New Expressions in Origami Art Meher McArthur, 2017-03-07 This origami art book features the work of 25 contemporary master folders who are among the most innovative origami artists working today. They are pushing the boundaries of origami vigorously in new directions in terms of style, scale, materials, subject and scope. This elite group includes: Joel Cooper Erik Demaine and Martin Demaine Paul Jackson Beth Johnson Michael G. LaFosse and Richard L. Alexander Robert J. Lang Linda Mihara Bernie Peyton Richard Sweeney And many more... The stunning photos and brilliant essays in this book demonstrate why origami is now an international art movement—largely through the efforts and artistic genius of a few contemporary masters. The trailblazing efforts of Japanese artist Akira Yoshizawa elevated the paper folding to an art form by showing how subtle shapes and figures could be created from a single sheet of paper through a variety of non-traditional folding techniques. Artists in other parts of the world—including the United States, France, England, China and Scandinavia—took Yoshizawa's cue and pushed these techniques further and further. The result has been the emergence of many new and surprising sculptural forms created through techniques such as wet folding, curved creasing, tessellating and the application of alternative materials besides paper.

If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of Star Wars: Return of the Jedi: Beware the Power of the Dark Side, and hailed by School Library Journal as "honest, funny, and immensely entertaining."
