Paper Crowns Mirriam Neal,2016-04-14 Ginger has lived in seclusion, with only her aunt Margarel and her blue cat, Halcyon, to keep her company. Her sheltered, idyllic life is turned upside-down when her home is attacked by messengers from the world of fae. Accompanied by Halcyon (who may or may not be more than just a cat), an irascible wysling named Azrael, and a loyal fire elemental named Salazar, Ginger ventures into the world of fae to bring a ruthless Queen to justice.

Selp-Helf Miranda Sings,2019-06-11 #1 New York Times Bestseller In this decidedly unhelpful, candid, hilarious “how-to” guide, YouTube personality Miranda Sings offers life lessons and tutorials with her signature sassy attitude. Over six million social media fans can’t be wrong: Miranda Sings is one of the funniest faces on YouTube. As a bumbling, ironically talentless, self-absorbed personality (a young Gilda Radner, if you will), she offers up a vlog of helpful advice every week on her widely popular YouTube channel. For the first time ever, Miranda is putting her advice to paper in this easy-to-follow guide, illustrated by Miranda herself. In it, you’ll find instructions on everything: how to get a boyfriend (wear all black and carry a fishing net), to dressing for a date (sequins and an orange tutu), to performing magic (“Magic is Lying”), and much, much more! Miranda-isms abound in these self-declared lifesaving pages, and if you don’t like it...well, as Miranda would say...“Haters, back off!”

From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in The Art of the Fold. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, The Art of the Fold is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to

share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

Award-winning author-illustrator Phoebe Wahl offers a fanciful and beautifully illustrated peek into the hidden world of fairies, sprites, and other magical creatures. A girl searches for fairies in her backyard and the woods beyond, following little clues and traces of magic. Fairies and other magical creatures can be found on every page, hidden among the flowers, trees and pebbles. But although readers can see them, the girl keeps searching, just one step behind... In the end, it is clear (both to the girl and readers) that there is magic all around, even when it's hidden in plain sight. Phoebe Wahl takes us deep into the world of fairies, and her vibrant, multi-textured woodland scenes are every bit as enchanting as the creatures therein.
