**Original Grin** Ron English, 2019-07-16 Through his highly subversive art Ron English (b. 1959) has bombed the global landscape with striking and often unsettling imagery. He coined the term POPaganda to describe his signature and darkly satirical renderings of corporate branding icons. Ranging from superhero mythology to pillars of art history, his work is populated with a vast and constantly growing arsenal of original characters such as MC Supersized, the obese fast-food mascot featured in the hit movie *Supersize Me*; and Abraham Obama, which fused America's 16th and 44th Presidents, an image that was posited by the media as having directly impacted the 2008 election. His cameo on The

Simpsons secured his position as America's premier pop iconoclast. This book is the first complete retrospective of English's work, compiling his paintings, illustrations, toys, sculpture, street art, and agit-pop. Additionally, it contains a lengthy and comprehensive interview with the artist conducted exclusively for this publication.

Superman Vol. 1: Son of Superman Peter J. Tomasi, Patrick Gleason, 2017-01-10 WE ARE KRYPTON Part of the most critically acclaimed, best-selling, all-new line of volume one graphic novels, DC Universe Rebirth! When the Man of Steel died defending his adopted home, it seemed that the spirit of truth and justice he represented was extinguished forever. But watching from the sidelines was another Superman-older, wiser, more experienced-with his wife, Lois Lane, and their son, Jonathan Kent. Now this refugee from a vanished universe is stepping out of the shadows, ready to assume the mantle of his fallen counterpart and take to the skies once more as Earth's greatest hero. But he is not the only survivor of Krypton to make the journey to this reality. The machine mind known as the Eradicator is on the trail of the House of El, and its hardwired directive to protect the Kryptonian genome permits no consideration for any other forms of life-not even those that share Kal-El's blood. Can the son of Superman harness his newly emerging powers in time to resist the annihilation of his humanity? Or will he be reborn into a new Krypton forged from the ashes of his mother's world? Exploding out of DC's blockbuster Rebirth event, SUPERMAN VOL. 1: SON OF SUPERMAN marks the beginning of a new era for the Man of

Tomorrow and a great jumping-on point for new fans-brought to you by acclaimed storytellers Peter J. Tomasi, Patrick Gleason, Doug Mahnke, Jorge Jimenez, Mick Gray, Jaime Mendoza, John Kalisz, Will Quintana and Alejandro Sanchez! Collects issues #1-6 and the SUPERMAN: REBIRTH one-shot.

*If Anything Happens I Love You* Will McCormack, Michael Govier, 2022-09-27

Unimaginable loss yields to the power of human connection in this simple, moving story from the filmmakers of the eponymous Oscar-winning film. An elegy on grief. Heavy pain exquisitely rendered. Kirkus Starred Review Based on the Academy Award-winning animated short by the same name, *If Anything Happens I Love You* is a young adult graphic novel that follows two parents as they reckon with the loss of their young daughter, Rose, in a school shooting. Readers follow Rose from “above” as she watches her parents slowly break down under the weight and pain of their loss. Throughout the novel, Rose’s soul seeks to help her parents reconnect. We learn who Rose was and how much life she lived in her short time. By incorporating a wide range of characters, her boyfriend, teacher, and her cat, Rose is able to introduce healing into the lives of the people she left behind. *If Anything Happens I Love You* may be a story about loss, but in it we see ourselves—in the grief, the pain, and, most importantly, in the fight toward human connection, love, and acceptance.

This major work provides UK legal practitioners and accountants with clear and practical guidance from non-contentious but vital governance issues, to the complex issues pertaining to professional negligence. **Street Metal Detecting** Rosie O'Kelly, 2021-05-14 This book is the kick in the pants the hobby of metal detecting desperately needs today. It doesn't waste time teaching you about your detector. That's not its job. It's far beyond that. It's a plain written, straightforward, guide to rewarding metal detecting I wish existed when I first began detecting years ago! It's the perfect gift, not only for the new metal detectorist, but also the experienced metal detector who has grown bored and frustrated with the hobby. This work will drill down on where and HOW you should spend your time metal detecting today. Truth be told, metal detecting in 2021 is so much different than that of even ten years ago. The battlefields of today are barren. The parks and schoolyards are well and truly hunted out.

And I am one of the rare few who dares to tell you this. Hunt these places today and you are wasting your time. There, I said it. Yet our hobby mopes along as if we are living back in the 50's, with loads of silver coins and jewelry, there for the taking. Sorry, but the Leave it to Beaver world that existed then ain't the hard scrabble world of today. Old school methods and approaches are outdated and don't give you any leg up, much less any useable knowledge, to undertake metal detecting in an exciting and profitable way today. You can, however, be an early pioneer and open your eyes to a novel way of metal detecting, one which can both help you start the hobby right, or reinvigorate a hobby which has become downright boring. Tired of digging clad coins, chewed up pennies, and cheap costume jewelry? So was I. Out of mad frustration one day, I tried something which blew me away and gave me instant rewards. Actually, the results of the first hunt plain stunned me! I have pursued this method of metal detecting now for a few years, refined it, and finally decided to share it with others. It is a truly a new frontier. It offers rewards enough to make me excited every time I go out.. I couldn't say that five years ago! What is this? Street metal detecting. This guide will tell you about my experiences and show you, with pictures, some of the incredible items I have recovered. More than this it will instill in your mind the foundations of why my approach to detecting today is so amazing. It also explains how you should do street detecting, step by step. This includes where to detect, the proper method, and example after example, all drawn from my experiences, impressing on you why this is the single best way to metal detect today. By the end, you will know what I tell you is grounded in reality and a philosophy. As a result you will adopt it and change your metal detecting forever. If I could drag you with me on one of my hunts, I doubt you would ever

go back to a park or schoolyard. Yes, I feel that strongly about what's contained in this manual. Yes, you will read about some of the risks, but in this book I teach you how to mitigate them, and even use them to your advantage. Put another way, this is no pie in the sky read which promises much, and produces little. I am not a sales rep for detector manufacturers telling you to buy the latest most expensive detector if you want to succeed. In my approach, even the cheapest metal detector made will, when following my guidelines and suggestions, yield amazing finds. This hobby needs a do over and I think this book at least kick starts the process. Again, to me, if this guidebook was available to me as a raw beginner, I would have been eternally grateful. As for specifics, you will learn the right way to street detect as well as the perils of doing it wrong. I pull no punches here, but deal in plain logic and facts. It is a different world street detecting and there are some risks. But with any worthwhile undertaking, increased risk is usually commensurate with greater rewards. This is 2021, folks. The world has changed but metal detecting has neither recognized, nor has it adapted to, the realities of the challenges facing the hobby today.
