Major Taylor Conrad Kerber,Terry Kerber,2014-05-06 In the wake of the Tour de France's fallen heroes, the story of one of history's most legendary cyclists provides a much-needed antidote. In 1907 the world's most popular athlete was not Cy Young or Ty Cobb. Rather, he was a black bicycle racer named "Major" Taylor. In his day, Taylor became a spiritual and athletic idol. He was the fastest man in America and a champion who prevailed over unspeakable cruelty. The men who aided him were among the most colorful to emerge from the era. When hotel and restaurant operators denied Taylor food and lodgings, forcing him to sleep in horse stables and to race hungry, there was a benevolent racer-turned-trainer named Birdie Munger, who took Taylor under his wing and into his home. Then along came Arthur Zimmerman, an internationally famous bike racer, who gently mentored Taylor when some riders drew the color line and refused to race against him. Taylor's

manager, pugnacious Irishman and famed Broadway producer William Brady, stood up for him when track owners tried barring him from competition. From the Old World came a rakishly handsome, mustachioed sports promoter named Victor Breyer, who lured Taylor overseas for a dramatic, Seabiscuit versus War Admiral-like match race that would be widely remembered a quarter century later. With a foreword by World Champion and three-time Tour de France winner Greg LeMond, this spellbinding saga of fortitude, grace, forgiveness, and a man's unyielding will to win against the greatest of odds is sure to become a classic that will be enjoyed by everyone. American Military Vehicles of World War I Albert Mroz, 2009-10-21 In World War I the American motor vehicle industry was tested by the sudden appearance of vast transport challenges. The nation's immense manufacturing capabilities and abundant natural resources combined with increased standardization and mass production to enable the industry to meet the military's needs. Motor vehicles and aircraft were quickly cemented as the most influential military tools of the early twentieth century. This book both describes the development and use of a wide range of specialized motor vehicles during World War I and analyzes how their advent indelibly altered modern warfare and transportation.

Again Calls the Owl Margaret Craven, 1983-12-01 "A rich memoir . . . a woman of sensitivity, forthrightness, warmth, and talent."—Booklist To become a writer, she chose loneliness. To write a bestseller, she embraced a rugged land. Deceptively simple in style, stunning in its implications, this gem of an autobiography carries readers back to the beginning of the century when Margaret Craven—one a handful of women at Stanford and a groundbreaking woman journalist—made the audacious decision not to work for a living, but to work as a writer. Here Margaret Craven brings vividly to life an idyllic childhood which suddenly vanishes; advice from a red-robed Gertrude Stein propped up in bed; a nearly tragic battle with blindness; and a fateful trip to a magnificently wild Pacific Northwest, a town called Kingcome . . . and her emergence, at sixty-nine, as a woman who realized a dream. Praise for *Again Calls the Owl* "A writer of compassion, humor, spirit, and persistence."—St. Louis Post-Dispatch "Readers will find in this small memoir courage, joy, inspiration."—Library Journal "An unabashed joy for living."—Santa Barbara News-Press

America's Most Alarming Writer Bill Broyles, Bruce J. Dinges, 2019-11-15 The author of more than twenty books and a revered contributor to numerous national publications, Charles Bowden (1945–2014) used his keen storyteller's eye to reveal both the dark underbelly and the glorious determination of humanity, particularly in the borderlands between the United States and Mexico. In *America's Most Alarming Writer*, key figures in his life—including his editors, collaborators, and other writers—deliver a literary wake for the man who inspired them throughout his forty-year career. Part revelation, part critical assessment, the fifty essays in this collection span the decades from Bowden's rise as an investigative journalist through his years as a singular voice of unflinching honesty about natural history, climate change, globalization, drugs, and violence. As the *Chicago Tribune* noted, "Bowden wrote with the intensity of Joan Didion, the voracious hunger of Henry Miller, the feral intelligence and irony of Hunter Thompson, and the wit and outrage of Edward Abbey." An evocative complement to *The Charles Bowden Reader*, the essays and photographs in this homage brilliantly capture the spirit of a great writer with a quintessentially American vision. Bowden is the best writer you've (n)ever read.

Classic Speedsters Ronald Sieber, 2021-11 *Classic Speedsters: The Cars, The Times, and The Characters Who Drove Them* chronicles the most significant vehicles ever to have traveled American roads and racetracks. Speedsters were the pizzazz cars of their era. Speedsters were owned by entertainers, captains of industry, the wealthy, and in some cases, the everyday guy or gal. They were often expensive, but always fast and sexy. Speedsters were America's first sports cars. Each chapter frames the birth and evolution of a company that produced a speedster model in its lineup and includes a biography of a famous owner of the period. This book traces the journey of the speedster concept across several time periods and among twelve automotive companies. It answers three fundamental questions:· Why were these cars so important and influential?· Why did so many prominent people own them?· What message do they have for modern design?
