Glock Paul M. Barrett,2013-01-15 The Glock pistol is America’s Gun. It has been rhapsodized by hip-hop artists and coveted by cops and crooks alike. Created in 1982 by Gaston Glock, the pistol arrived in America at a fortuitous time. Law enforcement agencies had concluded that their agents and officers, armed with standard six-round revolvers, were getting outgunned by drug dealers with semi-automatic pistols; they needed a new gun. With its lightweight plastic frame and large-capacity spring-action magazine, the Glock was the gun of the future. You could drop it underwater, toss it from a helicopter, or leave it out in the snow, and it would still fire. It was reliable, accurate, lightweight, and cheaper to produce than Smith and Wesson’s revolver. Filled with corporate intrigue, political maneuvering, Hollywood glitz, bloody shoot-outs—and an attempt on Gaston Glock’s life by a former lieutenant—Glock is not only the inside account of how Glock the company went about marketing its pistol to police agencies and later the public, but also a compelling chronicle of the evolution of gun culture in America.

Vanguard of Valor Combat Studies Institute Press,2012-02 From the foreword by Genral (ret.) David Petraeus: In 2010, as the scale and tempo of Coalition operations in Afghanistan increased, so did the need for historical accounts of small-unit actions. As commander of the International Security Assistance Force (ISAF), I commissioned the Combat Studies Institute to research and write the cases collected in this volume and in those that will follow. By capturing key insights from both lethal and non-lethal operations, I hoped these accounts would be of immediate utility to sergeants and lieutenants at the center of future operations. The eight actions described in these pages take the reader through a wide range of platoon-level operations, from an intense firefight near Kandahar to an intricate civic action project in Kunar Province. Drawing from dozens of Soldier interviews, these accounts vividly depict the actions themselves and offer critical insights of greatest benefit to the small-unit actions leaders of today and tomorrow. The US Army always has prided itself as an institution of constant learning, strongly committed to drawing lessons from its past. This volume from the Combat Studies Institute is an excellent example of that long and honorable tradition. I hope that you will find the actions n Vanguard of Valor to be both instructive and compelling. I am sure that you will find them to be inspirational.

Closing with the Enemy Michael Dale Doubler,1994 This study picks up where D-Day leaves off. From Normandy through the breakout in France to the German Army's last gasp in the Battle of the Bulge, Michael Doubler deals with the deadly business of war - closing with the enemy, fighting and winning battles, taking and holding territory. His study provides a reassessment of how American GIs accomplished these dangerous and costly tasks.

Point of Impact Stephen Hunter,2007-02-27 “A harsh, visceral, novel of conspiracy and betrayal . . . a disturbing mix that plays on our sense of history while at the same time it appeals to our darkest fantasies of rough justice.”—Chicago Tribune The inspiration for the USA Network series Shooter He was one the best Marine snipers in Vietnam. Today, twenty years later, disgruntled hero of an unheroic war, all Bob Lee Swagger wants to be left alone and to leave the killing behind. But with consummate psychological skill, a shadowy military organization seduces Bob into leaving his beloved Arkansas hills for one last mission for his country, unaware until too late that the game is rigged. The assassination plot is executed to perfection—until Bob Lee Swagger, alleged lone gunman, comes out of the operation alive, the target of a nationwide manhunt, his only allies a woman he just met and a discredited FBI agent. Now Bob Lee Swagger is on the run, using his lethal skills once more—but this time to track down the men who set him up and to break a dark conspiracy aimed at the very heart of America.

366 Days of World War II Richard Binder,2015-02-21 World War II lasted six years. That's 2,194 days. What happened in those six years? In this new diary, author Richard Binder takes a radical new approach to telling the story of the worst conflict humanity has ever experienced. Instead of trying to cover everything, he relates the happenings of just 366 days, the length of a single year. Choosing events great and small from the beginning of the war to its bitter end, he gives you a fascinating and sometimes shocking look at things you know from your high-school history and things you may never have heard of.

Cherries John Podlaski,2010-04-20 In 1970, John Kowalski is one of many young, naive teenage soldiers sent to Vietnam to fight in an unpopular war. Dubbed “Cherries” by their more seasoned peers, these newbies suddenly found themselves thrust into the middle of a terrible nightmare - literally forced to become men overnight. On-the-job-training is intense, however, most of these teenagers were hardly ready to absorb the harsh mental, emotional, and physical stress of war. When coming under enemy fire for the first time and witnessing death first-hand, a life changing transition begins...one that can't be reversed. The author is an excellent story teller, readers testify that they are right there with the characters, joining them in their quest for survival, sharing the fear, awe, drama, and sorrow, witnessing bravery and sometimes, even laughing at their humor. It's a story that is hard to put down. When soldiers return home from war, all are different - changed for life. Cherries tells it like it is and when finished, readers will better understand what these young men had to endure, and why change is imminent.

The Longest Kill Craig Harrison,2015-05-21 Through conflicts in the Balkans, Iraq and Afghanistan, this is the vivid memoir of British sniper Craig Harrison. It takes a tough mindset to be a successful sniper, to be able to dig in for days on your own as you wait for your target, to stay calm on a battlefield when you yourself have become the target the enemy most want to take out. Craig Harrison has what it takes and in November 2009 in Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill - 2,475 metres, the length of twenty-five football pitches. In *The Longest Kill*, his unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to cope with Al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high.
