Colonies in Space T. A. Heppenheimer,2017-09-15 Is there life in space? Within the solar system, which we can reach and are now beginning to explore, the answer may be: Nothing but spores and bacteria. Perhaps the answer is: Nothing. Beyond our region of space the answer may yet be: Civilizations and cultures of greatness and magnificence untold. But we have not yet learned to detect them or to communicate with them. As this has become apparent there has been a reaction against many of the more utopian hopes associated with space flight. Less than fifteen years ago John Kennedy could commit the nation to explore this new ocean, with widespread hope that we were entering a new Age of Discovery. Today it is fashionable to believe that our problems can find solution only on earth and there is nothing in space which can aid us in any way. This is not so. If we cannot find planets fit for us to live on, or if Mars is not up to our fondest hopes - very well. We can take our own life into space. We can build colonies in space, as pleasant as we want and productive enough to markedly improve humanity's future prospects. And, we can begin to do this anytime we please.

Slough House Mick Herron,2021-02-09 In his best and most ambitious novel yet, Mick Herron, “the le Carré of the future” (BBC), offers an unsparing look at the corrupt web of media, global finance, spycraft, and politics that power our modern world. “This is a darker, scarier Herron. The gags are still there but the satire's more biting. The privatization of a secret service op and the manipulation of news is relevant and horribly credible.”—Ann Cleeves, author of the Vera Stanhope series At Slough House—MI5’s London depository for demoted spies—Brexit has taken a toll. The “slow horses” have been pushed further into the cold, Slough House has been erased from official records, and its members are dying in unusual circumstances, at an unusual clip. No wonder Jackson Lamb's crew is feeling paranoid. But are they actually targets? With a new populist movement taking hold of London's streets and the old order ensuring that everything's for sale to the highest bidder, the world's a dangerous place for those deemed surplus. Jackson Lamb and the slow horses are in a fight for their lives as they navigate dizzying layers of lies, power, and death.

Star Wars Visions: Ronin Emma Mieko Candon,2022-07-12 NATIONAL BESTSELLER • A mysterious former Sith wanders the galaxy in this stunning Star Wars tale, an original novel inspired by the world of The Duel from the Star Wars Visions animated anthology. The Jedi are the most loyal servants of the Empire. Two decades ago, Jedi clans clashed in service to feuding lords. Sickened by this endless cycle, a sect of Jedi rebelled, seeking to control their own destiny and claim power in service of no master. They called themselves Sith. The Sith rebellion failed, succumbing to infighting and betrayal, and the once rival lords unified to create an Empire . . . but even an Empire at peace is not free from violence. Far on the edge of the Outer Rim, one former Sith wanders, accompanied only by a faithful droid and the ghost of a less civilized age. He carries a lightsaber, but claims lineage to no Jedi clan, and pledges allegiance to no lord. Little is known about him, including his name, for he never speaks of his past, nor his regrets. His history is as guarded as the red blade of destruction he carries sheathed at his side. As the galaxy's perpetual cycle of violence continues to interrupt his self-imposed exile, and he is forced to duel an enigmatic bandit claiming the title of Sith, it becomes clear that no amount of wandering will ever let him outpace the specters of his former life.

Birds of America Lorrie Moore, 2012-03-07 NATIONAL BESTSELLER • A NEW YORK TIMES BOOK OF THE YEAR • From the bestselling author of *A Gate at the Stairs*: A collection of twelve stories that's "one of our funniest, most telling anatomies of human love and vulnerability (The New York Times Book Review). A volume by one of the most exciting writers at work today, the acclaimed author of *Who Will Run the Frog Hospital?* and *Self-Help*. Stories remarkable in their range, emotional force, and dark laughter, and in the sheer beauty and power of their language. From the opening story, *Willing*—about a second-rate movie actress in her thirties who has moved back to Chicago, where she makes a seedy motel room her home and becomes involved with a mechanic who has not the least idea of who she is as a human being—*Birds of America* unfolds a startlingly brilliant series of portraits of the unhinged, the lost, the unsettled of our America. In the story *Which Is More Than I Can Say About Some People* (There is nothing as complex in the world—no flower or stone—as a single hello from a human being), a woman newly separated from her husband is on a long-planned trip through Ireland with her mother. When they set out on an expedition to kiss the Blarney Stone, the image of wisdom and success that her mother has always put forth slips away to reveal the panicky woman she really is. In *Charades*, a family game at Christmas is transformed into a hilarious and insightful (and fundamentally upsetting) revelation of crumbling family ties. In *Community Life*, a shy, almost reclusive, librarian, Transylvania-born and Vermont-bred, moves in with her boyfriend, the local anarchist in a small university town, and all hell breaks loose. And in *Four Calling Birds*, *Three French Hens*, a woman who goes through the stages of grief as she mourns the death of her cat (Anger, Denial, Bargaining, Häagen Dazs, Rage) is seen by her friends as really mourning other issues: the impending death of her parents, the son she never had, Bosnia.

