With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all – Sew magazine A wonderful insight into the work of a truly skilled artist – PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers – how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format

allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught,

**The Gold Coin** Alma Flor Ada, 1994-03 Determined to steal an old woman's gold coin, a young thief follows her all around the countryside and finds himself involved in a series of unexpected activities.

**Ali Cavanaugh** Ali Cavanaugh, 2019 Modern Fresco Paintings is the first collection of Ali Cavanaugh's paintings, and it follows her entire career using watercolor on kaolin clay to create her modern fresco technique and the lovely work that flows from it. Beginning with her hyper-realistic portraits and ending with her latest, more free-flowing pictures, her use of light, color, and the human form captures the essence of her models and their forms and feelings in a particular moment. Cavanaugh's artistic sensibility was developed by two important events in her childhood. Her dependence on the visual world began when she lost much of her hearing through spinal meningitis when she was two, and her creative spirit developed out of her being raised in a rural environment where she had to create her own ways of expressing herself and making her own fun. She developed her stunning modern fresco medium almost by accident as she was learning to apply the outer layer of plaster to her home in Santa Fe, New Mexico. Since that time this volume illustrates her growth as an artist and her mastery of the technique. These are lovely works, painted masterfully. Both long-time followers of Cavanaugh's work--from the earliest Sock Arms paintings to those who found her through more recent work like the Chroma series---and those who are discovering her and her art for the first time, will be delighted by this collection.
