Air-Mech-Strike BG (R) David L. Grange,BG (R) Huba Wass de Czege,LTC Richard D. Liebert USAR,Major Charles A. Jarnot,Major Al Huber,LT Mike Sparks,2002-01-01 This book outlines how to reorganize the U.S. Army into a fully 2 and 3-Dimensional maneuver capable, ground force with terrain-agile, armored fighting vehicles sized to rapidly deploy by fixed-wing and rotary-wing aircraft to the scene of world conflicts and strike at the heart of freedom,s enemies. The plan to build the Army into Air-Mech-Strike Forces, exploiting emerging information-age technologies, as well as America,s supremacy in aircraft and helicopter delivery systems---at the lowest cost to the taxpayers, is described in detail. These Army warfighting organizations, using existing and some newly purchased equipment, will shape the battlefield to America,s advantage, preserving the peace before it is lost; if not, then winning fights that must be fought quickly. The dangerous world we live in moves by the speed of the AIR, and the 21st Century U.S. Army 2D/3D combat team will dominate this medium by Air-Mech-Strike!

Death Was Our Companion Tony Tissier,2021-12-02 As Hitler's dreams of a Thousand Year Reich crumbled in the face of overwhelming assaults from both East and West in the first months of 1945, the heavily out numbered German armed forces were still capable of fighting with a tenacity and professionalism at odds with the desperate circumstances. While Hitler fantasized about deploying divisions and armies that had long since ceased to exist, boys of fifteen, officer cadets, sailors and veterans of the Great War joined the survivors of shattered formations on the front line. Leading historian Tony Le Tissier gives a German perspective to the mayhem and bloodshed of the last months of the Second World War in Europe. Teenaged Flak auxiliaries recount their experiences alongside veteran Panzergrenadiers attempting to break out of Soviet encirclement. Struggles between the military, industry and the Nazi Party for influence over the defenders of Berlin contrast with a key participant's account of Goebbel's abortive attempt to conclude a cease-fire with the Soviets. This is fascinating reading for anybody interested in the ordinary soldier's experience of the culminating battles in central Europe in 1945.

Space-Age Acronyms Reta C. Moser,2012-12-06 Acronym agglomeration is an affliction of the age, and there are acronym addicts who, in their weakness, find it impossible to resist them. More than once in recent months my peers have cautioned me about my apparent readiness to use not only acronyms, but abbreviations, foreign isms, codes, and other cryptic symbols rather than common, ordinary American words. Many among us, though, either have not received or have chosen to ignore such advice. As a consequence, what we write and speak is full of mystery and confusion. It is then for the reader and listener and for the writer and speaker that Reta C. Moser has compiled this guide. Its effective application to the art of communication is urged. Such use should help avoid many of the misunderstandings involving terminology which occur daily. Although such misunderstandings are certainly crucial in humanistic and social situations, they are often of immediate import and the trigger to disaster in scientific, technical, and political situations. Some 15,000 acronyms and 25,000 definitions are provided (a 50- and 47 -percent increase over the 1964 edition!), with due credit to Miss Moser's diligence in making the compilation and with the acknowledgment that the acronymical phenomenon is very much with us. This edition, like the first, is certain to be of value to writers, librarians, editors, and others who must identify and deal with acronyms.

Ghost Force Ken Connor,1998 Containing explosive details of operations unknown even to 99% of serving SAS men, this is the definitive history of the regiment written by an ex-SAS soldier of 23 years' experience. Connor reveals how the assassination of President Kennedy gave the SAS truly global significance. He tells the truth about SAS involvement in the Falklands War and the Gulf War and about their operation against the IRA in Gibraltar. Compiled from personal experience and the eye-witness accounts of friends and colleagues, this book reveals the inside story of SAS operations in both conventional war and counter-terrorist operations.

The Military Balance 2004/2005 International Institute for Strategic Studies,2004 The Military Balance assesses the military capabilities and defense economics of nearly 170 countries. Region-by-region analyses cover the major developments affecting security policy and the arms trade. Country-by-country entries list military organization, personnel, weapons and equipment holdings, and relevant economic and demographic data.

The Tanks of Tog Andrew Hills,2017-09-29 The previously untold story of the Special Vehicle Development Committee, better known as 'The Old Gang' or by the abbreviation 'TOG'. These were the men who were mainly responsible for the creation of the British tanks in WW1. Men like Sir Albert Stern, Sir William Tritton, Sir Harry Ricardo, and Major Walter Wilson. At the outbreak of WW2, they were given a new task, that of breaching the heaviest German defences, with a heavily armoured tank able to cross the worst mud soaked ground of Flanders. The SVDC managed in very short time to design more than one vehicle to accomplish this seemingly impossible task and built tanks bearing their acronym as TOG-1 and TOG-2. This book covers the development of both vehicles as well as several variations and other work such as an underwater tank and connections to the gigantic Cultivator machines of the Naval Land Equipment division. The work of the SVDC was conducted in secrecy with documents, photographs, and blueprints sent to various companies and people. Places where sadly since the war so much has been lost. This book was the culmination of several years of research by the author. A search which brought together archival information from as far afield as Canada, the USA, Australia, and the UK to tell the story of these incredible men and their incredible machines.