Flying Blind Peter Robison, 2022-10-11 NEW YORK TIMES BUSINESS BEST SELLER • A suspenseful behind-the-scenes look at the dysfunction that contributed to one of the worst tragedies in modern aviation: the 2018 and 2019 crashes of the Boeing 737 MAX. An authoritative, gripping and finely detailed narrative that charts the decline of one of the great American companies (New York Times Book Review), from the award-winning reporter for Bloomberg. Boeing is a century-old titan of industry. It played a major role in the early days of commercial flight, World War II bombing missions, and moon landings. The planemaker remains a cornerstone of the U.S. economy, as well as a linchpin in the awesome routine of modern air travel. But in 2018 and 2019, two crashes of the Boeing 737 MAX 8 killed 346 people. The crashes exposed a shocking pattern of malfeasance, leading to the biggest crisis in the company's history—and one of the costliest corporate scandals ever. How did things go so horribly wrong at Boeing? *Flying Blind* is the definitive exposé of the disasters that transfixed the world. Drawing from exclusive interviews with current and former employees of Boeing and the FAA; industry executives and analysts; and family members of the victims, it reveals how a broken corporate culture

paved the way for catastrophe. It shows how in the race to beat the competition and reward top executives, Boeing skimped on testing, pressured employees to meet unrealistic deadlines, and convinced regulators to put planes into service without properly equipping them or their pilots for flight. It examines how the company, once a treasured American innovator, became obsessed with the bottom line, putting shareholders over customers, employees, and communities. By Bloomberg investigative journalist Peter Robison, who covered Boeing as a beat reporter during the company's fateful merger with McDonnell Douglas in the late '90s, this is the story of a business gone wildly off course. At once riveting and disturbing, it shows how an iconic company fell prey to a win-at-all-costs mentality, threatening an industry and endangering countless lives.

The Dawn of Carrier Strike David Hobbs, 2019-07-30 A biography of a British pilot set against the backdrop of the Royal Navy's fight to regain control of its aviation after the First World War. The establishment of the RAF came at a cost—and it was the Royal Navy that paid the price. In 1918 it had been pre-eminent in the technology and tactics of employing aircraft at sea, but once it lost control of its own air power, it struggled to make the RAF prioritize naval interests, in the process losing ground to the rival naval air forces of Japan and the United States. This book documents that struggle through the cash-strapped 1920s and '30s, culminating in the Navy regaining control of its aviation in 1937, but too late to properly prepare for the impending war. However, despite the lack of resources, British naval flying had made progress, especially in the advancement of carrier strike doctrine. These developments are neatly illustrated by the experiences of Lieutenant William Lucy, who was to become Britain's first accredited air 'ace' of the war and to lead the world's first successful dive-bombing of a major warship. Making extensive use of the family archive, this book also reproduces many previously unseen photographs from Lucy's album, showing many aspects of life in the Fleet Air Arm up to the end of the Norway campaign. The inter-war concentration on carrier strike would be spectacularly vindicated during World War II—and it was the Royal Navy that had led the way.

The Boys in the Boat (Young Readers Adaptation) Daniel James Brown, 2016-08-02 Soon to be a major motion picture directed by George Clooney The New York Times bestselling young readers adaptation of *The Boys in the Boat*, now in paperback with bonus content including an author Q&A and never-before-seen photographs Inspiration for the PBS American Experience Documentary 'The Boys of '36' For readers of *Unbroken*, out of the depths of the Great Depression comes the astonishing tale of nine working-class boys from the American West who at the 1936 Olympics showed the world what true grit really meant. With rowers who were the sons of loggers, shipyard workers, and farmers, the University of Washington's eight-oar crew was never expected to defeat the elite East Coast teams, yet they did, going on to shock the world by challenging the German boat rowing for Adolf Hitler. At the center of the tale is Joe Rantz, a teenager without family or prospects, whose personal quest captures the spirit of his generation—the generation that would prove in the coming years that the Nazis could not prevail over American determination and optimism. This deeply emotional yet easily accessible young readers adaptation of the award-winning #1 New York Times bestseller features never-before-seen photographs, highly visual back matter, and an exclusive new introduction. Cover may vary.
