ever paint the truth of the world — or are they part of the great lie which is killing it?

Look Inside Juan Velasco, Samuel Velasco, 2016-09-27 The cutaway illustrations in this book allow our eyes to see what usually remains hidden. They open up houses, bodies, and objects, and allow the individual parts to comprehensively explain the whole. Looking at the outside of things such as architecture, anatomy, or vehicles does not usually reveal much about their internal structures and functions. To learn more, we need to see inside them. *Look Inside* features infographics that cut up or take apart their subjects and make them transparent. The resulting cross sections and interior views present precise detail in multiple layers. *Look Inside* starts with a discussion of Arnhem Land, the earliest known cutaway illustrations, showing that even 28,000 years ago, humans had a fascination with how things internally work: the processes that are hidden from the human

eye. Including work from both centuries past and the cutting-edge present, Look Inside is an unparalleled compendium of cutaway techniques and their wide-ranging applications. Works from Jewish-German physician Fritz Kahn's imagine the human body as a mechanized factory; Kahn's visual metaphors show conveyor belts and offices instead of veins and valves. Exploded images of classic sports cars allows Fabian Oefner to show every piece of the automotive puzzle from the body shell to individual tiny screws. Richard Orr's scientific pieces represent the natural world and continue in the genre's traditional thread of handmade illustrations; whether a beaver lodge or an arctic circle landscape, Orr presents a vivid natural world or layers and scientific hierarchies. The luxurious collection within Look Inside was curated by renowned information designers and creative directors, Samuel and Juan Velasco. The Velasco brothers have provided invaluable and inspirational insight in the history and theory of cutaway illustrations and visual storytelling.
